LATEST NEWS EDITION

VOL. 120. ESTABLISHED JULY 29, 1786. NO. 5. PITTSBURGH, WEDNESDAY MORNING, AUGUST 2, 1905.—FOURTEEN PAGES. ONE CENT A COPY.

NEWS SUMMARY

THE YELLOW FEVER SITUATION.

Armed quarantine guards from Mississippi invade Louisiana, and a clash is imminent.—Page 1.

Cases develop in three Louisiana parishes and in Montgomery, Ala.—Page 1.

Deaths from yellow fever increased in New Orleans, owing to the heat.—Page 1.

THE SITUATION IN THE FAR EAST.

The Japanese army on the island of Sakhalin wins another victory.—Page 1.

DOMESTIC.

Frederick E. Carlton was arraigned in New York amid scenes of great disorder, caused mostly by women who were anxious to see the prisoner.—Page 7.

President has delayed contemplated change in army officers until Gen. Leonard Wood recovers from an operation.—Page 5.

Chief Statistician Hyde has received cable orders to return to this country at once and face the cotton scandal investigation.—Page 1.

Mr. Moody will push the investigation of graft charges, but is not sure there are laws to convict grafters.—Page 1.

Baron Komura's official mouthpiece says Japan's demands of Russia will not be exorbitant.—Page 1.

Questions asked by the Keep commission will solve the red tape problem of government methods.—Page 5.

Almost every department of the government found honeycombed with graft and President Roosevelt orders a thorough housecleaning.—Page 5.

Senator Culiom opposed to reckless expenditure by next congress and does not favor resumption of Spanish war stamp tax.—Page 1.

Chicago labor sluggers kept an express agent in a torture chamber three weeks and mistreated him so that he may die as a result.—Page 1.

PENNSYLVANIA.

At the York county Republican convention H. C. Niles failed in his effort to have the convention denounce the Republican state organization.—Page 2.

Maj.-Gen. Charles Miller to be wedded this week to a handsome New York woman. The Rev. Charles Wagner will perform the ceremony.—Page 1.

No appointments to the newly-created state police force will be made until fall.—Page 6.

President John Mitchell says the market justifies more wages and he will agitate for an increase.—Page 2.

LOCAL.

Prof. C. B. Connelley of Allegheny was appointed to the head of the School for Apprentices and Journeymen in the Carnegie Technical Schools.—Page 9.

Prisoner who stabbed fellow convict at Riverside refused to talk.—Page 9.

Director Bigelow removed Supt. E. G. Nicewaner from office.—Page 3.

The Gazette's directory of prominent pleasure resorts, tours and steamship sailings.—Page 9.

Obituaries, death notices and marriage licenses issued yesterday.—Page 6.

Standard Steel Car Company asserts it has turned over all blue prints to Pressed Steel Car Company, as ordered by court.—Page 11.

Director Bigelow again failed to introduce new hump grade ordinances and select council passed repealer.—Page 3.

Mayor Wyman secures control of five parties to use in February.—Page 1.

President Francis L. Robbins of the Pittsburgh Coal Company makes a statement to the stockholders concerning the half-year's results.—Page 7.

Pittsburgh, Shawmut & Northern Railroad Company goes into hands of a receiver preliminary to a reorganization and extension to Pittsburgh and Buffalo.—Page 14.

Daniel Darling of Allegheny, fired four bullets into his wife.—Page 2.

R. E. Stone of McKeesport is a Republican candidate for register.—Page 3.

Famous fighting chaplain, the Rev. Joseph L. Hunter, returned from the Philippines.—Page 2.

SPORTING.

The final game of the series between Pittsburgh and Brooklyn was prevented by rain.—Page 8.

Joe Kelley is to be dropped as manager of Cincinnati team, but continued as a player.—Page 8.

Local golfers are busy preparing for the fall tournaments.—Page 8.

FINANCIAL.

Higher call loan rates cause a slight reaction in the New York stock market. In Pittsburgh the trading was more active and the tone better than for weeks. Wheat closed weak.—Pages 12 and 13.

THE WEATHER

Fair today and tomorrow is the weather prediction for Pittsburgh and vicinity furnished by the official observer at Washington. The maximum temperature in this city yesterday was 87 degrees. The sun rose at 5:15 and set clear at 7:37. The daily report, furnished by the local weather office, follows:

Time.	Baro.	Tem.	Hum.	Wind.	Weather.
8 a. m.	30.03	82	81	N.	Clear.
8 p. m.	29.99	68	72	N.	Clear.

Comparative temperature and precipitation for August 1:

	1905	1904		1905	1904
Maximum	75	85	Mean	68	80
Minimum	61	71	Precipitation	.05	T.

Dfcy. for day	3		Dfcy. for day	.07	
Dfcy. since Aug. 1	3		Dfcy. since Aug. 1	.07	
Dfcy. since Jan. 1	166		Dfcy. since Jan. 1	1.99	

Official Weather Report.

WASHINGTON, Aug. 1.—Forecast:

Western Pennsylvania and Ohio—Fair Wednesday and Thursday; light north winds, becoming variable.

West Virginia—Generally fair Wednesday and Thursday.

Observations taken at weather bureau stations at 8 p. m.:

Omaha	79 Cloudy	Cincinnati	80 Clear
Duluth	66 Clear	Louisville	86 Clear
Buffalo	66 Clear	Chicago	68 Cloudy
Denver	74 Clear	Marquette	62 Clear
Salt Lake	82 Pt. Cldy	Memphis	82 Clear
St. Louis	86 Clear	Jacksonville	86 Cloudy
St. Paul	72 Pt. Cldy	New York	70 Rain
Galveston	84 Clear	Kansas City	90 Clear
San Antonio	94 Clear	New Orleans	78 Rain

CLEANLINESS MIGHT HAVE BEGUN AT HOME.

WON'T SPEND CASH WITH FREE HANDS

Economy Will Be Watchword With Next Congress, Says Mr. Cullom.

IS OPPOSED TO STAMP TAX

THE PITTSBURGH GAZETTE BUREAU,
Room 19, Postal Building,
WASHINGTON, D. C., Aug. 1.

Economy is to be the watchword in the next congress. It will be preached from the opening day until the gavel falls in the closing hours. By this policy it is believed by many prominent Republicans that expenditures of the government can be kept within the receipts and that another large deficit like the one of $24,000,000 that existed at the close of business on June 30 can be avoided. At any rate, if expenditures cannot thus be held down to the limit of the receipts, the deficit can be pared considerably.

Speaker Cannon favors economy and so do Representatives John Dalzell of Pittsburgh and T. E. Burton of Cleveland. They are opposed to levying additional taxes for revenue unless it cannot be avoided. They are of the opinion that with the available cash of about $130,000,000 in the treasury the government has no need to fear a comparatively small deficit for a few years, and if in time it is learned that we are not bringing in sufficient revenue to meet the expenses of the country, then they will agree to additional taxation. Other prominent members of the house and senate are on record to the same effect.

Senator Cullom of Illinois was at the treasury department today discussing with Secretary Shaw the finances of the government. He, too, is preaching the gospel of economy. He said: "We have got to get down to an economical basis. We can pare expenditures a good many millions a year by hard and careful work and not stint the government, either. Of course, I cannot say now that we will be able to reduce expenditures to a point within the income, but I do not see why we cannot, if we are determined. I certainly am opposed to the idea of placing additional taxation on anything now being taxed, as well as opposed to again imposing the stamp taxes of the Spanish war.

"If that is absolutely necessary, after we have gotten through reducing expenditures, then I may be willing to give attention to it, but we don't want to get ourselves into the idea of thinking that we must raise revenue in some manner and that the stamp taxes afford the only hope of relief."

L. W. STRAYER.

TAFT PARTY LEAVES JAPAN.

The Ladies' Patriotic Society Presents Miss Alice Roosevelt With a Large Bouquet.

NAGASAKI, Aug. 1.—The steamer Manchuria, with the Taft party on board, sailed at 7 o'clock this evening. During the afternoon Secretary Taft and Miss Alice Roosevelt attended an outdoor fete at Osuwa park, given by the governor. Miss Roosevelt was presented with a large bouquet by the Ladies' Patriotic society.

The party has had a fine trip through the inland sea and there was a demonstration of fireworks from launches and sampans when they reached the straits of Shimonoseki.

Sailors Killed by Practice Mine.

STOCKHOLM, Aug. 1.—Seven sailors were killed and eight severely injured today by the explosion of a submarine mine during mining practice in the Sandhamn roads near Stockholm. A boat containing the victims struck the mine and was blown into the air.

Four Persons Drowned.

DULUTH, MINN., Aug. 1.—By the capsizing of a small skiff on Swan river today Edith Tichenor, Goldie Tichenor, Everett Tichenor and Mrs. J. M. Pogus were drowned.

MRS. DUNNE PICKS COLLINS FOR CHIEF

Wife of Chicago's Mayor Selects a Man "in Whom All Can Trust."

APPOINTMENT SOON MADE

[SPECIAL TELEGRAM TO THE GAZETTE.]
CHICAGO, Aug. 1.—Mrs. Edward F. Dunne, wife of the mayor, is responsible for the appointment of John M. Collins, the new and strenuous chief of police, who has made 535 arrests in five days on raids on gambling dens and places of vice. Mayor Dunne permitted his wife to make the choice of Collins and he says he will hold her responsible for the record made by Collins. Mayor Dunne was more perplexed over the choice of a police department head than over any other place in his cabinet.

"Why don't you appoint a man in whom every one can trust?" asked Mrs. Dunne. "Why bother about politicians? I am a woman and I don't like to hear of women being in saloons. I don't think gambling is a good thing for the young, and I believe the laws relating to saloons ought to be enforced."

"Well, mother, whom would you appoint for chief of police if you were mayor?" asked her husband.

Her response was prompt: "John M. Collins."

"Very well," the mayor is quoted as saying, "you shall name him a member of my cabinet, and I will see to it that his appointment is confirmed. He shall have full power to make Chicago a law-abiding city and if he fails to do so I will hold you responsible for it."

In that way the Collins appointment was decided upon.

MR. MOODY WILL PUSH THE WORK OF INVESTIGATION

Although Action of Graflers Was Wrong He Is Not Sure Laws Will Cover Them.

[SPECIAL TELEGRAM TO THE GAZETTE.]
OYSTER BAY, N. Y., Aug. 1.—Attorney General Moody surprised President Roosevelt at Sagamore Hill today with an early morning call. He would not discuss the department of agriculture scandals which he is to probe, but he is going directly to Washington from here to take personal charge of the work.

"When I leave the president," he said this morning, "I may have something to say on another matter, but the agricultural department investigation is not in shape to be made public. Because a thing happens to be wrong it does not necessarily follow that any laws have been broken. Our statutes unfortunately do not cover all wrong-doing. The federal statutes are especially weak in some respects. The public is too ready to declare acts illegal."

SURVIVES FRIGHTFUL FALL.

Man Drops 175 Feet from Wireless Telegraph Tower, and May Recover.

SPRINGFIELD, MASS., Aug. 1.—John W. Johnson fell 175 feet from a mast of a wireless telegraphy plant today and is expected to live. He was foreman of the gang which had been erecting the plant and went up the mast to make repairs, refusing to allow any of his men to take the risk.

A break in the rigging caused the fall, Johnson landing on his hands and knees in the soft sand. His right leg is broken in three places and there are injuries about the back.

Parrots Give the Snap Away.

Patrick Winn and P. J. Davis learned yesterday that it is not wise to run away with another man's parrots. The men are alleged to have taken the birds from the home of Sol Yound of 1818 Center avenue, and the birds told all about it. Policeman James Boyle arrested the men and held them at Central police station as suspicious persons.

CABLE FOR HYDE TO RETURN HOME

Chief Statistician, Who Left Suddenly for Europe, Ordered Back at Once.

COTTON MEN ASK REMOVALS

THE PITTSBURGH GAZETTE BUREAU,
Room 19, Postal Building,
WASHINGTON, D. C., Aug. 1.

John Hyde, the chief statistician of the department of agriculture, who resigned under a hot fire from the Southern Cotton association and slipped away to Europe without notifying the authorities, who believed he would remain to aid the investigation, has been informed by cable that he is wanted in Washington and had better return. No reply has yet come from him.

Mrs. Hyde has informed Assistant Secretary Hays of the agricultural department that she has received a cablegram from her husband announcing his arrival at Liverpool and stating that he has another carbuncle on his neck. It is thought this carbuncle may soon be reported to have caused him such inconvenience and possible illness that he will not be able to return to the United States at once.

Graft in Meat Tags.

Secretary Wilson was back at his desk at the department of agriculture today. The first thing he had to look into was a published story that there was "graft" in the contract let by the bureau of animal industry for meat inspection tags, of which many millions are annually used by government inspectors. It was reported the Washington Printing Company, now furnishing the labels for 65 cents a thousand, did so without the formality of a contract, and that a government scientist put up the money for the formation of a company after the new variety of label was invented.

George E. Howard, vice president of the contracting company, declared today that no government official was in any way concerned in his firm, as officer, stockholder or employe. At Mr. Salmon's office it was stated that bids were invited for the label contract and that the Howard company had been the lowest bidder each time and that the label was the most satisfactory ever used. Mr. Howard recently returned from a visit to Canada, where he made a contract to supply the Dominion government with the tags.

Mr. Howard took the books of this company before the secretary of agriculture to show him there was nobody interested in it who should not be.

Declare Reports Worthless.

President Jordan and Secretary Cheat-

WYMAN WORKS UNDER COVER

Secures Control of Five Party Titles for Use in February Election.

HUNNESHAGEN IS IT

Desires to Make the Director of Charities the Next Mayor of Allegheny.

IS PLAYING WITH MURPHY

Mayor James G. Wyman is laboring hard to control the election of his successor. In addition to becoming an Orphan, Wyman has patented the right to the exclusive use of the titles of the National, Union, Peoples and Federation parties in the next municipal election.

Of course Mayor Wyman does not appear in the open. He never does unless he cannot help it. In this instance he is working under the cover of city employes, a driver for a friendly bottler of beer and one or two others, who for various reasons, are close to the North Side executive. One of the number is his chief clerk.

While Wyman is flirting with John R. Murphy and the former recorder expects to have the assistance of the mayor in his campaign, the present executive really wants to make Director Henry Hunneshagen of the department of charities his successor. He has confided this to his close political associates on this side of the river. Wyman would like to land him either as the Republican or Citizens nominee. As there seems to be some doubt about his being able to control the men who hold the patent to the Citizens party appellation, the new parties have been patented so he would not be hampered for flopping ground when the occasion arises.

Afraid of His Friends.

Some of the men who hold the North Side patent for the Citizens party are not so close to Wyman as they used to be. Several are endeavoring to make deals for their own protection, and as a result the mayor is guessing. To guard against trickery from within his machine, he is manufacturing new parties every time any of his loyal lieutenants can think of an appellation.

H. M. Davidson, collector of delinquent taxes in Allegheny and the possessor of a notarial stamp, is boosing the party-making job for Wyman. While he is credited with a desire to break into the Republican party for the fall election, he is simply following out the Wyman orders, and can be depended on to do what the mayor tells him.

The party appellations are not patented for use this fall in the county election. They are not available until the February election of 1906. It is set forth in each affidavit the five subscribers are members of the party for which they apply for a patent. They say it is the intention to nominate a candidate for mayor and name candidates for all district offices to be filled. This would include the election boards, the control of which is important to Wyman.

Controlled by City Employes.

The Gazette of Sunday told of the patenting of the Orphans party name for Allegheny. Those men pre-empted the title: W. J. Hanlett, brother-in-law of Mayor Wyman and a city employe; John C. Dittmar, water plug inspector; Alex. Bennie, superintendent of the Allegheny water works; Frank W. Ferree, city employe, and Harry Wagner, son of a former park policeman.

Those in control of the National party title are: Trevanion D. Lecky, clerk in the city treasury; James McCloskey, employed in the patrol stables and driver Mayor Wyman; W. H. Gerber, policeman; B. A. Earl, Jr., son of a former beer bottler, and driver for Fierley, a bottler who is close to the administration, and John G. Wilkins.

The Union party title is owned by the following: Samuel Abernathey, police magistrate; J. V. Bowman, chief clerk of the delinquent tax office; Walter V. Stark, police sergeant; Ralph K. Bigalow, a neighbor of Mayor Wyman, and Alson E. Marshall.

These men hold the patent for the Peoples party: Charles E. Lowe, water assessor's office; William H. Robertson, clerk in the delinquent tax office; Charles Merker, Jr., neighbor of Mayor Wyman; William B. Shaw, employed in the water department, and Martin Mitchell, street commissioner.

The title of the Federation party is held by James M. Bronnen, chief clerk to Mayor Wyman; C. S. Nuttall and R. M. Burr, employed in the water department; Charles H. Bepler, clerk in the city treasury, and Frank H. Beder, assistant building inspector.

TORTURE CHAMBER USED BY CHICAGO SLUGGERS

Agent of an Express Company Kept Prisoner for Three Weeks—So Badly Beaten That He Is Almost Insane and Will Likely Die.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

CHICAGO, Aug. 1.—Apparent evidence that labor sluggers maintain in Chicago a place where systematic torture is meted out to those who incur the displeasure of the sluggers has just come to light in the strange case of William H. Wilder. Wilder was formerly an army officer, and at the time of the teamsters' strike was claim agent for a Chicago package express company.

He disappeared July 8, was held captive for three weeks and was then set at liberty half starved and so dazed that he has not been able to give a coherent account of his captivity. He was found wandering about near the Union station and was taken to his home. Physicians pronounce his physical and mental condition such that he may not recover. Much of the time he raves as though still under torture and begs for mercy. Marks on his body show that he had been bound with heavy cords. Over $100 he is known to have had on his person is gone.

Wilder is an Englishman who saw service in the American army in Cuba and the Philippines and held a commission as a second lieutenant in the regular army. He defied pickets of sluggers to intimidate him.

CIVIL WAR MAY ADD HORROR TO YELLOW FEVER SCOURGE

DEFEATS CZAR'S FORCES

Japanese Army on Sakhalin Wins Another Victory After Hard Fighting.

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]
TOKYO, Aug. 1.—An official report from Japanese headquarters on the island of Sakhalin says the Japanese army July 28 defeated the Russians south of Rykoff, and later occupied Palero after hard fighting. The Russians retired southward.

Gen. Sarangtchi, commander-in-chief of the Sakhalin forces, ordered the establishment of a civil administration July 30.

ST. PETERSBURG, Aug. 1.—Gen. Linevitch has telegraphed to the emperor under date of July 2 denying the frequently published reports that his army was completely surrounded. He says the army has never been in a dangerous position. The flanks have never been turned, although the Japanese sought to do so.

MAJOR GENERAL MILLER TO WED AGAIN THIS WEEK

The Rev. Charles Wagner of "The Simple Life," Will Perform the Ceremony in Paris.

[SPECIAL TELEGRAM TO THE GAZETTE.]
FRANKLIN, PA., Aug. 1.—Maj.-Gen. Charles Miller of this city will be married in Paris this week to Mrs. A. D. Bolen of New York city.

This announcement was made authoritatively here tonight by friends of the Miller family. The Rev. Charles Wagner, author of "The Simple Life," who is a personal friend of the general, will perform the ceremony. In company with his son, French, who finished a law course at Yale this year, and Metta, his younger daughter, Gen. Miller sailed from New York last Wednesday.

Mrs. Bolen is a woman of 40 years and accomplished. She formerly resided in this city. Like Gen. Miller, she is a divorcee, the divorce having been granted about 10 years ago. Her husband is still living. She has one daughter about 15, who is now here visiting relatives.

Gen. Miller was divorced four years ago. His wife still lives here, occupying the home in which he and she formerly lived. Gen. Miller has fitted up another palatial home in Miller park.

JAPAN'S DEMANDS WILL NOT BE TOO OPPRESSIVE

Official Mouthpiece of Baron Komura Makes Statement Regarding the Terms of Peace.

[BY PRIVATE WIRE TO THE GAZETTE.]
NEW YORK, Aug. 1.—The demands of the Japanese at the coming peace conference at Portsmouth will be reasonable, according to a statement made today by A. Sato, Baron Komura's official mouthpiece. The declaration had all the force of an official announcement.

In talking of the probable course of Japan in the event peace is declared as a result of the conference, and that the evacuation of Manchuria by the Russians is accomplished, Mr. Sato said China would regain her dominion over Manchuria.

"Japan has no intention of annexing Manchuria," he said. "nor do we want any of China's territory. China is the rightful owner of this land and to China it should revert."

As to Korea, Mr. Sato was not so positive. "I don't know just what disposition will be made of Korea," he said. "That will depend greatly upon the conference. Korea has already made great concessions to the Japanese government, and these may be followed by others."

DYNAMITE EXPLODED TO BLOW UP A TRACK

B. & O. Workmen Try to Cross Mill Property at Youngstown and a Battle Results.

[SPECIAL TELEGRAM TO THE GAZETTE.]
YOUNGSTOWN, O., Aug. 1.—A small riot occurred this afternoon when the Baltimore & Ohio Railroad Company attempted to cross some land owned by the Republic Iron and Steel Company. The railroad desired it as a short cut from the old line to the new construction through the city.

At noon 50 men were put to work to lay tracks connecting the two lines. A gang of 250 in the employ of the Republic company held the fort for several hours, routing the railroad men. When the trouble was at its height the Republic men exploded dynamite along the track which had been laid by the railroad men at the peril of their lives.

An injunction was secured late in the afternoon, but the trouble did not cease then. The sheriff was requested to keep back the combatants with a force of deputies.

WILL MEET IN MADRID.

Spanish Capital Is to Be Scene of the Moroccan Conference—Portugal Sends Acceptance.

LONDON, Aug. 1.—The Madrid correspondent of the Daily Mail says it has been decided to hold the Moroccan international conference at Madrid the beginning of November.

TANGIER, Aug. 1.—Portugal has accepted the invitations of the sultan to send a representative to the Moroccan conference.

SOUTHERN WINDSTORM KILLS AND HURTS MANY

BEAUMONT, TEXAS, Aug. 1.—One white boy and two negro boys were killed outright and 25 other persons were more or less seriously injured in a heavy wind storm which struck Beaumont, La., this afternoon. The wind uprooted trees which fell on houses, killing and injuring the occupants.

State Armed Guards Invade the Soil of Louisiana.

CLASH IS IMMINENT

Gov. Blanchard Wires Gov. Vardaman the Situation Will Not Be Tolerated.

NEW POINTS OF INFECTION

[BY ASSOCIATED PRESS TO THE GAZETTE.]
MEMPHIS, TENN., Aug. 1.—A special from Baton Rouge, La., says:

A clash between the Mississippi and Louisiana authorities over quarantine regulations is imminent. A private dispatch was received in the city today stating that Mississippi soldiers employed as quarantine guards had invaded Louisiana with arms, and that boats were patrolling the mouth of Rigolets lake and Pearl river, off the Louisiana coast, to prevent Louisiana boats from landing.

Gov. Blanchard directed Brig.-Gen. Perrallat of his staff, and Capt. J. W. Boswick, commanding the state's naval militia, to investigate and report. He also telegraphed Gov. Vardaman of Mississippi:

"Have reliable information that Mississippi quarantine guards armed crossed over to Louisiana side at Pearl river. I do not believe this was on orders, but was the thoughtless conduct merely of a few. To obviate unfavorable comment and friction, please give orders that your guards remain on their own side of the line."

Overstepping Their Power.

Late this afternoon Gov. Blanchard received the following telegram from President Scudder of the state board of health:

"A patrol boat of the state of Mississippi patrolled Lake Borgne, and after prohibiting fishermen from fishing in the lake is now guarding the exit of Lake Borgne canal preventing any boat from coming out. This is an unwarrantable usurpation and invasion of Louisiana waters, and our attorney advises me to ask you to wire proper authorities in Washington at once to intervene, or take matter in hand yourself."

Gov. Blanchard then telegraphed Gov. Vardaman of Mississippi:

"Have information Mississippi patrols have forbidden fishermen from fishing in Lake Borgne, and are now guarding exit of Lake Borgne canal, preventing boats from coming out. Is this by your orders, or those of health authorities of your state? No such state of affairs can be tolerated. You have a right to prohibit boats landing on Mississippi shores, but not from navigating lake, sound and gulf channels which are navigable waters of the United States."

Gov. Blanchard also telegraphed President Scudder he would take prompt steps to protect Louisiana's rights.

SHREVEPORT, LA., Aug. 1.—Barney Tracy, a traveling man of Chicago, is in the detention camp, just outside the corporate limits of this city, suffering from yellow fever. There are no other cases in the detention nor any case in the city. The infection has been traced directly to New Orleans, although Tracy spent but a few hours in that city on July 25.

When the existence of the disease at the doors of the city became known today, through an official diagnosis, there was a panic, several hundred people seeking an outgoing trains.

Six More Victims.

NEW ORLEANS, Aug. 1.—Following is the yellow fever record up to 6 p. m.: New cases 61; deaths, 4; total deaths to date, 98; new foci, 4; total foci to date, 39; total cases to date, 386.

The day's record shows a continued improvement so far as the number of new foci is concerned and with no secondary infection from any of the existing foci, the general situation is regarded as hopeful. The large number of cases, the largest yet reported in a single day, shows that the tertiary infection among the panic-stricken people in the original district is appearing, which was to be expected.

One of the new cases is on Jackson avenue, in the residence district. The victim has returned recently to the city from his summer home on the coast.

The increase in deaths was not unexpected in view of the high temperature that has prevailed the past few days. There was, however, the usual large proportion of Italian names in the list, both of new cases and deaths, which has characterized the reports since the time when the fever was officially announced as existing here.

Prepares for Civil War.

The relations between the state of Louisiana and Mississippi have reached an acute stage. The quality of the state of Louisiana has been offended by an armed invasion from the sister state and this morning Gov. Blanchard communicated with the captain of the naval brigade, which has a fully equipped gunboat, with the view of having it dispatched to the borders to protect Louisiana citizens from further indignities.

Mississippi has five armed boats patrolling the coast to prevent fishermen from breaking through the quarantine lines. These vessels are also manned by the United States revenue cutter service. The Mississippi boats will not allow Louisiana fishermen even to enter Mississippi sound, east of St. Joe light, but from reports received here it appears that one of these patrol boats came into Lake Borgne, which is distinctly Louisiana territory, and one report says it came up to the mouth of Lake Borgne canal, which extends from the lake to the Mississippi river, only a distance of four and a half miles.

Louisiana's naval brigade vessel "Pinsonat" drawn too much water for service in that vicinity, but a fight over here will be suppressed into service armed with a Hotchkiss of two, 24-pound lip of doors from the muzzle, and will be sent out to prevent further aggression.

It was learned authoritatively tonight

that the schooner Grace of Gulfport, and another vessel had been lying five miles inside of the Louisiana line most of the time for the past week, at times even entering the Rigolets, the outlet from Lake Ponchartrain into Lake Borgne, and during that time had taken 18 Louisiana boats, some of them schooners and others luggers, and turned them over to the United States revenue cutter Winona, and towed them to Ship Island, where the crews were immured.

This brings the federal government into the muddle. Gov. Blanchard has wired to Washington, but the text of his message has not been given out.

Some of the territory now patrolled by the Mississippi boats is in dispute before the supreme court of the United States, both states having laid claim to it since the legislature of Louisiana created an oyster commission and passed laws to protect the valuable oyster beds in that vicinity.

The state board of health received official notice of the appearance of fever in three other parishes today, but as the victims are all Italians or Austrians, and the connection with the infected district in New Orleans has been established, no alarm is felt over the news.

New Points of Infection.

One of the new points of infection is the lower part of the Plaquemine parish, on the west bank 50 miles below the city. Dr. V. S. Schayot, parish health officer, reported six cases from that vicinity yesterday, one at Sunrise, one at Empire, one at Ostrica, one at Point Celeste and two at Vacaro. The parties are all fishermen or truck farmers, and three of them are Austrians.

Lieut.-Col. L. M. Mauson, udring his inspection of Fort St. Philip recently, discovered a case five miles from the fort, but the patient was nearly well at the time.

Another point of infection is on Ardoyne plantation in Terre Bonne parish, between Houma and Ebriever. The state board was asked for a doctor and nurses, and Dr. McCutcheon is arranging to send some one there.

Westwego, just across the river from Audubon Park, Jefferson parish, where there is a small settlement, has developed two cases among Italians who went there from the infected districts in the city. One is dead, but the other is doing well.

Doctor May Be Marooned.

It is beginning to be feared that Dr. Brady, who was sent to Lake Providence by the state board, has been marooned somewhere, as not a word has been heard from his since he left, three days ago. The quarantines in that part of the state are extremely rigid.

The Texas scare has evidently grown some in the last day or two. Monday the quarantine against the whole state of Louisiana was reinstalled, and today Dr. Tabor put an end to communication between the two states and to transcontinental traffic as well.

Following the receipt of this news, Surgeon White of the Marine Hospital service, announced that no more persons would be received at the Avondale detention camp, which was designated for western travel over the Texas & Pacific and Southern Pacific roads.

MONTGOMERY, ALA., Aug. 1.—It was officially announced here tonight that there is one case of yellow fever in Montgomery. The patient is William Minnihett, who, according to his statements, reached Montgomery Monday, July 24, from Kentwood, La. He became ill last Friday night in a hotel and was removed to the Emergency hospital.

FORESTERS ELECT OFFICERS.

Will Adjourn Convention to Toronto to Inspect New Orphans' Home of the Order.

ATLANTIC CITY, Aug. 1.—The supreme court, Independent Order of Foresters, today selected Toronto, Ont., as the next place of meeting four years hence. The salary of Supreme Chief Ranger was increased to $5,000 a year and the treasurer to $6,000. The following officers were elected: Supreme chief ranger, Dr. Oronhyateka, Toronto; past supreme ranger, Judge Wedderburn, New Brunswick, N. J.; supreme vice ranger, J. D. Clark, Ohio; supreme secretary, John A. McGillivray, Toronto; supreme treasurer, H. Collins, Toronto; supreme physician, Dr. Thomas Millman, Toronto; supreme councillor, Elliott G. Stevenson, Michigan.

Adjournment will be made Friday from here to Foresters Island park, Toronto, where the chief ranger will formally turn over the site for the new orphans' home, donated by him to the order. The home is about completed. The delegates go there to attend the dedication.

MR. CARNEGIE DECLINES.

Refuses to Add Music Hall to McKeesport Library—Belief That He Is Displeased With Councils.

SKIBO CASTLE, SCOTLAND.

Trustees of Carnegie Library, McKeesport, U. S. A.:

Mr. Carnegie regrets that he cannot entertain proposal of trustees for founding a music hall in connection with the McKeesport library to increase its popularity.

This curt refusal is signed by Mr. Carnegie's private secretary. It indicates that Mr. Carnegie is displeased with the city of McKeesport. It is pretty thoroughly understood that the music hall would have been built and presented to the city had it not been for the action of McKeesport councils in refusing to appropriate sufficient money to properly support the Carnegie library. For some years the library trustees have been hampered by lack of funds.

The request for the music hall was made to the laird of Skibo some time ago and the answer was received yesterday by the board of trustees.

OCEAN INTELLIGENCE.

Arrived, Aug. 1.

New York—Minneapolis, from London; Oceanic, Civic and Caronia, from Liverpool; Bremen, from Bremen; Kaiser Wilhelm der Grosse, from Bremen.

Glasgow—Furnessia, from New York.

Antwerp—Kroonland, from New York.

Naples—Prinz Adalbert, from New York.

Hong Kong—Doric, from San Francisco.

Sailed, Aug. 1.

New York—Kron Prinz Wilhelm, for Plymouth; Pannonia, for Naples.

Liverpool—Saxonia, for Boston.

London—Columbian, for Boston.

Christiana—United States, for New York.

Passed, Aug. 1.

Lizard—Pennsylvania, from New York for Dover.

TODAY'S AMUSEMENTS.

BIJOU—"How Hearts Are Broken," 2 and 8 p. m.

WILLIAMS' ACADEMY—Williams' Ideal Burlesquers, 2 and 8 p. m.

EXPOSITION BALL PARK—National League championship series, Pittsburgh vs. New York, 3:30 p. m.

LUNA PARK—Craig street, near Grant boulevard; open from 10 a. m. to midnight. This week—Innes' band in two concerts daily; Herr Grando and Mlle. Fedora, with Rajah, wire walking elephant.

KENNYWOOD PARK—Homestead Library band, concerts afternoon and evening. Ricco Bonis trained horses in free exhibition.

SOUTHERN PARK—Vaudeville bill.

OAKWOOD PARK—Vaudeville bill and Cotton's comedy donkeys.

FOUR SPECIALS.

Hoffmann's are offering four pianos this week at prices that represent exceptional value. If you are going to buy a piano, don't fail to see them, or write for further particulars.

$550.00 Schmer & Co. upright, mahogany, Colonial case, used three months.....$345.00

$350.00 Vose & Sons' upright, mahogany, finest style, handsome Colonial case, used less than 10 months; good as new, and goes for one-half the original cost.....$275.00

$300.00 Thayer upright, mahogany. A good toned piano, of fine appearance for only.....$175.00

$250.00 Cable & Sons' upright, ebonized; tone and action fair..$ 85.00

Accommodating terms can be arranged if desired on any of these specials.

J. M. HOFFMANN CO.,
537 Smithfield St.

$2.00 to Cumberland and Return, Sunday, August 6th.

Special train leaves Baltimore & Ohio station, Pittsburgh, 7 a. m.

CHAPLAIN HUNTER RETURNS HOME

Famous Fighting Dominie of Tenth Comes from Philippines to Fort Thomas.

TELLS INTERESTING STORY

The Rev. Joseph L. Hunter, who in the Spanish war in 1898 became famous the country over as "the fighting chaplain of the Tenth Pennsylvania," arrived in this city late last night and for a few days will be the guest of his father-in-law, the Rev. Dr. David McAllister, at the latter's home in Lafayette avenue, Allegheny.

Chaplain Hunter comes direct from the Philippines, where for three years past he has been stationed as chaplain of the Fourth United States infantry. This regiment was transferred in June to Ft. Thomas, Ky., and last Saturday arrived there. The fighting chaplain and his family expect to make their home at Ft. Thomas for the next four years, and are enjoying an eight-day leave of absence.

REV. JOSEPH L. HUNTER,
Former famous fighting chaplain of the Tenth regiment, now a regular army chaplain.

The parents of Chaplain Hunter came from Beaver Falls yesterday and with Dr. McAllister and Mrs. McAllister met the Hunters at Union station. Chaplain Hunter will occupy Dr. McAllister's pulpit next Sunday morning and tell what Christian ministers are doing for the United States troops and the natives in the Philippines.

Became a Regular Army Chaplain.

Three years ago last month Mr. Hunter was appointed chapiain of the Seventh United States infantry and assigned to San Francisco. His experiences with the Tenth regiment in the Philippines fitted him to do a chaplain's work in the far east, and in June, 1903, he was transferred to the Fourth infantry. With Mrs. Hunter and their four children he went to Manila, and from there to Nueva Caceres, on the island of Luson. Four months they were there and then got orders to move with the regiment to Legaspi, in Abay province. From October, 1903, until last April, this was their home.

One of the children was in ill-health and to permit the lad to escape the severe summer heat in Legaspi, the government granted Chaplain Hunter a 60-day leave of absence. From Manilla the family journeyed to China and Japan, visiting Hongkong, Canton, and Shanghai in China, and spending most of the time in Japan at Nagasaki.

They were in Nagasaki when Admiral Togo smashed the Russian navy. The Japanese naval base is at Sasebo, but a few miles along the coast from Nagasaki, and the captured battleships of the Russians were towed to Sasebo. The Hunters participated in the excitement that prevailed after the news of the battle was known and Chaplain Hunter speaks interestingly upon this incident of the war. He says:

Japanese People Are a Puzzle.

"The Japanese people must always prove a puzzle to Americans. This truth was made plain when dispatches containing news of the great naval battle were received in Nagasaki. Not a bit of excitement did the Japs display and the proprietor of our hotel who received these bulletins, one after another, read them in an even voice and showed not the least emotion." In the streets the same condition prevailed. Of course, the Japs were happy over the glorious victory, but they did not celebrate the way we would do here at home. That victory meant more to Japan than Dewey's entrance into Manila and to the United States, but there can be no comparison between the celebrations that marked the two events. When it finally became known that 30 Russian ships had been captured or sunk, the government set a day for celebrating. It was tame and really disappointing, especially when you remember that the battle was not a great distance from Nagasaki, and that the residents of the city could, without much trouble, go to Sasebo and view the spoils of the conflict.

"We are glad to be back in our own country. Our lives were happy over in the Philippines and we have all had pretty good health, but after all that was not our home. When we first arrived in the Philippines cholera and malaria were killing off hundreds of the natives. Improved sanitary conditions enforced by our government have been a big factor in bettering conditions there and disease is not so prevalent.

Good Done by the Government.

"Much good has been done by our government in the few years we have owned the Philippines, and yet there is a great deal of trouble caused by the natives. We have opened many excellent schools for the children and apparently most of the natives seem to take kindly to American domination, but the Filipinos are a fickle people, easily led. In different parts of the country leaders spring up who incite the natives to rebellion and our troops are constantly kept busy suppressing the uprisings led by ambitious leaders.

"Of late there has been warfare, of a guerilla kind, in the provinces of Cavite and Batangas, and in the island of Samar. You don't hear much of it over here and really it is not very serious, but the fact that rebellion exists warrants the residence in the islands of 20,000 United States troops.

"In no part of the islands is there ever heard discontent with the new government generally expressed. If the people are let alone, and adventurous leaders do not start trouble, our government would have little or no difficulty with the native population. Never do you hear expressed any love for Spain.

Filipino Children Are Bright.

"The Filipino children are bright and seem to be eager to learn. They attend the schools and up to a certain age rapidly assimilate knowledge. Then the characteristic laziness seems to step in and smother ambition, and the school is deserted. It will take years to overcome this trait that has existed for hundreds of years in the race. The people lack steadfastness and industry. This is seen in the fact that the Chinese are the people who really amount to anything in the islands. It is the Chinese who are the merchants the shop-keepers, the biggest farmers and the servants. Chinese actually control the business of the islands.

"Labor is no cheaper over there than it is here. Chinese cooks and house servants command just as good wages as servants do in this country. Filipino labor is cheap but not reliable."

Change of Hospital Physicians.

A change of resident physicians took place at the McKeesport hospital yesterday, four old ones having served their term of one year. The retiring doctors are A. E. Forster, Petoskie, Mich.; A. M. Melvin, Philadelphia; P. L. Deckard, Bridgeport, Pa., and S. S. Jordan, Volant, Pa. Their successors are Dr. F. W. Rudolph, Allegheny; J. B. Fealy, New Philadelphia, Pa.; W. C. Heisley, Philadelphia, and George L. Howder, Elizabeth, Pa.

ALLEGHENY MAN SHOOTS HIS WIFE

Theresa Darling Sacrifices Herself to Save Mother from Husband's Revolver.

END OF UNHAPPY MARRIAGE

"For God's sake, don't kill mother; you can shoot me if you want to!"

Uttering these words Theresa Darling of 1072 River avenue, Allegheny, last evening struck up the revolver that was pointed at the heart of her mother, Mrs. Florence Schmeich, by the younger woman's husband, Daniel Darling. Her sacrifice will probably cost her life, for she is in the Allegheny General hospital with four bullets from a 32-caliber revolver in her body. One of the balls penetrated the left lung and the hospital physicians say it will likely cause death within a short time.

There seems to have been a cool deliberation on the part of the would-be murderer that has seldom been equalled in the crime annals of this vicinity.

At the home of Mrs. Schmeich, the young wife, who is only 19 years of age, and who was a bride only a year ago, was helping her mother prepare supper when Darling entered the yard. Walking up to Mrs. Schmeich he placed his weapon against her bosom and said, with a curse: "I'm going to kill you first."

Intervened to Save Mother's Life.

It was then that Mrs. Darling intervened to save the life of her mother. Darling clutched her about the neck with one arm, and with the revolver in his other hand fired three bullets into her. The woman broke away and ran down River avenue and turned into the freight yards of the H. J. Heinz Company, with Darling close at her heels. On a railway siding he overtook his wife and fired another bullet into her body. With wonderful courage the young wife managed to get back into the yard of her mother's home and there sank to the ground.

Before shooting his wife Darling had snapped the trigger of the weapon that was held against the body of his mother-in-law. When Acting Superintendent of Police Glenn examined the revolver last night he discovered that one chamber of the six had not been filled. This fact alone prevented the death of Mrs. Schmeich, for the weapon was pointed directly at her heart.

With the smoking revolver in his hand Darling started out of the Heinz yards for River avenue, where he was overtaken and overpowered by James P. Smith, a watchman for the Heinz company. Smith turned the prisoner over to Policeman James Crann, who took him to Central station. In the lockup last night Darling feigned drunkenness and appeared to be in a stupor when visited by Superintendent Glenn.

Said He Shot a Policeman.

A year ago last June Theresa Schmeich married Darling, about whom she knew very little. Shortly after the marriage he told his wife he had fled from St. Paul, Minn., some month before because he had shot a policeman. Whether or not the shot was fatal he did not know. His parents, he said, were burned to death some years ago in a forest fire. Little happiness followed the union, and in their 14 months of wedded life they have lived apart four times. Five weeks ago Darling went to Cleveland and last Saturday he returned.

Darling is a stationary engineer and was working for James Omslaer, the Allegheny contractor, whose office and yards adjoin the Schmeich homestead. Early yesterday afternoon Darling walked into the residence of Mrs. May Thompson, sister of Mrs. Schmeich, at 1125 River avenue and exhibiting a revolver and a box of cartridges, remarked:

"I'm going to kill my wife, her mother and Connelly."

The latter is said to be a railroad brakeman who is intimate with the Schmeich family. Shortly before the shooting Darling came upon Connolly in a tool house in Omslaer's yard and struck him several times. Connelly evidently feared Darling for he jumped through a window and went out River avenue. Then, shortly before 6 o'clock, Darling went into the Schmeich yard. Mrs. Schmeich was standing in the doorway. The daughter was just inside, preparing the evening meal. The shooting followed.

Alderman Charles Von Moss and his Constable Charles Christian were in the vicinity and heard the shots. They arrived in time to aid Watchman Smith in subduing Darling, and accompanied him to the lockup.

Mrs. Darling Has Known Much Sorrow.

At the River avenue home last night Mrs. Schmeich told of the sorrow her daughter has known since her marriage. She says Darling frequently abused his wife and several times threw dishes at her. Once he hurled a lamp across a room at her, but his aim was not true and the burning lamp crashed against the wall, causing a blaze.

Before the shooting Darling was seen with several checks, said to have been drawn on the First National bank of Washington, Pa. These he tore into small pieces and threw away.

For some time Mrs. Darling has been in a delicate condition but always refused to take the rest she needed. During the past ten days she has been engaged in cleaning the Eighth ward public school, that she might be able to support herself and subscribe to the living expenses of Mrs. Schmeich and her eight children.

The hospital physicians last night said they dared not probe for the bullets as the woman was too weak to bear any shock. One ball is lodged in the left lung and caused internal hemorrhages; two entered her back just below the left shoulder, and one ploughed through her arm. She was unconscious last night, and it was said at the hospital that she could scarcely live more than a day.

Purchases a Vast Estate.

PORTLAND, ORE., Aug. 1.—Contracts have been signed in this city for the sale of the French-Glenn ranch in Harney county, Ore., comprising 164,000 acres, to the Co-operative Christian Federation. The consideration is $1,800,000, the first installment to be paid within 30 days. The ranch is 60 miles long and 25 miles in width.

PRESIDENT JOHN MITCHELL WANTS ADVANCE FOR MINERS

Says the Present Market Justifies Higher Wages and He Will Never Be Satisfied Until They Get It. He Will Keep Up the Agitation.

[SPECIAL TELEGRAM TO THE GAZETTE.]

WILKESBARRE, PA., Aug. 1.—President Mitchell of the Mine Workers union upon his visit to Nanticoke today defined the position to which he hopes to lift the union before he will be fully satisfied with the conditions. Several thousand people greeted him and the entire town, which is one of the most enterprising of the mine communities, took a holiday to honor his address and participate in the parade. After reproaching the mine workers who have neglected the union and telling them what they have lost by doing so, he declared:

"If you had a guarantee that present wages and conditions would continue through life, men might possibly be excused for deserting the union, but there is no guarantee that they will continue after March 31, 1906. If I had a guarantee that they would be continued, I would not be satisfied. I would still agitate for more wages, shorter hours and improved conditions. I favor agitating for more wages and if the men receive more pay next year I would still want more the year following. I would keep at it until mine workers are as highly paid as other crafts having the same hazards and risks.

"I shall not cease making demands until every boy and girl is in school, where they belong, and not in the breaker or mill. Of course, I don't expect to be unreasonable. By saying that, I mean that we cannot expect wages to be better than the condition of the coal market affords, but the present market justifies more wages for the men."

FILTHY SEWAGE FOR CITY'S WATER

Philadelphia Inspectors Find Frightful Conditions Prevail in Source of Supply.

RIVER SIMPLY A GREAT SEWER

THE PITTSBURGH GAZETTE BUREAU,
Press Building,
PHILADELPHIA, PA., Aug. 1.

A rivulet of thick, slimy sewage, so strongly charged with marsh gas formed from its own filth that explosions occur in the bottom of the stream, was a striking bit of evidence of the pollution of the Schuylkill seen at Norristown today by the representatives of the state and municipal health departments, who finished their inspection of the river and its sources of contamination this evening.

With two large streams flowing into the river as fast as their concentrated sewage will permit, Norristown, the sanitary experts declare, at present does more to befoul Philadelphia's water supply than any other place. This is saying a great deal, for Monday's trip from Reading to Phoenixville showed an almost unbroken chain of dangerous sources of contamination.

In addition to the total lack of care taken with the sewage at points below Phoenixville, the danger is accentuated by the fact that the reeking matter is poured into the river a comparatively short distance above the point where it is pumped into the system supplying 1,250,000 human beings with drinking water. Even as near the intakes as Conshohocken and Manayunk, some glaring cases of direct pollution were found.

"It's criminal," said one of the physicians while the party stood on a bridge at Main street over Stony Creek. That was only one of many similar remarks, none of which did justice to the scene of watery slime slowly making its way in a current 40 feet wide by 5 deep. This great volume of foul smelling water, partly liquid and partly solid, really caused a scare among some of the inspecting party, who realized that in another day or so they may be drinking some of it in a water-soaked form. While they gazed at the dark green sight the water in the middle stream spouted up like a geyser in a sudden eruption.

A short time later the eruption occurred again, and investigation showed that the filth generates marsh gas in the bottom and explodes at intervals. Although known as a creek, it is in reality an immense sewer, emptying directly into the river.

BOLD THIEF AT WORK.

He Enters East End Houses in Broad Daylight, Scares Women and Gets Booty.

A thief forced the front door of the house of Miss Catherine Calpin, No. 5743 Parker street, yesterday and carried off about $40 worth of jewelry and $20 in money. Miss Mary Calpin was lying in an upstairs room sick when the man, whom she describes as being fairly well dressed, entered her room. She jumped from her bed and attempted to prevent his escape. The man evaded her. Miss Catherine Calpin, who was in the cellar, hearing her sister's cries, hurried upstairs and found she had fainted.

Shortly before the robbery of the Calpin house a man entered the home of Mrs. James Blaney, No. 5735 Parker street, went upstairs and was making his way to a front room when stopped by Mrs. Blaney. He apologized and said he had made a mistake, as he thought he was in his boarding house.

SCARLET FEVER BREAKS OUT IN CHILDREN'S FRESH AIR HOME

Scarlet fever, in mild form, has broken out among the children at the Children's Fresh Air home at Glen Canon, near Freeport. There are 49 children in the home under the care of Miss Fisher, and they were sent there from the downtown slum districts of this city by the First Presbyterian church, which makes quite a feature of its fresh air relief work. Drs. McLaughlin and McDowell of Freeport, who have been attending the children, say that nine have had the rash and four are now down with it. The home has been put under quarantine and no more children will be admitted for 30 days.

YORK COUNTIANS WANT NO CHANGE

H. C. Niles Fails to Have Convention Denounce the State Republican Organization.

RECEIVES BUT THREE VOTES

[SPECIAL TELEGRAM TO THE GAZETTE.]

YORK, PA., Aug. 1.—The feature of the Republican county convention here today was the refusal of the delegates to denounce the Republican state organization. H. C. Niles, former president of the State Bar association, presented the anti-organization resolutions, which failed of adoption.

It was decided by the convention to present resolutions to the resolutions committee without debate. Two sets of resolutions were presented to the committee. One was by County Chairman Bair indorsing the administration of President Roosevelt and his cabinet, and praising the safe and economic administration of Gov. Samuel W. Pennypacker. The other was presented by H. C. Niles.

When it was in order to appoint a committee on resolutions Mr. Niles made a motion in order, he said, to secure the parliamentary right of being placed on that committee. He asked that one of the names on the state committee be stricken out and his substituted. This was agreed to. It was a good strategic move on the part of Mr. Niles, who realized the convention was against his resolution, but that by getting on the committee he would be enabled to hand in a minority report asking for the substitution of his resolutions for those presented in the majority report.

Three nominations were made by acclamation—that of treasurer, poor director and coroner. The resolutions adopted were in part as follows:

That we indorse the dignified and vigorous administration of President Roosevelt. Under his inspiring influence the ideals of the country are lifted up; in his moral courage the people are made confident and proud; the whole nation is strengthened and encouraged thereby.

We indorse the administration of Gov. Samuel W. Pennypacker as unpretentious, economical, honest and safe; it being such an administration as has introduced permanent policies for careful official business at Harrisburg, and an administration that will increase in public favor and advantage to the state the longer and the better its purpose are understood.

The Niles resolutions, which failed of adoption, receiving only three votes, expressed sympathy with Mayor's Weaver's work in Philadelphia and scathingly denounced Senator Penrose and the leaders of the party in the state. It is said the Niles resolutions were prepared in Philadelphia by the Wanamaker managers, and their failure to secure approval will be a great disappointment to their authors.

RIDGEWAY, PA., Aug. 1.—(Special.)—At the Democratic county convention today Harry Alvan Hall presided. The following nominations were unanimously made: Associate judge, Harry R. Hyde; prothonotary, A. M. Fox, who has no opposition on the Republican side; treasurer, Burke T. Darr of St. Marys; commissioners, Thomas H. Ledden of Ridgeway and Joseph Kriez of St. Marys; auditors, A. P. Kerstetter of Highland and Jeremiah Beck of Fox township. George C. Simons was made county chairman.

HONESDALE, Aug. 1.—Wayne county Prohibitionists today nominated the following county ticket: Prothonotary, S. Perry Jones; register and recorder, C. H. Alle; sheriff, Jonathan Brown; commissioners, J. L. Brown and Richard Glanville.

SLATE FALLS THROUGH.

WASHINGTON, PA., Aug. 1.—(Special.)—The leaders of the Citizens-Democrat fusion party in Washington county were unable to keep their promise today to announce their full slate of candidates for county offices. The party leaders met here today and were ready to sign the nomination papers when James Murdock of Independence township, slated for nomination for clerk of courts, notified Acting Chairman McConnell that he positively would not stand for the office.

Murdock is a wealthy lumberman and has great political influence in Independence township. The fusion leaders promise, however, to announce the slate next Thursday, being confident of securing a nominee for the vacant office by that time.

RIVER AND ROPE END TWO LIVES

Two Unknown Men Commit Suicide, but One May Be Frank Volko.

ORDER FLAGMAN ARRESTED

Two unknown men committed suicide in Allegheny county yesterday. One jumped off the South Twenty-second street bridge into the Monongahela river and drowned himself. The other hanged himself in the barn of J. B. Kistler, Plum township. Nothing was found on either of the men by which they could be identified. Their bodies are in the morgue.

The man who drowned himself was seen to jump off the bridge by John Rubenheim of the South Side. He said the man was acting in a queer manner at the center of the bridge. Suddenly he climbed on the railing and jumped into the water. Five boys were rowing a short distance from where the man fell, and when they reached him he was floating on the water dead. He was a foreigner, about 25 years old and was 5 feet 5 inches in height.

The man who hanged himself fastened a rope to a rung of a ladder in Kistler's barn, and slowly strangled himself to death. He was a foreigner and had been loitering about the place for several days. The body was found by Harry Altman.

Thinks It Is Her Husband.

Mrs. Josephine Volko thinks the man her husband, who left for the old country about three years ago. She said the features were similar to those of her husband, but she was not positive in her identification.

Her husband told her when leaving that if he ever came back he would hang himself. Mrs. Volko yesterday received a postal card from the old country, supposed to be from her husband. It read: "Remember me and pray for me." It was signed "Frank Volko."

Frank McMullen, aged 25, a miner of Scott Haven, died at the Mercy hospital last night from injuries received July 28 at the Ocean mine at Scott Haven. He was pulling a prop from under some slate and was crushed.

Anthony Ulrich, aged 22, died at the St. Joseph's hospital yesterday afternoon from tetanus, as a result of injuries received July 24, by falling out of a wagon at Carrick. The wagon passed over his arm, crushing it.

Fatal Fall from Bridge.

George Catchur, aged 32, of 2007 Shady avenue, Allegheny, died at St. John's hospital last night from injuries received yesterday afternoon by falling off a bridge over the Ft. Wayne railroad tracks at McClure avenue, Allegheny.

William Mackey, aged 45, of Carnegie hollow, McKeesport, died at the McKeesport hospital yesterday from injuries received in the Ella mine of the Pittsburgh Coal Company at McKeesport early yesterday morning. He was crushed by a fall of slate.

Walter Spiegel, aged 7, of Crawford street, McKeesport, died at his home yesterday as the result of falling from a five-foot fence about four weeks ago near his home. He struck on his head and an abscess of the brain developed.

The inquests into the deaths of Leroy Cook and North Beatty, who were killed in a freight wreck, June 8, at Saltsburg station on the West Penn railroad, was held yesterday and the jury recommended that Anthony Sylvester, a flagman, be held to await the action of the grand jury on a charge of criminal negligence. Sylvester disappeared after the accident and the jury ordered his arrest.

Engineer Was Not Flagged.

It is alleged the train ran into an open place in the track, where a rail had been taken out by the repairing crew. R. G. Hughes, the engineer, testified he was not flagged by the track foreman, and the first he knew of any danger was when the engine jumped off the track, wrecking the train.

Mrs. Elizabeth Plummer died yesterday afternoon at St. Francis hospital from injuries received July 12 in a gas explosion at the house of John Dillon, 3624 Liberty avenue. Dillon and his wife both perished in the accident.

BRINGS SUIT TO COMPEL DIRECTORS TO DISGORGE

Receiver Walton Charges Them With Wrecking Odd Fellows' Mutual Life Insurance Company.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

PHILADELPHIA, Aug. 1.—According to a bill filed in the common pleas court here today, five directors of the Odd Fellows Mutual Life Insurance society of Pennsylvania are charged by Henry F. Walton, the receiver, with wrecking that concern. He accuses them of fraudulently transferring $60,000 from the treasury of the Mutual Life Insurance Company of Pennsylvania and of illegally collecting $50,000 in premiums on Odd Fellows' policies. In consequence of this, the receiver says, the concern failed last March.

In the suit brought today, Receiver Walton asks the court to compel the five directors and 10 others to make good the $110,000 alleged to have been fraudulently taken. The receiver also asks for a complete accounting by the directors.

The Odd Fellows Mutual Life Insurance society of Pennsylvania limited its business to members of the order. The way it was wrecked, the receiver says, was by the organization of another concern, the Mutual Life Insurance Company of Pennsylvania, which assumed most of the business. The Mutual Life Insurance Company, the complaint declares, was a limited partnership, which was not authorized to carry on life insurance business, and such life insurance as it did was illegal, and no returns of any kind were made to the commissioner of insurance as required by law.

COMPANY FEARS DANGER.

Baltimore & Ohio Opposes the Laying of a Great Water Main Near Its Tracks.

UNIONTOWN, PA., Aug. 1.—(Special.)—Testimony was taken today in the application of the Baltimore & Ohio railroad for a permanent injunction to restrain the Mountain Water Supply Company and the American Pipe Manufacturing Company from constructing their 36-inch pipe line parallel to the railroad tracks through Connellsville township. The land slopes to the south and the pipe line is above the double track.

The company maintains that at least two freight wrecks have been caused by stones and material rolling onto the track from the pipe line and also alleges that if the line is completed the vicinity being subject to landslides, a pipe may sometime burst sending out a volume of water which would wash out the tracks and probably cause a disastrous wreck.

SPECIAL TO-DAY

$1.25 FOUNTAIN SYRINGE

Seamless red rubber bag and rapid flow tubing, 3 hard rubber pipes, including hard vaginal pipe, infants' and rectal, metal shut-off, all in box.

EVENING SESSIONS.

AUTHORITIES CABLE HYDE TO RETURN HOME

Continued from First Page.

ham of the Southern Cotton association today issued a statement addressed to the members of the association, calling attention to the recent disclosures in the cotton statistical work in the department of agriculture, declaring that efforts are being made to divert attention from the "deficiencies" of the system itself "to the thieving propensities of a few unworthy officials," and setting forth demands to be made on congress to reform conditions. The statement says in part:

The unreliability of the reports of the department of agriculture relating to the cotton crop has been fully disclosed, and the maladministration of that department under its present head has been made evident. Following these exposures, efforts are now being made to divert public attention from the main issue, which is the imperfections of the department, toward an attempted prosecution of anybody who can be found as a scapegoat.

We are less concerned with what has been done by a few individuals and the consequence thereof, regrettable as they may be, than with such reformation of departmental methods as shall secure for us just and accurate reports in future. Under the system at present in vogue, and which promises to be undisturbed unless public attention shall be aroused to the need of reform, the reports issued by the department of agriculture are, in their last analysis, simply the individual opinion of a few officials of doubtful experience and honor, by which the value of the cotton crop may be, and has been, affected as much as $75,000,000 in a single day.

Want Change of Method.

No such power should be delegated to any individual or statistical board except under conditions which guarantee the most incorruptible, expert and intelligent opinion, arrived at by the application of the most scientific methods and safeguarded by the most scientific precautions. It is therefore urgently recommended to the members of the Southern Cotton association that they exert their influence and that of the association toward securing the immediate reorganization of the agricultural department, especially with reference to its reports on the cotton crop, and that their representatives in congress be requested specifically to demand:

1. The establishment within the department of agriculture of a bureau to be known as the "cotton bureau," charged specially and solely with the duty of reporting upon the cotton crop and all matters concerning that staple.

2. The appointment as the head of that bureau at an adequate salary of a man whose reputation and antecedents shall be beyond reproach, and whose familiarity with cotton cultivation shall be additional guarantee of his fitness.

3. An organization of the bureau so established upon thoroughly scientific lines as will insure no possible bias in favor of either buyer or seller, or producer or manufacturer can be presupposed or asserted.

4. The passage of a law that will be more specific in its scope and under which government employes can be prosecuted for giving away or selling valuable information, as has been done in the statistical bureau.

Mr. Wilson Is Not Worried.

Secretary Wilson said he was not disturbed by the demands for his resignation, made by certain officials of the Southern Cotton association, and that he heartily approved of the expressed intention of President Jordan of the association to go to President Roosevelt with his demands. "I have reported my course to President Roosevelt," added Secretary Wilson, "and I have not taken President Jordan into my confidence. President Roosevelt knows what is going on in the department; Jordan does not. Yes, I hope Jordan will carry his demands to Oyster Bay."

The grand jury continued its investigation today into the cotton leak case. The New York witnesses, Messrs. Haas and Peckham, were again before the grand jury and refused to answer any questions having a tendency to incriminate them. Mr. Haas responded to questions as to whether he had ever resided in Washington, stating that he had. The reply to these questions was made in accordance with the direction of the court. He declined, however, to answer further questions. After Messrs. Haas and Peckham had been released from the grand jury room that body adjourned until Thursday and the witnesses were paroled in custody of their attorney, Mr. Alter. They expect to leave for New York today.

Mr. Harvey Favors Wilson.

OYSTER BAY, L. I., Aug. 1.—President Roosevelt today authorized the publication of a telegram which he had received from William S. Harvey, president of the board of trustees of the Commercial museum of Philadelphia and chairman of the advisory committee of the national board of trade, concerning the work of Secretary Wilson of the department of agriculture. In his interview last evening Secretary Wilson refers to this telegram, but he had not been shown a copy of it at that time. The telegram follows:

NEW YORK, July 31, 1905.

The President,
Oyster Bay, L. I.:

Investigating and advisory committee of the government crop reporting, appointed by the national board of trade, an impartial, unprejudiced body of men representing all sections of the United States, are familiar with the work of the department under Secretary Wilson and the great practical, substantial results to the nation of his administration. His rugged, sterling integrity commands the respect and admiration of all good people. No true patriot with an eye single to the service and honor of his country will take advantage of recent disclosures to suggest that he should resign. Do not forget interested motives have made the section that men represent denounce all government reports that did not favor them. Their attitude on ginners' reports illustrate. Impartial, trustworthy, public-spirited men are ready to co-operate with the secretary for a broad and comprehensive reorganization of all crop reporting and statistical work and suggest safeguards and penalties to insure as far as possible honesty and integrity in the future.

(Signed) WILLIAM S. HARVEY.

BIGELOW REMOVES SUPT. NICEWANER

Deposed Bureau Chief Expresses Gratification at His Own Discharge.

SUCCESSOR IS NOT CHOSEN

Director Bigelow yesterday removed from office Edwin G. Nicewaner, superintendent of the bureau of highways and sewers, a position that pays a salary of $4,000 a year. Superintendent Nicewaner received notice of his dismissal yesterday in a letter from Director Bigelow, stating he was discharged because of lack of executive ability to properly conduct a bureau.

Mr. Nicewaner wrote a letter to Director Bigelow in reply, merely acknowledging the letter of dismissal and thanking the director. The deposed superintendent made a statement expressing gratification at being relieved of his position, which, he said, had been a burden to him, and gave out for publication his letter of dismissal with as much alacrity as if it was a notice of promotion.

"I am glad I am out of it," said Mr. Nicewaner. "It is a great burden lifted from me. I feel just like a boy let out of school. I intend to take a good rest before going into anything else. I have had only three days' vacation since I have been superintendent of this bureau. That was last summer when I went on the excursion given by the Wabash railroad to the fair at St. Louis.

Refused Him Vacation.

"I afterward went to Director Bigelow and asked him if I could take a trip of a few days to New York, and he said: 'Why, you have had a vacation.' I asked when. He said: 'You went to the world's fair at St. Louis.' I said: 'I beg your pardon, director, you are right,' and that was the last I ever said to him about a vacation. When I was considered for this position Director Bigelow said he thought my temperment was too much like his own and I might not be able to get along with people. I guess he has found out he was right.

"In his letter dismissing me he says that I have not the executive ability to properly conduct this bureau. It has taken him two years and two months to find that out. I guess I have too much executive ability instead of too little, if the truth was told. Director Bigelow has evidently no use for me and I certainly have none for him."

It was suggested to Superintendent Nicewaner that councilmen who had been attacking him had succeeded in having him dismissed.

"If I was ever the cause of offending a councilman," said Mr. Nicewaner, "it was when I was asked to do something shady or irregular."

Successor Not Chosen.

Director Bigelow goes on his vacation today, and he said yesterday he would not appoint a successor to Superintendent Nicewaner until his return. He stated that James M. McKee, who has been mentioned in connection with the place, would not accept the position. He also denied that Charles H. Harrison, the assistant superintendent in charge of the downtown district, would be appointed. The director was asked who would act as superintendent of the bureau pending the filling of the vacancy, and he replied:

"I will. I have been running the bureau ever since Nicewaner was appointed."

Mr. Bigelow also said Nicewaner would not be appointed to any other position under the administration.

The first news of Superintendent Nicewaner's removal came through the following resolution introduced yesterday afternoon in select council by Dr. E. R. Walters of the Twentieth ward:

Resolved, That the city of Pittsburgh, through the medium of its select branch of councils, expresses its thanks to the retiring superintendent of the bureau of highways and sewers, department of public works, Edwin G. Nicewaner, for the conspicuous ability, honesty and fairness he has shown in the discharge of the duties of the difficult office he is now relinquishing.

Thought It Was Joke.

The resolution struck the members of councils with surprise, although the removal of Superintendent Nicewaner had often been announced as about to take place during the past few months, but had failed to materialize. The members laughingly voted for the resolution, thinking Dr. Walters was having a little joke at the expense of the administration and Superintendent Nicewaner.

After the resolution had been approved some of the members and the newspaper men crowded around Dr. Walters' desk and the doctor insisted that Superintendent Nicewaner had really quit. Dr. Walters said he had seen the superintendent's resignation.

Sends Bigelow a Reply.

Superintendent Nicewaner gave out his letter of removal for publication. It read as follows:

Pittsburgh, Pa., Aug. 1, 1905.
E. G. Nicewaner, Esq., Supt. Bureau Highways and Sewers.

Dear Sir—I have decided to make a change in the bureau of highways and sewers and from this date your services are no longer required by the city of Pittsburgh.

The reason I have for arriving at this conclusion is that you do not appear to have the executive ability to conduct the bureau properly. Very respectfully,

EDWARD M. BIGELOW,
Director of Department Public Works.

Superintendent Nicewaner sent to Director Bigelow the following reply:

Pittsburgh, Pa., Aug. 1, 1905.
E. M. Bigelow, Director Department Public Works.

Dear Sir: I have received your letter of even date relieving me of the superintendency of the bureau of highways and sewers. Thank you. Yours, respectfully,

EDWIN G. NICEWANER.

Director Bigelow said yesterday he had Superintendent Nicewaner's resignation for the past six weeks. It has several times been reported that Superintendent Nicewaner was to be removed, but it was not until the break in the Shingiss street sewer that Director Bigelow made any public announcement of his attitude toward Superintendent Nicewaner.

In City's Employ Five Years.

Mr. Nicewaner has been in the employ of the city for five years. He said yesterday that he came to Pittsburgh from Baltimore on December 1, 1899, and was appointed an assistant engineer in the bureau of construction at a salary of $3,000 a year. He received this appointment in July, 1900, and held it until June, 1903, when Director Bigelow made him superintendent of highways and sewers.

Mr. Nicewaner's predecessors received only $2,000 a year, but early in 1903, Director Bigelow appeared before the finance committee of councils and had the salary raised to $4,000, stating he intended to secure for the position an expert in that particular line of work. A few months later Director Bigelow appointed Mr. Nicewaner.

Samuel Allen, the assistant superintendent of the bureau of highways and sewers in charge of the East End district, may be indorsed by Twentieth ward councilmen for the vacancy, but it is believed Director Bigelow has no particular person in view at present. Whoever is appointed will have only eight month to serve under the present administration.

Nicewaner Wrote Resolution.

Mr. Nicewaner said that the resolution of indorsement, adopted yesterday afternoon by select council, was written by himself and given by himself to Dr. Walters to present in council. Mr. Nicewaner said he took luncheon with President Wightman of select council and showed him the letter of dismissal which he had received just before noon from Director Bigelow. He asked Mr. Wightman to present in select council a resolution commending his services, but Mr. Wightman advised him to get Dr. Walters to introduce the resolution. Mr. Wightman sent Dr. Walters to see Superintendent Nicewaner and the latter gave Dr. Walters the resolution.

A Married Woman

May deposit money with the Pittsburgh Bank for Savings, Smithfield St. and Fourth Ave., in her own name and subject only to her order. Nearly 20,000 of the 45,000 depositors of this strong, old bank are women. It pays Four per cent interest and its assets are $15,000,000.00.

CASTORIA.
Bears the Signature of Chas. H. Fletcher. The Kind You Have Always Bought

SURRENDERS HIS LAST HUMP PLAN

Director Bigelow Again Fails to Introduce New Grade Bills for the Hump.

REPEALER PASSES IN SELECT

Without a dissenting vote select council passed the hump repealer yesterday and the ordinance will be a law as soon as it receives the signature of Mayor Hays. Twenty-five members of the upper branch were present and voted for the repealer. Director Bigelow again failed yesterday to introduce the new hump grading ordinance. He failed to have them introduced in common council on Monday, claiming they were not quite ready, but would be put in select council yesterday.

After the meeting of select council yesterday Director Bigelow had another excuse to offer. He said the old grading ordinances, which are identical to the ones he said he would introduce yesterday were on second reading in common council, he had discovered, and that the passage of the old ordinances would answer the same purpose as the passage of the new bills.

Councilmen believe that the real reason Director Bigelow did not have the grading ordinances presented was he fears bitter opposition from property owners who would either be compelled to build for an 18-foot cut, delay building indefinitely, or build at the present grade and take the risk of incurring damages to their property. Chief among these property owners is H. C. Frick.

As soon as Mr. Frick departed for Europe, a few weeks ago, Director Bigelow made the statement that Mr. Frick was planning the expenditure of $10,000,000 for an office building on the cathedral site and a hotel in Sixth avenue. If this is true and Mr. Frick erects these buildings with grades fixed at an 18-foot cut, he would have to make his buildings meet the grades which Director Bigelow arbitrarily proposes, or else erect the buildings at the present grades and take the chance of sustaining damage in case the hump should be cut later.

If Mr. Frick should put up any buildings at a grade for an 18-foot cut and the people should decide afterward that the cut should not be 18 feet, but a greater or a less number of feet his property would also be damaged, but he could not claim damages. This is the position in which Mr. Bigelow's proposition to fix the grades of the streets in the hump district in advance of the hump cut itself, puts Mr. Frick and every other hump property owner who contemplates improvements.

While it is generally believed that Director Bilegow was induced by the protests of property owners and the advice of his political associates to give up this dangerous idea for the present, he declares that he will have the grading ordinances now on the desk in common council taken up and passed at an early date and in advance of any possible hump election. He says his purpose in doing this is "to let the people know what the grade is to be."

Mayor Hays is not in accord with the hump ideas of Director Bigelow. In the first place the mayor has said that he believes the hump cut will cost not less than $4,000,000 or $5,000,000 instead of $2,000,000. He now says that he is not in favor of bringing the matter up again during his administration which expires the first of next April, and does not approve Director Bigelow's proposition to hold an election in November immediately after the county election.

TURTLE CREEK VALLEY IS FULL OF INDUSTRY

Conditions Never Brighter, and Improvement Means Work for Many Men.

Industrial conditions were never brighter in the vicinity of Braddock than at present, and within the next few weeks it is expected that fully 3,000 more men will be placed at work in the additions being erected at the manufacturing concerns there.

The American Steel and Wire Company's new wire mill at Rankin is rapidly nearing completion. It will be nearly double the size of the present one and will have many new features introduced for the first time in a wire mill. The present wire mill is also to be remodeled and modernized. It will be a part of the new mill when finished, making it the largest and by far the most modern wire mill in the world.

Only a few finishing touches yet remain to make the new rail mill at the Edgar Thomson works of the Carnegie Steel Company complete, and it is expected to commence rolling rails in the new plant within a week or 10 days. The new mill adjoins the big No. 1 rail mill at the western end of the plant, and extends to Thirteenth street, Braddock. The mill is to be operated exclusively by electricity, and many new and novel ideas for rolling rails have been introduced.

Work on the foundations for the new shops and additions to the present shops of the McClintic-Marshall Construction Company at Rankin was commenced yesterday, and the erection of the steel for the buildings will begin within a few weeks. The new shops to be erected will occupy the site of the Duquesne forge, purchased by the McClintic-Marshall Company several months ago. The forge plant was razed and the entire four acres of ground occupied by it is to be utilized for a shop for shaping structural steel for buildings and bridges. A number of other buildings, including a large power house, are to be erected by the McClintic-Marshall Company on ground adjoining their present works.

NICEWANER SAYS HE HAS REVELATIONS TO MAKE

Deposed Superintendent of Highways and Sewers Threatens to Take Stump This Fall.

Former Superintendent of the Bureau of Highways and Sewers Edwin G. Nicewaner, who was deposed yesterday by Director Bigelow, said last evening that he might take the stump this fall against the city administration.

He was asked if he had anything to say regarding the manner in which the city administration is being conducted and he replied:

"Not at this time, but no person need be surprised if they see me on the stump this fall. If I do go on the stump the people will hear some revelations of the way things are going on in the administration."

EATING STALE CANDY CAUSES DEATH OF A BRADDOCK BOY

Thomas Henry Bates, 4-year-old son of Mr. and Mrs. Henry Bates of 815 Washington avenue, Braddock, died yesterday as the result of eating stale candy. The child purchased five cents worth of candy from a small store and a few minutes after eating it was taken violently ill. He was in convulsions until his death. The physicians do not think the candy was poisoned, but that its staleness brought on acute stomach trouble.

Services Draw Crowds.

Large crowds attended the services yesterday in St. Anthony's chapel, Troy hill, Allegheny, where the Rev. Father Duffner and his assistants presided at the services marking the Feast of Portiuncula. Special indulgence is granted to those attending these services and many took advantage of the opportunity. Similar services were held throughout the Pittsburgh district in the Catholic churches.

Will Build Locomotives.

BELLEFONTAINE, O., Aug. 1.—It is announced that the Big Four Railway Company will increase the size of their shops here threefold, and take up the manufacture of locomotives and freight cars. The shops now employ 500 men in repair work, but it is said that work will be given to 1,500 when the additions have been made.

M'KEESPORT HAS MAN IN FIELD

R. E. Stone Announces Candidacy for Republican Nomination for Register.

MALONE FOR COMMISSIONER

R. E. Stone of McKeesport has given notice he will seek the Republican nomination for register. He is one of the leading merchants of the Tube city, and, while he has never held office, has always been a regular Republican. Should he secure the place on the ticket, J. D. O'Neil, the fusion nominee for recorder, will have much to worry him in his home city during the campaign.

Mr. Stone sent his formal announcement to Chairman T. J. Ford yesterday. He enters the contest with the support of the Republican leaders of McKeesport. He will be opposed for the nomination by Andrew S. Miller of Bellevue, who has been in the field for a long time, and yesterday gave Chairman Ford formal notice of his candidacy. Thomas D. Malone of the Eleventh ward of Pittsburgh sent the chairman a letter announcing his candidacy for county commissioner.

The meeting of the Allegheny Republican executive committee, scheduled for this evening, will probably not be held. It is likely no attempt will be made to get together before next week.

The Thirteenth ward will hold a special election on August 22 to decide on the question of issuing bonds to increase the school debt. This date was selected as it was thought the hump bond election would be held on that date. Now the hump question has been dropped the school directors have decided not to change their plans. These school bonds form a live question in the Thirteenth ward. The school board believes another school house is required, but the debt has reached such proportions it cannot be increased except by vote of the people. A public meeting was called by the board about two months ago to discuss the matter, but the opposition took control from the school directors and a committee appointed at the meeting decided the ward had all the school houses it needed. The election will be hotly contested.

Theodore J. Shaffer of the Amalgamated association came out yesterday with an indorsement of the Republican ticket in Beaver county, although he was one of the backers of Holt before the nomination. Mr. Shaffer said:

"I cannot favor a bolter, as I am a Republican and always have been. I am for the legitimately nominated candidates. It would be a shame for the county of Judge Agnew and M. S. Quay to go over to the bolters. I shall do my utmost to bring about the election of the whole Republican ticket. I have representatives in the county who will watch the labor vote and it is probable I will deliver several addresses in the county before the election."

FATHER AND MOTHER ARE BOTH UNDER ARREST NOW

Mother Brutally Abused 4-Year-Old Girl and Father Threatened to Drown Babe.

Yesterday the police arrested Frank Kocenska, husband of Lena Kocenska, who is in the county jail for ill-treating her 4-year-old step-daughter Agnes, who is at the South Side hospital having her injuries attended. The husband was arrested as a suspicious person because he threatened to throw his 18-months-old child in the river.

The manner in which the woman abused her step-daughter is said to be shocking. With a short stick she started to beat the child and finally jammed the stick in the lower part of her body, rupturing her. Dr. W. H. Weber was summoned to look after the child at the time and when he learned what the girl's injuries were he had her taken to the hospital.

When the woman was taken to jail she had her 18-months-old infant with her. The jail authorities refused to admit her because of this. The police then turned the infant over to the father and returned the woman to jail. The father asked the police where he could secure somebody to care for the infant and they referred him to the charity department. The father was intoxicated and taking the child he said he would throw it in the river. The police arrested him and turned the infant over to a matron. The girl will recover.

POLICE FIND AUTOMOBILE THAT RAN DOWN ITALIAN

Chauffeur Has Left the City, but a Reward of $100 Is Offered for His Arrest.

The city detectives have completed their investigation of the case of Angelo Pouch, an Italian, who was run down by an automobile last Saturday on the boulevard near the Pittsburgh Golf club, and information has been made against F. Hodge, the chauffeur. The latter has left the city and the detectives are trying to locate him. Pouch is still confined in the Mercy hospital by his injuries. The machine was the property of R. M. Gulick, the theatrical manager.

Pouch was walking at the side of the boulevard when it is alleged the chauffeur turned the machine toward him. The Italian became frightened and started to run across the road. Witnesses allege the chauffeur deliberately turned the machine after the Italian and run him across the roadway. The chauffeur stopped for an instant after hitting the man and the witnesses were of the opinion he was going to get out and look after the injured man. Instead of this he geared his machine to a high speed. One of the women passengers suggested to the chauffeur to get out and examine the man. Instead the chauffeur said:

"To h—l with him," and speeded away. The members of the Pittsburgh Golf club are anxious to have the chauffeur arrested and prosecuted and have offered a reward of $100 for his capture.

Prisoners Effect Their Escape.

No trace has been found of three prisoners who escaped from Baltimore & Ohio railroad officers Monday night. Superintendent Thomas Delehanty of the railroad police bureau has a number of men working on the case. The prisoners were handcuffed and were being brought to this city on a freight train. At the function tunnel at Center avenue and Neville street the men jumped off and escaped.

Fire Destroys a House.

A house in Bell avenue, North Braddock, was totally destroyed by fire at 5 o'clock yesterday morning. The building is owned by Mrs. Minnie Bowman and had not been occupied for about two weeks. Workmen in the Edgar Thomson steel works discovered the blaze and helped to extinguish it. The loss is about $3,000.

NEW PIANOS $129.00

OTHER PIANOS $175, $200, $255, PIANO PLAYERS $75, $125 AND UP

Today an Event of Economic Importance to Men.

Ultimate Reductions on Men's Summer Clothing.

The prices on men's clothes have now reached bottom. Beginning today and continuing throughout the week until the goods are exhausted, the lowest prices of the season will rule.

Men who are in the habit of waiting to take advantage of the very smallest figures going are now informed that no lower prices than those of today will obtain this season, and selection will naturally deteriorate from day to day, though at this writing there is as fine a lot of goods for special prices as men were ever asked to inspect.

The reductions will affect our Entire Stock of Men's Fancy Suits, Two-Piece Outing Suits, Outing and Fancy Striped Worsted Trousers, Odds and Ends in Dress Suits and Tuxedos, Raincoats and our entire stock of Men's Fancy Vests.

Fancy Suits which sold for $10.00 and up to $25.00 are now marked $6.50 and up to $14.00.

Two-Piece Outing Suits that sold for $10.00 and up to $22.50 are now marked $6.50 and up to $14.00.

Vests that sold for $3.00 to $5.00 are now marked $2.00 each.

Outing Trousers that were $3.50 to $5.00 are now marked $2.50 a pair.

Fancy Trousers that were $6.50 to $9.00 are now marked $4.25 a pair.

Raincoats that were $16.50, now $10.00, and those that were $30.00 are $18.50.

Dress Suits and Tuxedos are down to exactly half price.

Entire Stock of Young Men's Clothing Half Price.

For the youth of 14 years to the young fellow of 19. In the collection are plain blacks and blues as well as fancy mixtures—chest measures 29 to 30 inches.

NOTE—A small charge will be made for all alterations except lengthening or shortening of sleeves and trousers.

Any Straw Hat in the House 50c.

While on the subject of men's clothing we think it a right good time and place to speak of the straw hats. Six weeks before straw headgear will be called in and when a new one can be had for the half of a dollar, we don't think you, sir, would care to wear a soiled hat, which without question is the condition of that purchased first of season.

Six hundred to choose from—all shades and sizes.

Women's $22.50 to $30.00 Silk Shirt-waist Suits for $10.75.

A Few of the $18.00 and $20.00 Styles for $7.75 Left.

Not many of the $7.75 line for you—of the 500 and more that came in there was an unequal division—the majority were the finer suits, those worth $22.50 to $30.00 and which we are selling for $10.75. And we don't know but what it was just as well that there were more of the finer suits, for women appreciated them as something they had never seen duplicated for the money we were charging.

There will be right good choice in this line today, but it would be wise to be in the department as early as possible. You can choose either taffeta or louisine in such designs as figures, stripes, changeable effects and checks, in about every light and dark color that can be named. We have already told you that the price of $10.75 is not the price for the amount of silk used in one of these dresses.

Soft Harness
You can make your harness as soft as a glove and as tough as wire by using EUREKA Harness Oil. You can lengthen its life—make it last twice as long as it ordinarily would.
EUREKA
Harness Oil
makes a poor looking harness like new. Made of pure, heavy bodied oil, especially prepared to withstand the weather.
Sold everywhere in cans—all sizes.
Made by STANDARD OIL CO.

OFFICIAL—ALLEGHENY.

NOTICE—In the court of common pleas, No. 3, No. 729, August term, 1905.

In the matter of the petition of the city of Allegheny for the appointment of viewers to ascertain the cost, damages and expenses, and assess the benefits for the widening of an unnamed alley, from Roscoe alley to Ellis avenue, Tenth ward.

The undersigned, having been appointed by the court viewers in the foregoing matter, hereby give notice that they will on the fifteenth day of August, A. D. 1905, at 10 o'clock a. m., meet on the line of the said improvement, at the corner of Roscoe alley and Ellis avenue, proceeding thence over the line of said improvement, viewing the same, and the premises affected thereby, and will hear all parties interested therein and their witnesses.

S. B. RHEAM,
S. T. MCLELLAND,
NEWTON PETRIE,
Viewers.

(No. 100.)

AN ORDINANCE—Opening Warner street in the Sixth ward of the city of Allegheny, from Washington avenue to Warner street, of a width of twenty-four (24) feet, according to accompanying plan, and as herein described.

Section 1. Be it ordained and enacted by the select and common councils of the city of Allegheny, and it is hereby ordained and enacted by the authority of the same, That Warner street in the Sixth ward, extending from Washington avenue to Warner street, be and the same is hereby opened of a width of twenty-four (24) feet, according to accompanying plan, the center line thereof being described as follows:

Beginning on the north line of Washington avenue at a point five hundred forty-two and ninety-eight hundredths (542.98) feet east of Fulton street; and thence extending in a northwesterly direction a distance of one hundred ninety-five and fifty-nine hundredths (195.59) feet to the south line of Warner street, which point is three hundred ninety-five and seventy-three hundredths (395.73) feet east of Fulton street.

The damages caused thereby, and the damages caused by the grade thereof, and the benefits to pay the same, to be assessed and collected in accordance with the acts of assembly in such case made and provided.

Sec. 2. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law in councils this twenty-second day of July, A. D. 1905.

F. J. TORRANCE,
President of Select Council.

Attest:
LAFAYETTE WILLS, City Clerk.
SAMUEL McELROY,
President of Common Council.
ROBERT DILWORTH, City Clerk.

Mayor's Office, City of Allegheny, Pa., July 27, 1905. The above ordinance examined and approved.

JAMES G. WYMAN,
Mayor.

(No. 103.)

AN ORDINANCE—Changing the grade of Homer street, Seventh ward, from Filbert street to its northern terminus at a thirty-three (33) foot road.

Section 1. Be it ordained and enacted by the select and common councils of the city of Allegheny, and it is hereby ordained and enacted by the authority of the same, That the grade of Homer street, Seventh ward, from Filbert street to its northern terminus at a thirty-three (33) foot road, is hereby changed as follows:

Beginning at a point on the center line of Homer street, opposite the north curb line of Filbert street, at an elevation of one hundred two and four-tenths (102.4) feet above city datum; thence ascending at the rate of twelve and fifteen-hundredths (12.15) feet per hundred feet for a distance of fourteen hundred and twenty-eight and eighty-three one-hundredths (1,428.83) feet to a point, opposite the intersection of the west line of Homer street and the east line of Robinson road, at an elevation of two hundred and eighty-three and eighty-six one-hundredths (283.86) feet above city datum; thence ascending at the rate of six and four one-hundredths (6.04) feet per hundred feet for a distance of one hundred and seventy-five and sixty-seven one-hundredths (175.67) feet to the west line of a thirty-three (33) foot road, at an elevation of two hundred and eighty-four and forty-three one-hundredths (284.43) feet above city datum.

Sec. 2. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law in councils this twenty-second day of July, A. D. 1905.

F. J. TORRANCE,
President of Select Council.

Attest:
LAFAYETTE WILLS, City Clerk.
SAMUEL McELROY,
President of Common Council.
ROBERT DILWORTH, City Clerk.

Mayor's Office, City of Allegheny, Pa., July 27, 1905. The above ordinance examined and approved.

JAMES G. WYMAN,
Mayor.

Daily and Sunday Editions, per month, 50 cents.
Daily and Sunday Editions, per year, $5 00.

Anyone unable to purchase a copy of The Pittsburgh Gazette on trains or at news stands will confer a favor by reporting the same to this office.

Wednesday, August 2, 1905.

President Torrance of the Pittsburgh Exposition comes forward with a timely reminder to exhibitors to be prompt in getting their exhibits in place. This is also a reminder of the approach of the annual season of the best permanent exposition in the country. It is representative of the Greater Pittsburgh and the Greater Pittsburgh takes pride in it.

There have been recent attacks on the county detective bureau not warranted by the facts. Always there are people who "feel the halter draw, with poor opinion of the law." The county detective bureau is not perfect. It is very small by comparison of the territory and population to be looked after. Yet it has done much to preserve the public peace and to prevent breaking of the law.

Director Bigelow has dismissed Supt. Nicewaner of the bureau of highways and sewers. The parting is attended with some back-handed compliments on both sides that are edifying if not instructive. This event was foreshadowed some time ago, so it will cause no surprise. The public will, however, take some interest in the question whether a change of bureau heads will give any more satisfactory service. There is room for improvement throughout the department.

Mayor Dunne of Chicago is doomed to failure in the matter of "immediate municipal ownership." He may have better success in the more important field of police administration. The mayor's wife is said to have chosen the new chief of police, John M. Collins, and as far as he has gone Mr. Collins has made a record. There are a good many false theories about police administration in a great city and Mr. Dunne's guess may be as good as that of any one else about what can be done.

Pittsburgh has again reason to congratulate itself on the selection of Prof. C. B. Connelley to be at the head of the department of journeymen and apprentices in the Carnegie technical schools. This is one of the most important and practical of the sections of the institution. Prof. Connelley is remarkably well qualified to fill the chair by reason of training and experience. Moreover, he is a Pittsburgher, familiar with Pittsburgh conditions, imbued with the Pittsburgh practice and capable of imparting the Pittsburgh spirit.

In view of the disclosures that have been made President Roosevelt has determined to have a careful investigation of every bureau of every department at Washington. This is a tremendous task, but one not impossible of accomplishment. Enough has appeared from the postoffice and agricultural departments to warrant it. Of course, it will meet opposition at the hands of congressmen whose favorites may be imperiled and of others who have been in touch with the graft. It requires courage to attack such a problem, but President Roosevelt has plenty of that.

Announcements of candidates for Republican nominations for county offices this fall are numerous. The returns are not all in. Voters will have an opportunity in the primaries to select from a variety of names by direct vote. The announcements clearly indicate good results from the new rules in awakening party interest. The primaries will reflect the awakening of popular interest and we doubt not the result of the election will prove public confidence in the new system. Especially as it will be tried in opposition to the dark room method of selecting candidates which has been adopted by the fusing parties.

Aimar Sato declared yesterday the demands of Japan will be moderate, such as Russia may accept. Mr. Sato is a good spokesman and a brilliant thinker, but he really goes too far. He ought to know where to stop. When he said Japan's terms will be reasonable he had said enough. From Japan's point of view, which is Mr. Sato's, the terms will be reasonable. Whether they can be accepted or not is for Russia to say. That is matter to be viewed from the Russian standpoint. It may also be judged in the court of public opinion. It is not for Mr. Sato to decide, though Russian rejection may ultimately cause Russia to agree to more severe terms.

No Bond Election.

Select council yesterday passed the repeal of the bond election ordinance without dissent. No grade ordinances were presented. The old grade ordinances are lying somnolent in possession of common council and they are deemed sufficient. They are sufficient and should remain where they are.

Thus the hump removal agitation passes for the present. Under other circumstances it might be expected the 18-foot cut scheme had passed forever. In this case, however, the stake is considerable for the few and they have shown remarkable tenacity in the face of popular opposition. It is no matter. The people will never consent to the program proposed, no matter when it is revived and the non-speculative property owners of the hump district and beyond had better adopt a different program and a more moderate grading.

Pittsburgh Coal.

President Robbins of the Pittsburgh Coal Company has made to the stockholders a comprehensive statement of the business and condition of the corporation. It presents the case clearly. Unprecedented competition in the natural markets of the company caused a reduction of earnings this year though the production of coal was much larger than for the same period of last year. It was deemed good policy to increase the working capital rather than to force a dividend out of previous earnings.

It has been the experience of this company, as of others, that earnings are invariably larger during the last half than during the first half of the year. There is reason to believe this year will not prove an exception to the rule. Prospects for general business, for manufacturing and transportation were never brighter. This should produce better market conditions despite competition. Stockholders are disappointed in the results for the first six months, but there is nothing in the situation to warrant the hysterics some people have indulged.

Passing of Jerry Simpson.

Not "the last of the Mohicans," but probably the last inspiration of Populism that will come out of Medicine Lodge, Kansas, is Jeremiah Simpson, more familiarly known to the general public as "Sockless Jerry," when he represented a Kansas district in congress. Mr. Simpson is said to be near death's door at his new home in New Mexico. He is an important character as being the ablest leader of the Populist party that, at one time, was strong enough to carry several states, land many of its apostles in the national house of representatives, and one, at least, in the senate, Senator Peffer, also from Kansas, of whom the Hon. Eugene Ware of the same state said "he looks like a sage and talks like an Osage."

Former Congressman Simpson was a man of brilliant wit, belittled below his merits by the humorous artisans of the daily press. He was not a "sockless" man, nor was he a brainless citizen. He possessed many elements of true worth. Kansas then, as it is now to a great extent, was a fallow field for the growth of the odd in nature as well as the extraordinary in politics. Mr. Simpson saw his opportunity to get to congress, and got there.

Simpson was not wholly irrational as a member of the house of representatives, for he frequently voted with the Republicans on questions of true merit. He has lived long enough to see the distinct errors of Populism, to have been a witness to the amalgamation of his party with Democracy, its submergence and utter defeat in that party. He recently visited his old district and laughingly recalled incidents of the Populist craze and regretted not its passing. He will be missed by those who knew him intimately.

Our Worst Roads.

Thomas A. Edison said the other day that Pennsylvania roads are the worst he has ever traveled on. The remark has attracted widespread attention and much comment. As Mr. Edison was making a tour on an automobile through the state he was probably "feeling sore," and intended to be severe. As a matter of fact he did the state a service by calling attention to the one thing in which it lags far behind the procession. Pennsylvania has public highways that are a disgrace.

During late years there has been a strong movement for better country roads. It has found expression in one law permitting counties to issue bonds for road building and another providing for state aid to localities through a well organized highways department. It is beginning to show some results. It will show more in future. Yet there is lacking one most powerful stimulus to improvement—a system for the proper expenditure of the ordinary revenues for road purposes. The road taxes collected by rural townships are, for the greater part, simply wasted.

Former Senator Brown of Westmoreland county urged a bill during several sessions of the legislature that contained some excellent provisions for getting the maximum of benefit from ordinary road taxes. If such a law were now in force in connection with the state highways department it would greatly facilitate progress toward the desired end. State funds available for local benefits at the rate of three-fourths from the state and one-fourth from localities are pitifully small, compared with the immensity of the work. If the state revenues were twice as large as they are they would not suffice in a quarter of a century to improve the roads that need to be improved. So unless some auxiliary system intervenes the state disgrace must continue.

The option of counties to issue bonds should help some when sample state roads have educated public sentiment. More is to be hoped for, however, from a system of rightly applying local taxation. That is, to have the ordinary revenues invested in road building with durable materials and on right principles. The principles can be furnished by the state highways department more generously than the funds for construction. As matters stand, millions of dollars are squandered in making hollow-backed roads of soft earth to be ruined by the first heavy rain storm. These mud paths are usually constructed so as to retain instead of shedding the water that comes to them, being thereby eroded and rutted in the most frightful condition. A change of the system would produce better roads, at once, without any addition to their cost.

Economy the Word.

Economy is to be the watchword of the Fifty-ninth congress if Speaker Cannon, Mr. Dalzell, Chairman Burton of the rivers and harbors committee and other house leaders have their way. Economy is a good watchword, but care needs to be taken in the inauguration of economy as a congressional policy to see it does not degenerate into costly parsimony. Economy means careful expenditure to secure the greatest efficiency in operation; congressional economy, however, too often takes the form of withholding appropriations for worthy purposes and frittering away available revenues on log-rolling jobs.

True economy is decidedly in order. The revenues of the government are very large and should suffice for its conduct if wastes are eliminated without the creation of additional sources. Department estimates can, as a rule, be liberally treated as representing necessary work; internal improvements are important. The principal abuses and leaks are through local and special bills, engineered by congressmen for personal reasons. If Speaker Cannon and his able coadjutors will faithfully address themselves to weeding out these jobs the revenues will be ample to meet the needs of army, navy, postal and other necessary expenses, including river and harbor improvements.

The Immigration Question.

If the National Civic federation should solve the immigration question it would confer an inestimable boon on the country, and likewise unravel one of the most perplexing problems the United States government has to deal with. With this end ultimately in view the federation has invited the governors of the various states to meet in a national conference with them, at which the subject to be discussed will be the effect of immigration upon American life and industry. What a scope for speculation! The question arises at once, is the country overcrowded with incompetents, let through New York and other inspection points, and, if so, what is the cure? There are some delicate points to settle in this connection, as for instance, what consititutes an agreeable alien. We have barred the Chinese in wholesale, but admit other characters less wholesome, and are now facing a "Chinese boycott" partly on account of that discrimination.

Congress has legislated and "discriminating" officers have been appointed to scan the quality of "new citizens" that flow through Ellis island to the cities, the west and south, but the undesirable have been continually slipping in. This condition will obtain so long as public opinion is not aroused to sufficient reprehension. The National Civic federation proposes to arouse this feeling.

There is no doubt but that the United States is considered by some of the foreign countries as the dumping ground for their refuse. We are receiving "the rejected at home," not so many as before, but are still getting the undesirable class. The halt must be called without fear or favor. We have too many of the indifferent class of our own to care for, without welcoming that class from other countries, which soon become a burden and often a menace to our institutions. The desirable people from other climes are always welcome. They have helped to sustain a government "of the people, by the people and for the people." With these we are well content. We have no use for the people who were worse than useless in their native lands—the criminal, the incompetent, the vicious and the degraded. There is no place for them here but the prison or the almshouse and these are overcrowded. They should be shut out. If, as has been said, the Civic federation is in earnest, may we not look to some good to come out of the Nazareth of the complex questions that will confront them.

Republican candidates are announcing from all over the county for an open primary election. No one man power nominations here.

Gov. LaFollette in Ohio was ranting more vociferously than in Illinois and with no more reason.

Any investigation of the weather bureau at Washington ought to include the forecasts for Pittsburgh.

"These are hard times for grafters"—Leader. The wretch begins to feel the pinch.

One police magistrate has been arrested, but he was not given summary "justice."

Mr. Sato is finding the New York reporters equal to keeping him busy.

Capt. Groome is grooming his state police for effective service.

When the graft cases go up to Moody they take a serious turn.

What Nicholas wants is an assembly that will look pretty.

Nicewaner on the stump might be entertaining, indeed.

Portsmouth, N. H., will soon be large on the map

QUIET OBSERVATIONS

By ERASMUS WILSON.

Don't get gay, not too gay, just because you are on a vacation.

Some do, you know, and come home poor in purse, depressed in spirit, and with heart bowed down, maybe.

These are apt to swear vacations off, but that is like swearing the circus off, so that when vacation time comes next year they will be just as hot to go as they were this year.

The vacation fad has grown immensely during the score of years past. Prior to that time poeple were in the habit of taking a few days off during the year, maybe a day or two now, and a day or two again.

There was no Atlantic City to go to then, or at least not much. Gen. Pearson, Maj. Monmouth, Billy Smythe and a few other genial fellows used to go to the island just off Atlantic City to fish and have a jolly good time, but there were never enough to fill a car, nor to get special rates.

The island resort was not a very good place to take women and children, it being more of a stag ranch than a bathing resort. In fact, bathing was hardly a feature of summer resorts at that time.

Saratoga was the big place then, and was called a watering place, a place to drink ill-smelling, odd-tasting water, and then imagine you were feeling well and getting fat or thin accordingly as you desired.

Bedford, White Sulphur and various springs were visited by professional men with their families, mainly for social recreation.

* * *

In these good old times, as some old timers will say, there were no cheap excursions to mountain resorts, watering places, or any old places, and only the rich ever thought of going to them.

Nor were there so many fishing and other clubs to take men away from home for a couple of weeks and bring them back looking as though they had been through a spell of sickness.

People were just as happy then as now, and spent a good deal less money. No doubt excursion rates would have induced many to go, but there were no places offering special inducements to railroads.

All this goes to show that it isn't the vacation, nor the excursion, that makes us happy, but we take delight in going somewhere in hopes of being made happy.

As a rule we are disappointed, but we get the excursion, spend our vacation, and have a good time anyhow, and that is something different from staying at home and pegging away day in and day out at the same old job.

The old-fashioned vacation wouldn't fit these times at all, and maybe it is better so, for then church holidays were more in vogue, so much so that the Allegheny cotton mills were closed for a day about 50 times a year on account of them.

That sort of thing wouldn't do in our big shops and mills now. Then it didn't make a great deal of difference, since the idle day was usually devoted to repairing and cleaning up the mills.

The vacation and excursion fads were born at the same time, and they are hardly 26 years old. Ain't they awful big for their age?

* * *

Mr. Quiet Observer—I am a constant reader of your daily observations and sometimes fear that many persons read The Gazette and fail to find what is written directly for them.

Your commonsense articles on the people in general in Saturday's Gazette, making a near approach to a matter of thought which I had hoped you would soon arrive at, judging from the trend of your recent articles, have compelled me to make your acquaintance.

Have you ever felt yourself to be a genuine hypocrite? Did you ever take on estimate of the people of the world and come to the conclusion that there is really a whole world of hypocrisy made up of almost as many units as there are human beings? I do not mean such open hypocrisy as is generally associated with the word, but that unexplainable unnaturalness which we see, and much more feel, in the persons around us.

A little introspection of the passions, daily thoughts and acts would almost induce us to label ourselves hypocrites. The power of pretending and adapting oneself to any class of people so as to make them feel that we are one of them, is being cultivated to a high degree.

Can we not attribute the many so-called political misdeeds to this underlying power? It is practiced long before the field of politics is entered. To believe the people, yes, to believe yourself, is the most difficult matter at times, though one does believe in God.

C. T. EVANS.

Stoyestown, Pa.

* * *

Does that hit you?

You are likely to say that it never touched, but then you know how boys will allow and contend the ball never touched them, even when they are still smarting from a side-swipe.

Men are but boys of larger growth when it comes to this sort of thing.

But in spite of all our reasoning we know we are more or less hypocritical, and judging by ourselves, we conclude that everybody is tarred with the same stick.

However, this universal brand of hypocrisy is very different from the sort so roundly condemned by the holy scriptures. This was the real thing in which a man would deliberately dissemble and act the hypocrite for the purpose of deceiving honest people, or to advance his own interests.

There are some of this same old brand yet, and their numbers are not few.

The humblest of us make an effort to keep our best foot front and to pretend that we are getting along swimmingly when in fact we are dragging slowly along through the mud and mire.

Just between ourselves, and to go no further, don't you do a little lying—not a whole lot of out and out lying, but more or less, mostly of the white brand?

We think we have to do this.

But do we?

We are cautioned not to lie at all, and not to juggle with words, but to let our conversation be yes, yea, and nay, nay.

Lacks Ambition.

Gov. Douglas is probably the first governor of a state to decline a renomination on the ground that if renominated he might be re-elected, and if re-elected he "might be nominated and elected to the chief magistracy of the nation." Many ambitious men have sought governorships believing them to be stepping-stones to the presidency. The governor of Massachusetts publicly announces his resolve to step down from the stone lest it might in truth prove to be the way to higher things.—New York Times.

A Bright Outlook.

With greater activity in the mills than for many years, and the prospects of peace insuring new markets for the product, supplemented by the thorough organization of the cotton growers to guard against a glut in the market, the enhanced value of cotton bids fair to more than make up for the decreased production. This will insure continued prosperity in the south, which will include not only the cotton growers, but all branches of industry.—Louisville Courier-Journal.

Comfort for Baldheads.

Everything in this world has its compensations, and a writer in a late medical journal conveys the comforting information that baldheaded people are immune from pulmonary tuberculosis. With another cerebral stimulant the case is slightly different. Baldness is certainly promoted by mental application.—Chicago Chronicle.

Buying Hotels.

"Dear John," wrote Mrs. Newlywed from the shore, "I enclose the hotel bill."

"Dear Jane, I enclose check," wrote John, "but please don't buy any more hotels at this price—they are robbing you."—Smart Set.

TALKED OF IN GOTHAM

By FRANK A. PARKER.

[By Private Wire to The Gazette.]

NEW YORK, Aug. 1.—Rear Admiral Robley D. Evans' group of eight big battleships, which have been anchored in the North river for several days, left port today for maneuvers along the Atlantic coast. The ships, which compose the first and second divisions of the battleship squadron of the North Atlantic fleet, swung into line on a signal displayed at 10 a. m. on the flagship, the Maine. The Maine left the position she had occupied in the middle of the line, and, passing down the river, took her station in the van. After her came the Missouri, the Kearsarge, the Kentucky, the Alabama, the Illinois and the Iowa, with the Massachusetts last. The big vessels, their decks crowded with bluejackets, and with spotless white hulls, made an imposing sight as they steamed at half speed down through the narrows and lower bay to the open sea. Most of the jackies on shore leave had been rounded up and were safely aboardship when the squadron sailed. Several score, however, were missing, and when found will be sent back to suffer a forfeiture of shore leave for three months as penalty. The battleships were saluted by the whistle of all steam craft they passed in the harbor, and, when they reached Tompkinsville, by an admiral's salute from the Pennsylvania, Brooklyn and other ships of the cruiser squadron at anchor there.

Seems to Be a Squeeze in Lemons.

Lemons have joined the long list of necessaries that have deteriorated in quality and advanced in price. The fruit now on the market has never been of such poor quality. Dealers say a short crop in Italy and Uncle Sam are responsible for the existing situation. Until the summer set in a good grade of lemons could be had as low as a cent each. The same lemons cost twice as much today, and there is every reason to believe that the price will not drop materially until next season. Wholesale dealers say the primary reason for the shortage of good lemons is a cold snap in Italy that ruined the better part of the crop there.

Home Made Jellies for Charity Patients.

To supply home made jellies and preserves to the poor in city hospital wards next winter is the plan being perfected by members of the National Plant, Flower and Fruit guild at No. 70 Fifth avenue, that has for the last eight years been distributing flowers among the needy in tenements in an effort to make their rooms more cheerful. The scheme for sending jellies made from fresh fruits in clean homes to charity hospital patients is the most difficult one yet undertaken by the guild, for the success of the idea does not depend upon the money contributed annually by wealthy patronesses, but upon branch members living in the country who will be asked to give the labor that cannot be bought.

Another Jump in Price of Coal.

During the month of August consumers of anthracite coal will be obliged to pay 10 cents more for every ton they buy than they did last month. This makes the retail price $6 15 a ton. This is the third monthly advance of 10 cents by the retailers and the fourth by the operators since the spring reduction. A similar advance, and the last one for the present, will be made on September 1, when the maximum fair weather price will be reached. Retailers say they have "put in" more coal for winter use so far this summer than ever before. They expect this month will be an exceptionally busy August for them.

Men at Ward's Island Do Knitting.

Sight of a roomful of men knitting and crocheting as if their lives depended upon it furnishes much amusement to visitors to Ward L in Blackwells island these days. Officials say this is the regular occupation of the men all the year round, and that other feminine occupations are cultivated as a means of earning "pin money." Just now there is a big spurt in their labors, for the men are getting together a lot of fancy articles for exhibition and sale at Newport, Bar Harbor, Kennebunkport and other fashionable watering places, and every man of the 35 who is accomplished in these lines is working assiduously to finish as many articles as possible.

Janitor Will Now Buy Yacht.

Mrs. Royal Von Heldon, wife of the former janitor of the New Rochelle Rowing club, will sail tomorrow on the Teutonic for Germany, where she will represent her husband at the division of the estate of her uncle, Count D. Y. Don, who died last fall at Berlin, leaving an estate valued at $3,000,000, to which he is one of the heirs. Von Heldon will get about $800,000 as his share of the estate. Von Heldon, as soon as he gets his fortune, will buy a yacht, which he will add to the fleet in Echo bay off the New Rochelle Yacht club, and he will then become a full-fledged yachtsman and clubman.

James Hazen Hyde as Role of Lover.

Society is interested over a rumor that Gladys Deacon, wooed by lords and dukes, is now being sued for her heart and hand by James Hazen Hyde. They are frequently seen together, and the fact that Mrs. Charles H. Baldwin, grandmother of Miss Deacon, apparently looks with favorable eyes on the presence of Mr. Hyde makes the rumor doubly strong, although nobody has been discovered who will authoritatively vouch for it. Miss Deacon is making her home with Mrs. Baldwin, who is the widow of Admiral Baldwin.

What China Wants.

China figures that she should have about $100,000,000 rent for the use of her back lot for fighting purposes, and if she cannot get it she wants the tenants to move out.—Washington Post.

THE POST EXCHANGES

How the Government Is to Provide Entertainment for the Soldiers.

Ground is now being prepared at Fort Washington, the heavy artillery station on the Potomac, about 15 miles below this city, for the erection of a new "gymnasium and post exchange building," says the Washington Star.

Post exchange and gymnasium buildings similar to the one now being erected at Fort Washington are to be built or are building at Fort L. H. Roots, in Arkansas; Fort Ontario, New York; Fort Howard, Maryland; Fort Rosecrans, California; Missoula, Montana; Fort Worden, Washington, and Fort Moultrie, Charleston harbor.

For several years the men at the army posts throughout the country have been encouraged to go in for athletic sports, the officers believing that the sports benefited the men both physically and morally and added much to the esprit de corps of the commands.

A Brick and Stone Structure.

The new building is to be a two-story structure of brick and stone, with a slate roof. It will occupy a commanding position on the eastern side of the fort reservation, not far from the new general hospital at the post. When completed it will be a handsome building, in keeping with the numerous fine buildings that have been erected at Fort Washington during the past six years, and which make the fort one of the most up-to-date army posts in the east, if not in the country. The specifications call for the use of stone on the foundation of the building and for several feet above the ground, while the walls of the building will be of brick, considerable ornamental brick being used in the front of the building. The structure will be in the shape of the letter "T," the cross part being the front. It will be 54 feet 10 inches across the front, and each wing will be 36 feet 2 inches wide by 79 feet 2 inches deep. On entering the first floor through a wide central hall, a billiard room 29 feet 2 inches each way will be found on the left hand. This is to be fitted up with billiard and pool tables, and tables for dominoes and checkers. On the right hand side of the big entrance hall on this floor a lunch room will be located. This will be about the size of the billiard room and here the soldiers will be able to obtain delicacies that are not served in the post mess rooms. In the rear of the billiard and lunch room will be the kitchen, pantry and store rooms, and a large toilet room.

In the extreme rear of the first floor, in the back building, will be located the big gymnasium. This will be 76 feet 2 inches long, by 32 feet 2 inches wide and will be about 25 feet high. In the second story of the building will be the "post exchange"—that is, the official store of the post, where the men obtain their tobacco, cigars, and, in fact, everything that they could wish to buy. These goods are sold at a figure but slightly over cost, and the profit arising from the business is used for the benefit of the men.

The exchange will be located at the left side of the center hall and will be fitted up like a store, with counter, chairs and the like. In the rear of the exchange will be a small office for the use of the exchange sergeants. On the right side of the hall there will be a lecture room, 29 feet 7 inches by 32 feet 6 inches in size. At one end of this room will be a raised platform for use during entertainments that may be gotten up by the men. The room will be used as a reading room ordinarily and will be comfortably fitted up with tables and chairs. At the end of the hall on the second floor entrance can be had into a large gallery looking down upon the floor of the gymnasium. This is for the use of spectators who may wish to watch the soldiers engage in their athletic work.

The Gymnasium Proper.

A small reading room and a small toilet room are also to be located on this floor. As stated, the gymnasium is to be a large room, with a wooden floor. About it will be arranged all manner of gymnastic apparatus calculated to benefit the physical man and increase muscle and strength.

Around the walls of the room will be placed various kinds of weight machines, the use of which develops the muscles in specific parts of the body. There will also be the horizontal and parallel bars, climbing ropes, jumping horses, a stand, vaulting bar, flying rings, Indian clubs, dumb bells, rowing machines and all that go to make up a well-appointed gymnasium. Another feature will be arrangements for the playing of basketball and other indoor games of a like nature.

The ceilings of the building will be of ornamental steel work, and will add much to the artistic finish. The building is to be steam-heated, electric-lighted and the latest and most modern sanitary plumbing will be used. The contract price for the building, exclusive of the gymnasium apparatus or the furnishing of the rooms, is $23,344.

Fond of Sea Life.

King Oscar of Sweden will be delighted with his appointment as admiral in our fleet—a dignity which will place him on about the same naval level as the German emperor. The king of Sweden is very fond of the sea, and he has been a frequent visitor at Cowes when the prince of Wales, now King Edward, was commodore of the Royal Yacht squadron. One one occasion, when dining with the squadron, King Oscar made a very happy English speech eulogizing the maritime qualities of the British people and the achievements of their navy, to which he now technically belongs.—London Chronicle.

Heard Him Cough.

"Muriel," said the old gentleman, sharply, "that young man you had in the parlor last night is dull of comprehension. All I had to do was cough when the other chaps remained too late, and they would take the hint and depart. Did this one say anything when I coughed last night?"

"Yes," replied the beautiful daughter; "he said the next time he called he was going to bring you some cough drops."—Chicago Journal.

The Heaviest Rainfall.

The heaviest rainfall of short duration ever recorded accurately is said to have been the recent one at Santiago de Cuba. An English engineer found the rate to be more than four inches an hour, and between 7 and 12 o'clock in the evening a total fall of more than a foot was registered by the gauge. The storm covered nearly 200 square miles, in places being even heavier than at the point where the measurement was made.—Chicago Journal.

Japan's Chances.

Having shown what it can do in war it will now give token of what it can do in diplomacy, this time with less prospect of being thimble-rigged out of the rights which it has battled for and conquered than awaited it on a previous occasion.—New York Times.

Nearing Home.

The Russian army has just been forced back a few more notches by the Japs. It would be interesting to discover just how much nearer home Linevitch is now than he was when he took command.—Chicago Record-Herald.

Squared by Flattery.

"And you kissed the girl right before the chaperon? How did you ever manage to square her?"

"I told her it was so dark that I had made an excusable mistake in their faces."—Cleveland Plain Dealer.

Disrespectful to Harry.

Mrs. Harry Lehr, since her return from Europe, "has a pet poodle as her constant companion," according to a Philadelphia paper. Some of those society reporters are always calling Harry names like that.—Washington Post.

PICKED UP IN LOBBIES

Women Here Like Smoke.

"Pittsburgh is the first city I have ever visited where women openly declare that they like tobacco smoke," said George T. Barnsley, a New York traveling man, who stood looking things over in the lobby of the Criterion last night. Mr. Barnsley has the reputation of taking notice and he was asked to explain. He said: "Your Jonderful trolley cars have state that smoking is permitted on the three rear seats. Of course, in consequence, you find a lot of fellows smoking very rank stogies sitting there. A civilized man can hardly stand it, yet I have seen a great many refined-looking women choose those seats in preference to any on the cars. I was curious to know about this and asked the conductor. He told me that half the women of Pittsburgh like to sit back there and inhale that foul smoke. It's shocking, and I am at loss to know how they can stand it. In other cities women try to keep as far as possible from the smokers. The only way I can account for this is that these women, who are the daughters of very good citizens, have been used to the bad tobacco ever since their days in the cradle, and now since they have grown up, they satisfy their hunger by taking the back seat in the smoker trolley."

"Charley Keener, Anywhere."

Charley Keener, who represents a Cleveland lumber firm and who often "blows" into Pittsburgh and registers at Renwick, doesn't worry when he puts his name down on the big book and asks for a room. The truth of the matter is that he lives in Grafton down in West Virginia, but he simply signs himself "anywhere." Charley is so well-known that anybody knows at a glance where he is from. So long as the earth doesn't get in touch with Mars or Saturn or some of the other planets, he will not specify that he is still on this sphere. When science does establish this communication, however, he will clearly designate that he hails from Grafton and Cleveland.

Indian Maids Are Good Cooks.

"The people of Wisconsin have solved the servant girl problem," said Ennis Larsen, a real estate dealer of Appleton, Wis., who was a passenger last night on the Baltimore & Ohio Chicago express. "After a lot of harrowing experiences with Swedish girls and native domestics, it has been found that the young women from the Oneida Indian agency make ideal servants. In Appleton recently an Indian school was opened and the girls from the tepees are given a course in domestic science covering two years. They graduate as cleanly and intelligent servant girls, who know how to cook and wait on the table in a manner that eclipses some of the girls who boast of coming from good American homes. This has solved the servant problem for Wisconsin, and the remarkable part of it is that these same girls a few years ago could cook nothing but dumbdodgers and dog."

Col. Sam. Moody, Sprinter.

If Col. Samuel Moody, general passenger agent of the Pennsylvania Lines, were not one of the slickest passenger men in the country he might figure in the world of sports as a champion sprinter. Last night a number of the officials of the Pennsylvania company gathered at the station to take trains in various directions and the colonel was waiting for the limited. He was either discussing the good points of his new home, Transportation, or the next G. A. R. encampment, and forgot for the time being that the limited was due to leaving precisely on time. Col. Moody saw the "white eye" and started for the train. He ran across the platform like a candidate for honors at a Fourth of July field meet, caught the train and struggled all the way to Chicago to catch his breath. And he got it—he always does.

"Ah, the Old Familiar Faces."

Peter Henderson—his hair is gray now—came to Pittsburgh yesterday after an absence of 18 years. Back in the '60s he came here every month or so, selling drygoods for a New York firm. Yesterday he dropped in to see a few old friends and dined last night at the Union. He stood in Fifth avenue last night and observed the crowds that thronged the city's busiest thoroughfare. "I don't know how Charles Leach felt," said Mr. Henderson; "but I must admit that I still feel very much at home in Pittsburgh. Of course, there is a multitude of new faces, but there are the old faces, too—God bless 'em. Pittsburgh, when I was here last, had no skyscrapers and no trolley cars, but it had a host of good people. Pittsburghers are a long-lived lot because, it seems, the world cannot do without them, and I don't feel lonesome in these new modern surroundings when I can glance about and see an old familiar face. The faces that I see have more wrinkles than when I saw them last, but they are happy and cheerful—speaking entirely just such a welcome as an old timer like me loves to greet."

Arrivals at the Hotels.

Duquesne—John Hayward, New Castle; G. E. Gilmore, Parkersburg; J. M. Fulks, Youngstown.

What the Baron Forgot.

From the Chicago Inter-Ocean.

When the Baron Komura has been here a few times and neglected each time to observe the rules of etiquette, he will learn that the Dunne administration is not to be trifled with. He should have called at the city hall, as Corporation Counsel J. Hamilton Lewis explains, and left his card, if he had one, or anything else that he was not particular about losing.

Legal Acknowledgment.

"You sign this deed of your own free will, do you, madam?" asked the lawyer.

"What do you mean by that?" demanded the large, red-faced woman.

"I mean there has been no compulsion on the part of your husband, has there?"

"Him!" she ejaculated, turning to look at the meek little man sitting beside her. "I'd like to see him try to compulse me."—London Tit-Bits.

Failed to Appreciate It.

By and by, when small Fred had finished sobbing, he said, "Mamma, you told a story."

"Why, Fred, what do you mean?" asked his mother.

"You said you was going to give me a good whipping," explained Fred, "but I didn't see anything good about it."—Chicago News.

Near to Nature's Heart.

"Is it lively out here?"

"Sure; the old residents won't associate with the summer cottagers; the cottagers detest the campers; the campers loathe the excursionists."

"And the excursionists?"

"They hate each other."—Puck.

Japan Is Learning.

Mr. Komura indicates that Japan will ask everything and take all she can get, if it is enough. This is one of the most diplomatic utterances on record, and shows that the heathen is rapidly becoming Christianized.—St. Louis Globe-Democrat.

Answers to Correspondents.

GRAFTERS WILL BE ROOTED OUT

Thorough Housecleaning to Take Place in All Departments of the Government.

MANY LINES ALREADY OPENED

THE PITTSBURGH GAZETTE BUREAU.
Herald Building, Herald Square,
WASHINGTON, D. C., Aug. 1.

It is announced today that the commission which has been investigating the contract for typesetting machines made by the government printing office has completed its report, and would immediately submit it to the president. Assistant Secretary of the Treasury Keep, chairman of the commission, said he would personally convey the report to Oyster Bay and that in the meantime no intimation of its contents would be divulged. It has been charged that the awarding of the contract was accompanied by irregularities and that the result of the investigation would be the resignation of Public Printer Palmer.

Never in the history of the government have the executive departments experienced such a housecleaning as they are undergoing at present. Graft in its every aspect is being rooted out and those who have been using their public positions for private gain are being removed from the service. When the Roosevelt administration gets through the old saying that a "public office is a private snap" will no longer be true.

Starts in Postal Department.

Starting with the expose of the grafters in the postoffice department, four of whom are now reposing behind prison walls while others are using all the kinks of the law to keep from going there, the crusade for decency and official cleanliness has extended into the interior and agricultural departments and threatens to invade every other branch of the public service. While the land grafters were being tried in the west the probe was busy here in Washington. The cotton leak scandal was exposed, the assistant statistician was discharged and the chief of the bureau and his stenographer found it convenient to resign on short notice. At present the grand jury is busy with their cases and indictments are expected at any time, although there is doubt whether conviction can be secured.

Scarcely had this sensation subsided when the fact was developed that the wife of Dr. George T. Moore, in charge of the laboratory of plant industry, held stock in a concern that manufactured "nitroculture" and that farmers were being advised by the department that this concern would supply them with the article. Following the publication of this Dr. Moore resigned.

Then came the news that officials of the bureau of animal industry had invented a patent tag to be attached to meat that is intended for export, and that they are profiting from their official connection with the government. It is also claimed that employes of the bureau of forestry do work for private parties, but in defense the officials say that any such work is paid for by those who have it done.

Geologists Strike Pay Streak.

It has been discovered that a number of officials of the geological survey are stockholders and directors of the Mining World, a magazine published in Chicago, and it is charged that they publish in this journal information that is collected at government expense and before the facts are made public in official reports. Other magazines have complained at this favoritism. It is shown that four officials of the geological survey, who draw from $1,800 to $3,600 per annum from the government, are employed as editors of the Mining World, and the chief of the bureau of forestry is also one of the editors. No specific charges have yet been filed, but the matter is being investigated.

The same complaint is made against employes of the fish commission and the Smithsonian institution.

In 1900 when the fish commission ship Albatross returned from a cruise of the South sea, reporters were told that no information concerning the trip would be given to the public at that time. A short time later an article appeared in a popular magazine, illustrated by government photographs and giving a detailed account of the cruise. It was written by one of the employes of the commission.

Private Summer Resort.

Statements are made to the effect that the weather bureau has been guilty of extravagance in the establishment of an annex at Mt. Weather, Va., an experiment station up in the Blue Ridge mountains. It is said that officials of the bureau use it as a summer resort, and that they go there over Sunday, enjoying the privileges of a summer home at the government's expense. Secretary Wilson himself, it is said, has been entertained on more than one occasion at this exclusive resort. Chief Moore replies that the institution at Mt. Weather has only cost the government $60,000 in all, and that it is a valuable scientific establishment. He says Secretary Wilson was there but twice and then but for a day or two.

Some of these charges are trifling in themselves and scarcely worthy of serious attention, but they are all being investigated by the commission that was appointed by President Roosevelt to probe into the affairs of the departments. The result will be the purification of the public service to a degree that it has not known for many years, and it is safe to predict that graft will be effectually eradicated.

L. W. STRAYER.

Odd Fellows to Hold Picnic.

The annual picnic of the Independent Order of Odd Fellows will be held today at Cascade park. It is expected to be one of the biggest affairs the order has ever had, as there are over 12,000 members in the Pittsburgh district. A program of sports has been arranged and a ball game will be played by teams from Wilkinsburg and Sharpsburg lodges. Special trains will leave Union station at 8:10 and 8:45 o'clock this morning.

Magistrate Moke Remits a Fine.

Magistrate Moke yesterday reversed another of his decisions. In the case of Ralph Sandy the fine was remitted. It was alleged the Italian, who is employed by Booth & Flinn, was conducting an employment agency without a license. The prisoner was detained by his employers to secure additional workmen, and when the magistrate learned the facts he ordered the rehearing.

Publisher Is Arrested.

ST. PAUL, MINN., Aug. 1.—John C. Hanley, publisher of the Alliance Advocate, and well-known throughout the west as a leader in the Farmers' Alliance and other political movements, has been arrested by United States Marshal Grimshaw on a charge of using the mails in connection with a scheme to defraud.

QUESTIONS WHICH WILL SOLVE RED TAPE PROBLEM

[BY ASSOCIATED PRESS TO THE GAZETTE.]

WASHINGTON, Aug. 1.—The Keep commission appointed by the president to investigate business methods in the executive departments of the government, and to suggest any desirable changes, has prepared 107 questions which it has forwarded to the heads of departments with requests for prompt replies. These questions relate principally to the general subjects of department organization, personnel, correspondence and files, the purchase of supplies and accounts, and miscellaneous matters.

Among the questions asked are the following:

"Is there any regular committee on departmental methods in your department?"

"What is the method of responsibility for public property for the department?"

"What procedure and policy are followed in making up departmental estimates for appropriations?"

"Are any persons in your department engaged in preparing decisions for ministerial approval who are without expert and practical knowledge of actual conditions affecting or affected by such decisions as distinguished from a knowledge of the record alone?"

"Is there any system by which field men become familiar with office methods and office men with field methods?"

"To what extent are different salaries paid to persons doing the same kind of work?"

"Describe carefully the system of promotion and its operation and to what extent does promotion mean change of work, and to what extent is it merely an increase of pay."

"What, if any, co-operation is there with other departments in standardizing stationery and miscellaneous supplies purchased?"

"Method of reaching bidders for supplies, and if circular letters are used. Who determines to whom they are sent?"

"What safeguards are used in connection with the receipt of cases, checks, etc., and their deposit in treasury?"

"Describe in detail any system now in operation in your department for keeping the cost of work, or the comparative cost as between offices and departments, or as between the government and private enterprises?"

"As the result of any such systems have standards of maximum cost been adopted?"

ASSIGNMENTS IN ARMY DELAYED BY PRESIDENT

Nothing Will Be Done Until Gen. Wood Is Again on Duty.

[BY PRIVATE WIRE TO THE GAZETTE.]

WASHINGTON, Aug. 1.—President Roosevelt held up indefinitely the assignment of certain general officers to divisions until the operation upon Gen. Leonard Wood is complete and his recovery assured. It has been planned to assign Gen. W. C. Carter to the department of the lakes and the assignment, which was greatly to the liking of Gen. Chaffee, chief of the general staff, was about to be made official when an order came from Oyster Bay which held up the entire program.

At the war department the official statement is to the effect that the only news received concerning Gen. Wood's condition is that it may be impossible for him to return to the Philippines before the lapse of two months or more. He had planned to return in August, but his recovery from a recent operation in Boston was not as rapid as hoped for.

There has been a faction in the war department which has shown considerable opposition to Gen. Carter. It is made up largely of line officers and it has always claimed that he has in the past decade received a rapid promotion without a corresponding amount of hard work in the field, that such promotion has in fact been due to his acting as a sort of press agent for those in the ascendancy. This faction hailed with joy his assignment to duty in the Philippines, but was downcast at his probable return after only a little more than a year's absence.

SEEKS RECIPROCITY IN ARRANGING TARIFF

Russia Will Admit Farming Implements If We Will Reduce Duty on Her Sugar.

[BY PRIVATE WIRE TO THE GAZETTE.]

WASHINGTON, Aug. 1.—Russia has sounded this government to find out whether in the revision of its own tariff which it proposes to make, there may not be included some changes on a basis of reciprocity. Three years ago the treasury department of this country imposed the full tariff upon sugar imported from Russia on the ground that it enjoyed a bounty from the Russian government.

The matter even went to the courts, where it was firmly established that Russian sugar enjoyed a government bounty. Then came recrimination and Russia imposed an almost prohibitive tariff on American agricultural implements and machinery.

Now it offers to remove this tariff on farming machinery provided the United States will remove its tariff against Russian sugar. As the matter is one entirely established by federal statute, the state department, and the treasury as well, is helpless in the premises, and only an act of congress can affect the change in the tax imposed.

STILL PURSUING LAURA.

New York Attorney Who Claims Laura Bigger Owes Him Professional Fees Wants the Money.

Attorney Samuel L. Frankenstein, a New York lawyer, through Attorneys Way, Walker & Morris of this city, yesterday issued a foreign attachment against Laura Bigger in court of common pleas No. 1 and summoned P. J. McNulty and R. M. Gulick, individually and as trustees of the Henry M. Bennett estate, as garnishees, in an endeavor to collect any moneys belonging to Laura Bigger, up to the amount of his judgment, which with interest amounts to $28,000. The bond was fixed at $46,000.

Frankenstein represented Laura Bigger in a professional way for some time, covering a number of transactions. His fee was refused and he brought suit in the supreme court of New York to recover. That court fixed the fees at $20,000. Frankenstein, believing he could collect the judgment in this city, filed the suit and summoned the trustees of the Bennett estate to answer if they have any of Laura Bigger's funds in their hands that he can attach.

DISCOVERS HIS PARENTS.

John Marts, Kidnaped 20 Years Ago, Expects to Meet His Father Again.

John Marts of Turtle Creek, who was kidnaped almost 20 years ago and carried away by a former sweetheart of his mother, expects to be united with his father within a day or two.

The publication of the story of the kidnaping and the fruitless search for the missing boy, several days ago attracted the attention of George Hammerle, a carpenter of 1816 Market street, Allegheny. Hammerle was acquainted with the family at the time of the boy's disappearance and since that time has kept up his acquaintance with the elder Marts, who is still living at Lovis postoffice in Beaver county. Hammerle communicated with both father and son and the two expect to meet again after 20 years' separation.

COUNCIL OF MINISTERS WILL BROADEN ASSEMBLY

Bouligin's Project Will Be Recast in More Liberal Form—Serious Strike Breaks Out at Reval.

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]

ST. PETERSBURG, Aug. 1.—The council of ministers assembled at Peterhof this afternoon under the presidency of the emperor to examine the project for a national assembly. Those present numbered 44, including Grand Dukes Alexis Vladimir, Alexander Michaelovitch and Nicholas Nicholaievitch; all the ministers, Senators Bobrinsky, Shirinski and Naryshkin, and Profs. Kljutschewski and Pavloff of Moscow, nearly all of whom are members of the council of the empire.

A bureau of the council, composed of officials of the imperial chancellerie, has taken over from the committee of ministers the work of elaborating a project for the convocation of the national assembly. The project is to be thoroughly recast and to be of a more liberal form. When complete it will have little in common with the scheme presented by Minister of the Interior Bouligin.

REVAL, RUSSIA, Aug. 1.—The strike situation has assumed a serious aspect. A strike began today at the Dvigatel works, where the workmen offered up prayers before marching on the streets. They visited other factories and demanded a cessation of work. The governor has posted a notice warning the people that arms will be used against crowds refusing to disperse.

POLICE GET FUGITIVE STARTING FOR ITALY

Pittsburgh Officers Locate Their Man in Duquesne—Was Taken at Weapon's Point.

After searching through Pittsburgh and Allegheny, Special Officers Stonerod and Angelo last night, in an Italian boarding house in Duquesne, found Dominic Cristiono, wanted for the stabbing of Tony Marino in a fight on Sunday in Clay alley. The officers had visited every hospital in the two cities, thinking Cristiono might have been wounded. Yesterday they learned he had gone to Duquesne.

They boarded a car for Duquesne and discovered they were being shadowed by an Italian whom they arrested and placed in the Oakland station. The officers obtained the assistance of four Duquesne policemen and found Cristiono last night at 10 o'clock. A score of Italians were in the house and they became so threatening that the entire police squad drew weapons.

The fugitive was in bed. He had instructed the landlord to waken him at midnight when he intended to take a train for the east, to sail for Italy. They took the prisoner to the Oakland station. Marino, who was stabbed in the back, was released yesterday from the Homeopathic hospital. Cristiono thought he had killed Marino.

DO NOT WANT PRESENCE OF PROTECTIONISTS

WASHINGTON, Aug. 1.—The protest of the Home Market club of Boston against protectionists attending the national reciprocity convention at Chicago, August 16 and 17, has put a damper on the interest recently demonstrated by government officials in this meeting. Secretary Wilson of the department of agriculture and Secretary Metcalf of the department of commerce and labor have notified the Washington representative of the conference they feel the best interests of the public service will be conserved by their staying away.

Baseball Night at Luna.

Tomorrow night is to be baseball night at Luna park and the management has invited members of the Pittsburgh team and those of the New York team, who will be in the city, to be the guests of General Manager Ingersoll. It is expected that a large gathering of rooters and fans will be present to meet the star handlers of the sphere. Luna has just introduced a miniature baseball device as one of the attractions, and this will undoubtedly prove a drawing card Thursday night.

NO APPOINTMENTS UNTIL AUTUMN

Superintendent of New State Police Force Makes This Official Announcement.

HAS HUNDREDS OF APPLICANTS

THE PITTSBURGH GAZETTE BUREAU.
HARRISBURG, PA., Aug. 1.

"Owing to the large amount of detail work necessary to perfect the organization of the state police force created by the recent legislature, no appointments will be made to the force until fall."

This announcement was made by Capt. John C. Groome, superintendent of the new department, who reached here from Philadelphia this afternoon to open a permanent office in the new capitol.

Capt. Groome has received 400 applications for appointment to the four captaincies of the police force, and several hundred additional applications for the various other positions on the force. Each applicant will be required to pass a mental and physical examination, to be a citizen of the United States, of sound constitution, able to ride, of good moral character and between the ages of 21 and 40 years.

Capt. Groome expects to begin the examination of applicants as soon as he has appointed a medical examiner and organized his office. The examinations will be conducted at Harrisburg and also in Philadelphia, Pittsburgh and other large cities.

John H. Clarke of Langhorne, Bucks county, has been appointed chief clerk in the office of Capt. Groome. Mr. Clarke served for one year as a clerk at League island, three years as pay clerk and pay yeoman of state naval battalion, nine years in Battery A, and later as quartermaster of Troop A, N. G. P. He also served in the United States volunteer light battery during the Spanish-American war.

UNION NATIONAL BANK INCREASES ITS CAPITAL

The stockholders of the Union National bank, which recently acquired the banking house of N. Holmes & Sons, voted unanimously yesterday in favor of the proposed increase of the bank's capital stock from $500,000 to $600,000. This increase is part of the plans of the enlarged institution and was noted at the time the merger was made.

Prohibs May Indorse Pattison.

COLUMBUS, O., Aug. 1.—(Special.)—At the Prohibition state convention today the overshadowing issue is an effort to have John M. Pattison, Democratic nominee for governor, indorsed, and leave the head of the ticket vacant. Possibilities for the nomination for governor are Mayor Weaver of East Liverpool, J. H. Martin of Cincinnati, J. B. Haskell of Zanesville, H. L. Peak of Sandusky and F. M. McCartney of Columbus. The Rev. A. S. Watkins of North Baltimore was chosen temporary chairman.

Bakery and Residence Burned.

YORK, PA., Aug. 1.—(Special.)—The D. F. Stauffer bakery was partially destroyed by fire this evening. The plant is regarded as being the largest outside the trust, and was valued at more than $100,000.

HUNTINGTON, W. VA., Aug. 1.—(Special.)—The home of the Hon. W. G. Hensley, a member of the legislature from this county, was destroyed by fire tonight; loss $5,000.

HOW TO FIND OUT.

Fill a bottle or common glass with your water and let it stand 24 hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains the linen it is evidence of kidney trouble; too frequent desire to pass it, or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed that Dr. Kilmer's Swamp-Root, the great Kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle of Swamp-Root, the great kidney remedy, and a book that tells all about it, both sent absolutely free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing be sure to mention that you read this generous offer in the Pittsburgh Gazette. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

KAISER MISSES A DINNER ON CZAR NICHOLAS' YACHT

Orders Movement of His Ship Changed During the Night and Surprises His Party—Arrives Too Late for Expected Feast on Polar Star.

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]

ST. PETERSBURG, Aug. 1.—From a member of the imperial entourage the Associated Press learns an interesting fact showing how quietly preparations were made for the meeting between Emperor Nicholas and Emperor William of Germany. Though the German emperor had been exchanging telegrams with Emperor Nicholas for three days before the meeting, the party on the imperial yacht Hohenzollern were unenlightened as to their nature and retired on Saturday night in ignorance of the forthcoming event. During the night Emperor William personally ordered the course of the yacht to be changed to the eastward. When the surprised guests noted the new direction of the Hohenzollern in the morning Emperor William jovially broke the news that he would dine with the Russian emperor that evening. Dinner was prepared on the Polar Star, the Russian imperial yacht, but the Hohenzollern failed to arrive on time, and finally Emperor Nicholas and his party dined without the expected guests.

When the Hohenzollern did arrive and the German emperor and his suite had boarded the Polar Star, Emperor Nicholas greeted him, saying:

"Thou art too late. We have already dined," using the familiar German "Thou." Emperor William replied laughingly and the incident gave the keynote to the informality which marked the meeting of the sovereigns and their suites.

NEWS OF THE NEARBY TOWNS AND COUNTRY

UNIFORM DIVORCE LAWS ARE WANTED

Mr. Pennypacker Writes Governors of Other States Asking Their Co-Operation.

A CONGRESS TO BE CALLED.

THE PITTSBURGH GAZETTE BUREAU,
HARRISBURG, PA., Aug. 1.

HARRISBURG, Aug. 1.—Gov. Pennypacker has transmitted to the governors of the various states of the union, a communication requesting their co-operation in the creation of legislation for the uniformity of divorce laws. The action has been taken in conformity with a law passed at the recent session of the Pennsylvania legislature authorizing the appointment of a commission to codify laws relating to divorce, and to co-operate with other states in securing enactments making more difficult the breaking of matrimonial bonds.

"The law is based on the constantly increasing number of divorces in the United States, "An evil," in the language of the act, "of threatening magnitude, fraught with serious consequences to the well-being of our institutions and civilization," and to the diversity of divorce legislation in the several commonwealths, which, "in the opinion of the legal profession, of students of social science and like investigators, a serious obstacle in the way of the correction of the evil."

The proposed remedial legislation is in part spirited by the action of President Roosevelt in calling the attention of congress to the necessity for uniform divorce laws. Such states as look favorably on the Pennsylvania proposition are expected to send representatives to a congress of delegates to meet in Washington at such a time in the near future as shall be agreeable, to examine, consider and discuss the laws and decisions of the several states upon the subject of divorce, with a view to the adoption of a draft of the proposed general law, which shall be reported to the governors of all the states for submission to the legislatures thereof, with the object of securing, as nearly as may be possible, uniform statutes upon the matter of divorce throughout the nation.

ALBANY, N. Y., Aug. 1.—Gov. Higgins expressed himself today in favor of the proposed co-operation of state commissioners to obtain uniformity of divorce legislation throughout the country. In a letter to Gov. Pennypacker of Pennsylvania he says:

"I have no authority to appoint delegates to a congress to meet at Washington to consider the subject of divorce, but I think the matter falls properly within the jurisdiction of the commissioners for the promotion of uniformity of legislation in the United States, and I have referred your communication to Walter S. Logan of No. 27 William street, New York city, who is the senior commissioner in this state, and have requested him to communicate with his colleagues and, if possible, to attend such a congress, should it meet, on behalf of the state of New York."

TROLLEY CONSOLIDATION WILL BE CONSUMMATED

SHARON, Aug. 1.—(Special.)—Final steps looking toward a consolidation of the Mahoning and Sharon-Youngstown street railways will be taken tomorrow at a meeting to be held in Youngstown. Officials of both companies have been here this week inspecting the lines of the latter company, and additional ground has been purchased for enlarging the freight and passenger station on State street.

GREENSBURG SEMINARY WILL REOPEN DOORS

GREENSBURG, Aug. 1.—(Special.)—It is stated on reliable authority that the Greensburg seminary, which sold its building and equipment to Thomas Lynch, president of the H. C. Frick Coke Company, for a home site, will resume sessions in the fall in temporary quarters. At the head of the school will be Prof. Leroy S. Wolfe, a graduate of Lafayette college, and Prof. Edwin S. Shirey, a graduate of Thiel.

Sneak Thieves in New Castle.

NEW CASTLE, PA., Aug. 1.—(Special.)—One of the most daring robberies for a long time in this city was accomplished at the wholesale liquor store of J. J. Wilhelm, in South Mercer street, but a stranger last evening. He engaged Mr. Wilhelm in conversation in a rear office while the safe was robbed of a little over $500.

Hard on Livery Men.

FAIRMONT, W. VA., Aug. 1.—(Special.)—John C. Callaghan of Marion county, whose estate is appraised at $150,000, left a will probated today which contains this clause: "I desire to be buried in a plain coffin and request that no expenses be incurred at my funeral for hack hire beyond the expenses for the hire of one carriage."

A Man to Mr. Roosevelt's Liking.

FINDLAY, O., Aug. 1.—(Special.)—Louis Runkle, a well-known citizen of Hancock county, is dead at his home near Rawson. He was 78 years of age and was the father of 23 children, a majority of whom live in Hancock county.

Lowellville Furnace Resumes Work.

YOUNGSTOWN, O., Aug. 1.—(Special.)—The stack of the Ohio Iron and Steel Company at Lowellville, which has been idle for the past six weeks, making repairs and relining, has been put in blast.

Wonderful Water World.

It is interesting to know that in the Province of Ontario, Canada, there are over 40,000 square miles of inland water stretches, exclusive of the Great Lakes and the River St. Lawrence, and nearly all lying north of Lake Ontario in the "Highlands of Ontario." These Highlands embrace the districts known as "Muskoka," "Lake of Bays," "Magnetawan River," "Lake Nipissing and the French River," "Temagami," "Algonquin Park" and "Kawartha Lakes," and are all reached directly by the lines of the Grand Trunk railway system. Speaking of the "Muskoka Lakes" region, the Cleveland Leader in an article headed "Builders Revel in Wilds of Muskoka," being a report by their special staff representative of an outing which the members of the Builders' Exchange of that city to the number of 200 enjoyed in this lake-and-forest territory, says: "A hundred Chautauquas rolled into one summer resort region would not compare with the "Ontario Highlands." Summer cottages and hotels, pretty camps and hundreds of sailboats and canoes passed in panorama as the steamer 'Medora' steamed past scores of enchanting islands."

A copy of a handsomely illustrated descriptive publication portraying the attractions of this magnificent territory will be sent free to any one applying to W. Robinson, traveling passenger agent, 596 Park building, Pittsburgh, Pa.

Next Seashore Excursion August 3rd, Via Baltimore & Ohio Railroad.

$10 round trip; tickets good 16 days. Stop-over permitted at Philadelphia, Baltimore and Washington on return trip. Trains leave Pittsburgh 9 a. m., 6:09 and 9 p. m.

MURDER ENDS A SPREE.

Farmer Kills His Farmhand After They Spent the Day in Drinking.

CLARION, PA., Aug. 1.—(Special.)—Alexander Sayers of New Bethlehem, this county, shot and instantly killed William H. Miller last evening at Sayers' home.

Sayers is about 50 years old and owns a farm upon which Miller has been working for the last five years. Yesterday Sayers and Miller went to New Bethlehem and after spending the day drinking, left about 4 o'clock for home. An altercation began and it is said Miller whipped Sayers. Sayers went into the house, secured a shotgun and shot Miller in the breast. Sayers went to New Bethlehem and offered to give himself up, but up to this evening was still at large. Miller was about 35 years old and unmarried.

HELD FOR MILITARY DUTY.

Wealthy German Resident of Ohio Is Seized by Authorities While on a Visit to Fatherland.

MARION, O., Aug. 1.—(Special.)—Six weeks ago Christian Miller, prominent and wealthy, went to Germany. A letter has been received here from Baden, Germany, requesting his father's naturalization papers to be sent to him, as the German authorities are holding him for service in the army unless the papers are produced. Miller came to America with his father when a boy.

Local authorities have been unable to find the required papers, and Miller's friends will appeal to Washington to secure his release.

May Share Kimberly's Wealth.

YOUNGSTOWN, O., Aug. 1.—(Special.)—The Salvation Army of this city may share in the Peter L. Kimberly fortune. John Owsley of Sharon, one of the trustees of the estate, is favorably impressed with the work of the organization. The Army will secure a large barracks and Adjt. Webb will organize the charities of the city.

Paralysis from Bathing.

NEW CASTLE, PA., Aug. 1.—(Special.)—After emerging from the water today, having gone swimming when he was overheated, William, the 12-year-old son of Mr. and Mrs. Harry M. Moore of Erie avenue, lost the use of his legs. The family physician is of the opinion that the reaction caused by the cold water caused paralysis, which is believed to be temporary.

Greene County Coal Bought Up.

WAYNESBURG, PA., Aug. 1.—(Special.)—Options on about 1,200 acres of coal in Morris and Washington townships, Greene county, taken by J. Huffman of Waynesburg and Charles McCormick of Uniontown at $100 an acre, were receipted today. It is understood that the coal will be taken by J. V. Thompson of Uniontown.

Servant Asks Large Damages.

YOUNGSTOWN, O., Aug. 1.—(Special.)—Bridget Malloy, a servant, has brought suit against Mrs. Bert Newman for $10,000 damages. On July 25 the girl was discharged from the household and after she had left Mrs. Newman charged her with stealing some diamonds, according to the petition filed in court. The diamonds were afterward found.

The Death Roll.

Robert Scott George.

Robert Scott George, aged 79, died yesterday afternoon at 3:30 o'clock at his home, 49 Harrison avenue, Bellevue. Death resulted from paralysis. Mr. George was confined to the house for two years. He was born on a farm near Midway, Washington county, Pa., in January, 1826, and was of Scotch-Irish descent. He remained on the farm where he was born until 18 years ago, when he changed his residence to Bellevue. He is survived by his wife; also a sister, Mrs. Margaret Roney of West Alexander, Pa., and Samuel George of Beaver Falls, Pa. He was a member of the Reformed Presbyterian church at Millers Run, near Canonsburg, from his youth.

Dr. John M. Gilkey.

Word received yesterday at Butler from Merida, in the interior of Yucatan, announces the death of Dr. John M. Gilkey, formerly of Butler, at that place on July 4. Dr. Gilkey was 75 years of age and was born in Butler and practiced dentistry there until ailing health forced him to seek a more congenial climate. With his son, Dr. John Gilkey, Jr., he located in Yucatan. For several years he returned to Butler each summer, but finally became so frail that this was impossible. He leaves four children: Dr. John Gilkey, of Merida; Mrs. Anna Hazlett of Springdale, Allegheny county, and Miss Mollie and William Gilkey of Butler.

Hon. Will Cumback.

Will Cumback, well known as an author, politician and lecturer, died at Greensburg, Ind., yesterday. He was born in Indiana in 1829, and practiced law the greater part of his life. He was elected to congress in 1854. Mr. Cumback headed the Indiana electoral ticket in 1860, was paymaster in the United States navy during the war, declined the position of minister to Portugal under President Grant, came within two votes of being elected United States senator in 1869, and was later lieutenant governor of Indiana.

Mrs. Ann Eliza Trich.

Mrs. Ann Eliza Trich, aged 83, relict of Alexander Trich, one of the pioneer residents of McKeesport, died yesterday morning at the home of her daughter, Mrs. Elizabeth Small, 809 Jenny Lind street. Mrs. Trich was born in Allegheny and in 1840 went to McKeesport. Mr. Trich died 13 years ago. Mrs. Trich was a lifelong member of the First Baptist church. She is survived by her daughter, Mrs. Small, and three sons, Albert A., and B. F. of McKeesport, and F. M. of Waterloo, Ia.

George Wilson.

George Wilson, aged 72, died yesterday at his home, 5707 Penn avenue, after two weeks' illness from a complication of diseases. He was born in County Monaghan, Ireland, and came to Pittsburgh in 1850. He had lived in the East End for 55 years, being engaged in the retail grocery business. Mr. Wilson never married, but lived with his sister, Mrs. Sarah J. McKee. Besides his sister he leaves two brothers, Thomas and William Wilson, both of this city.

Charles H. Morrison.

Charles H. Morrison died yesterday afternoon at his home, 14 Dewey street, Ingram. He was born in Chicago 29 years ago, and had lived in Ingram for the last 13 years, being employed by Haworth & Dewhurst of this city. He was a member of Dallas lodge, F. and A. M., and of Clifton lodge, I. O. O. F. He is survived by his wife and parents, Mr. and Mrs. C. N. Morrison of Emsworth, and also two sisters, Mayme and Edith Morrison of Emsworth.

Miss Sarah Addenbrook.

Miss Sarah Addenbrook, aged 48, who has been an invalid for a number of years, died Monday in a Pittsburgh hospital from nervous prostration. She was born in England, but had lived in America for 20 years, making her home with her brother, Thomas Addenbrook, superintendent of the masons and bricklayers at the Edgar Thomson steel works. She was a member of the First Congregational church of Braddock.

Obituary Notes.

Mrs. Magdalena Kuhn Litschge, aged 59, died suddenly Monday night. Funeral services will be held from her late residence, 4547 Friendship avenue, tomorrow at 2:30 p. m.

Former Congressman John Dougherty died at his home in Liberty, Mo., yesterday, aged 48, as the result of an attack of acute indigestion and heart trouble. Mr. Dougherty represented the Third Missouri district three times in congress.

Mrs. Joseph Dickson died at her home in North Beaver township, Lawrence county, yesterday, aged 62. She had been a lifelong resident of Lawrence county and a member of the Westfield Presbyterian church for 51 years. For the past 18 months she had been helpless and her death was not unexpected.

Richard Suttiff, aged 76 years, is dead at Fredonia after a brief illness. He was born in New York state and located in Fredonia 55 years ago. For many years he conducted a general store in Sharon. He was a member of the Methodist church and of the Masonic lodge. His wife and one son, R. T. Suttiff, survive.

Jonathan Linhart, a wealthy farmer and capitalist of Ligonier Valley, died last night at his home as the result of injuries received a month ago. Mr. Linhart was proprietor of a lumber camp on Chestnut Ridge, and while superintending the hauling of a large log to the sawmill was caught between the log and a tree and was killed. He was aged 58.

CANNOT DRAW JURIES.

Absence of Sheriff of Fayette County Leaves the Court in Peculiar Predicament.

UNIONTOWN, PA., Aug. 1.—(Special.)—The absence of Sheriff M. A. Kiefer, who has gone to England with County Detective Alex McBeth to bring back Dr. H. F. Brooks, ex-principal of the Uniontown schools, has brought up the question whether any jurors can be legally drawn for the September term of court in Fayette county. The law requires the two jury commissioners, or the sheriff and one jury commissioner, to be present at the drawing of names for jurors.

In the fall of 1903 only one jury commissioner was elected in Fayette county, the Democrats and Prohibitionists tying for the second commissioner. The vacancy has never been filled. Judy Commissioner W. T. Kennedy is the only man here authorized to serve. The last day on which a jury can be drawn is Saturday, August 5. Kiefer and McBeth will sail for home August 16.

WOULDN'T TAKE A DARE, SO THEY MARRIED

NEW CASTLE, Aug. 1.—(Special.)—Miss Nellie Rodgers of this city and M. J. Barnhoit, a contractor of Youngstown, O., returned to the city last evening after a romantic marriage which took place at Lake Side, a summer resort in Ohio, where they attended an outing with a number of friends, who dared them to become partners for life on that occasion.

Celebrate Emancipation Day.

CANNONSBURG, Aug. 1.—(Special.)—The colored people of Canonsburg today celebrated Emancipation day here under the direction of the Ishmael Lodge No. 2143, Grand United Order of Odd Fellows, with the assistance of lodges from many other towns.

Fatally Hurt While Fleeing.

NEW CASTLE, Aug. 1.—(Special.)—While trying to escape arrest, George Eli fell from a moving train and was probably fatally injured here this afternoon. He is 25 years old.

MARRIAGE LICENSES.

The following marriage licenses were issued yesterday:

Soney Sidney, Annie Martin; James W. Thompson, Alice Wonder; Albert Marquardt, Blance Mihm; Arron E. Fowler, Anna C. Bagge; Joseph Fisher, Grizilla Wolf; David O. Jones, Jane H. Quist; Jacob Seigal, Lena Miller; John Francis, Mary Burke; Henry Calloway, Maggie Jones, all of Pittsburgh.

Gordon Arump, Georgette Hollinger; John J. Murray, Jessie M. Brown; W. A. Gordon, Nellie M. Fair, all of Allegheny.

J. A. Hartz, Johanna Leininger, Carnegie. Arthur E. Miller, Sara N. Erfley; Thomas Timmis, Alice Keane, all of Braddock.

Louis Berkey, Georgia Harris, Smithdale.

Gustav Rusch, Wilmerding; Amelia Schuets, Pitcairn; George E. Forney, Braddock; Marie M. Bowen, Wilkinsburg; B. C. Russell, Wyandotte, Mich.; Anna Smith, Natrona; Ralph W. Jones, Allegheny; Mary B. Kearn, Millvale; Frank R. Fee, Connellsville; Ella R. Morton, Allegheny.

Applications for Loans.

The Safe Deposit and Trust Company of Pittsburgh will answer promptly all applications for loans on improved real estate in Allegheny county. No commission to pay, reasonable charge for title examination. Booklet, "Mortgages," sent free.

DIED.

CALHOUN—On Monday, July 31, 1905, at 8:30 p. m., BERNICE EDITH CALHOUN, formerly a milliner, of 1830 Carson street, South Side, Pittsburgh, daughter of Mary B. Calhoun.

Funeral service this morning at 10 o'clock at the residence of Charles N. Bennett, corner Phillips and Hays avenues, Carrick, Pa. Friends of the family are respectfully invited to attend. Interment Thursday at Mansfield, O.

GEORGE—On Tuesday, August 1, 1905, at 3:30 p. m., ROBERT S. GEORGE, in his 50th year.

Funeral services at his late residence, 49 Harrison avenue, Bellevue, Pa., on Thursday evening at 8 o'clock. Interment at Millers Run, Washington county, Friday afternoon at 1 o'clock.

(Canonsburg and Burgettstown papers please copy.)

GILMOR—On Monday morning, July 31, 1905, at 6 o'clock, ROBERT GILMOR, in the 83d year of his age.

Funeral services at 2:30 p. m. Wednesday, at his late residence, 4015 Westminster street, Allegheny.

LINHART—On Tuesday, August 1, 1905, at 7:20 a. m., IOLA MARIAN, wife of William B. Linhart.

Funeral services on Thursday afternoon at 2:30 o'clock at the residence of her brother, John Foos, Natrona, Pa. Friends of the family are respectfully invited to attend.

LITSCHDE—Suddenly, on Monday, July 31, 1905, at 10 p. m., at her residence, 4547 Friendship avenue, MAGNALENA LITSCHDE (nee Kuhn), aged 59 years 16 days.

Funeral Thursday afternoon at 2:30 o'clock. Friends of the family are respectfully invited to attend.

MIDDLETON—On Monday, July 31, 1905, AGNES M'CRICK, wife of David Middleton, aged 80 years.

Funeral services at her late residence, 264 Princeton place, East End, Wednesday afternoon, at 2 o'clock.

MOORE—At Aiken, S. C., on Sabbath morning, July 30, 1905, WALTER F. MOORE, in his 23d year.

Funeral services at Hickory, Pa., Wednesday afternoon at 2 o'clock.

MORRISON—At Ingram, Pa., on Tuesday, August 1, 1905, at 3:50 p. m., CHARLES H. MORRISON, husband of Edith Morrison (nee Johnston), in his 29th year. Notice of funeral later.

SPENCER—On Monday, July 31, 1905, at 4:30 a. m., SAMUEL W. SPENCER, in his 69th year.

Funeral services at his late residence, Shields, Pa., Wednesday, August 2, 1905, at 11:35 a. m. Train leaves Pittsburgh, Fort Wayne & Chicago railway, Allegheny station, at 11 a. m. Return train leaves Shields station at 12:45 p. m., city time. Interment private at a later hour.

WILSON—Suddenly on Sunday, July 30, 1905, at 10:30 p. m., OLIVER B WILSON, husband of Lizzie Wilson (nee Korb), aged 38 years.

Funeral Wednesday, August 2 at 2 p. m. from his late residence, No. 28 Ameda street, Glenwood, Pittsburgh. Services at 2:30 p. m. in St. Paul's Lutheran church, corner of Second avenue and Mansion streets. Friends of the family and members of Joppa lodge No. 606, F. and A. M.; Mechanics lodge No. 9, I. O. O. F., and Pittsburgh Firemen are respectfully invited to attend. Interment in South Side cemetery.

[Martins Ferry and Wheeling (W. Va.) papers please copy.]

WILSON—On Tuesday, August 1, 1905, at 2:45 p. m., GEORGE WILSON, aged 71 years. Funeral services at his late residence, 5707 Penn avenue, East End. Time will be given later.

JAMES M. FULLERTON,
FUNERAL DIRECTOR,
Will remove to 2007 Fifth Avenue, July 20.

FLORAL EMBLEMS.
A. M. MURDOCH,
Court 2222. 250 Fifth Avenue.

trunks to sell

Trunks at prices that will give you more merit for your money than you ever got in goods of that kind.

Trunks with slats, corners, bolts, lock, straps and other details all of a class to clinch their claim for preference, **$5.50**—this price for the 30-inch size—larger ones a little more—32-inch, $6.00—34-inch, $6.50—36-inch, $7.00.

Special Steamer Trunk all sizes 30 to 38-inch—$5.00.—this is a wonder in Trunk manufacture.

Some very superior Trunks, copied after one of the highest class imported Trunks, made the American way, on sale as follows:

32-inch $22.00 Trunk, **$16.50**
34-inch $23.00 Trunk, **$17.00**
36-inch $24.00 Trunk, **$17.50**
38-inch $25.00 Trunk, **$18.00**
40-inch $26.00 Trunk, **$18.50**

These are Trunks that can't be praised too highly—sightly, thoroughly well made, strong, well adapted to your uses, and extremely serviceable.

Steamer Trunks the same make—$11.50, $12.00, $12.50, $13.00.

Sold so because the maker made so many to stock up that he exhausted his capital—then had to let some go under price to get ready money.

There's a couple of $45.00 Trunks here priced **$30.00**, and a man's $65.00 Wardrobe Trunk for **$20.00**

Now's the time for Trunks.

new furs

We are making Fur Coats and other Furs to order at Summer rates.

Doing it as well as it can be done later, and not charging near as much as we'll have to then.

We have the pelts in stock—Sealskins, Persian Lamb, Sable, Mink and other Furs.

Have the Fashion Albums for 1905-6 so you're sure to be right as to styles.

And we have furriers of the highest class.

Alterations also at Summer rates, but make note of this:—

Summer rates will not last much longer—say, till the first of September, probably not that long—and now it's August.

(No. 2.)

AN ORDINANCE—Opening Hoff street, Thirteenth ward, from Mary E. Winkelman's west line to a point one (1) foot east of George Lappe's east line, of various widths, according to accompanying plan, and as herein described.

Section 1. Be it ordained and enacted by the select and common councils of the city of Allegheny, and it is hereby ordained and enacted by the authority of the same, That Hoff street, Thirteenth ward, from Mary E. Winkelman's west line to a point one (1) foot east of George Lappe's east line, be and the same is hereby opened of various widths, according to accompanying plan. The center line thereof being described as follows:

Beginning at a point where the center line of Hoff street intersects the west line of Mary E. Winkelman's property; thence south 45 deg. west, of a width of twenty-five (25) feet, a distance of one hundred and twenty-nine and four one-hundredths (129.04) feet to a point; thence south 45 deg. 56½ min. east of a width of twenty-one and ninety-two one-hundredths (21.92) feet, a distance of thirty-one (31) feet to a point; thence south 45 deg. west, of a width of twenty-four (24) feet, a distance of one hundred and five and forty-one one-hundredths (105.41) feet to a point; thence south 45 deg. 30½ min. east of a width of thirty-three (33) feet, a distance of thirty-one and seventy-five one-hundredths (31.75) feet to a point; thence south 45 deg. west, of a width of twenty-four (24) feet a distance of one hundred and sixty-four and thirty-eight one-hundredths (164.38) feet to a point one (1) foot east of George Lappe's east line.

The damages caused thereby, and the damages caused by the grade thereof, and the benefits to new [illegible] to be assessed and collected in accordance with the acts of assembly in such cases made and provided.

Sec. 2. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law in councils this twenty-second day of July, A. D. 1905.

P. J. TORRANCE,
President of Select Council.

Attest,
LAFAYETTE WILLE, City Clerk.
SAMUEL McELROY,
President of Common Council.
ROBERT DILWORTH, City Clerk.

Mayor's Office, City of Allegheny, Pa., July 25, 1905. The above ordinance examined and approved.

JAMES G. WYMAN,
Mayor.

Department of Public Safety,
City of Allegheny,
July 25, 1905.

SEALED PROPOSALS will be received at the office of the city comptroller until 9:30 a. m. Monday, August 14, 1905, for the erection and construction of an engine house on South 40th avenue, Fourteenth ward, Allegheny, Pa., in accordance with plans and specifications prepared by and on file in the department.

Plans and specifications can be seen and all information obtained at the office of the superintendent of the bureau of building inspection, 19 West Diamond street, Allegheny, Pa., or at the office of the architect, Charles J. Rieger, No. 324 Fourth avenue, Pittsburgh, Pa. A bond with two sureties probated before the city comptroller, or the bond of a surety trust company, which has complied with the ordinance of councils for furnishing bonds for city contracts, bonds to be in the amount of one-half the estimated cost of said work. The mayor and the director of the department of public safety reserve the right to reject any or all bids.

Proposals will be opened publicly in the office of the mayor at 10:30 a. m. Monday, August 14, 1905.

JAMES G. WYMAN,
Mayor.
THOMAS B. SCANDRETT,
Director, Department Public Safety.

ROBBINS TELLS THE SITUATION

President of the Pittsburgh Coal Company Makes a Report to the Stockholders.

WHY DIVIDEND WAS PASSED

The regular monthly meeting of the board of the Pittsburgh Coal Company, held yesterday afternoon, brought forth an interesting report by President Francis L. Robbins, covering the operations of the first half-year.

President Robbins' statement was read to the board and approved, and was then issued to the stockholders. It will be found below in full.

The statement deals not only with the situation that confronted the board when the decision was reached to pass the last quarterly dividend, but also gives statements of the earnings of the company for the half-year, with a comparative statement of earnings and tonnage for 1904 and 1905, covering the half-year. To this is appended a statement of the company's quick assets, as at June 30, 1905, showing net quick assets of $3,259,692 58. These statements include the Pittsburgh Coal Company and all its subsidiary companies, except the Monongahela River Coal and Coke Company.

The statement frankly reflects the situation in the coal trade in regard to the cut in price for the bituminous product. It points out also the self-evident fact that the market is far better in the late summer and fall than in the earlier part of the year by reason of the buying for winter use. Following is the report for the half-year:

Competition Made Low Prices.

To the Stockholders—By order of the board of directors at its regular meeting held this day, I herewith submit the following statement, which shows earnings and tonnage for six months' operations, ending June 30, 1905, and quick assets as of latter date.

The business of your company suffered considerably during the early months of this year on account of unprecedented competition in the bituminous trade in which your officers had to meet very low prices made by competitors locally and in adjoining fields in order to retain the business that may properly be considered as belonging to the mines of the company. These low prices resulted in decreased earnings, so that your directors felt constrained to defer payment of dividend on the preferred stock for the second quarter of the year.

These conditions were carefully considered and it was hoped that recovery was near at hand, and that the earnings for the full half year would meet the dividend requirements for that period. These expectations were not realized, and, while an improvement in the situation is noticeable, the progress toward better prices and more satisfactory earnings has been slower than was anticipated. In the history of the company the earnings for the second half of the year have always considerably exceeded those for the first half, and there is no reason to expect that this year will be an exception.

It is recognized that an increased working capital is desirable, and your directors deemed it, therefore, inadvisable to draw upon the accumulation of previous years for dividends, but rather to devote the surplus earnings of the company in excess of the requirements for bond interest and other fixed charges to the building up of its working capital.

On July 29, out of the sinking fund there was purchased for retirement 271 first mortgage bonds, which, together with 636 bonds so purchased on January 29, make a total of 907 first mortgage bonds now retired.

The U. S. Steel Contract.

On April 29 a contract was made with the United States Steel Corporation and its subsidiary companies covering a period of 25 years, during which time they agree not to open any new mines and to discontinue the shipment from coking plants of coal to be used for steam and gas purposes. This contract is one of great mutual benefit; the steel corporation being assured of a supply of coal of such quality and by such delivery as is required for its varied interests, and, as the cost of mining depends largely upon the volume and regularity of operation of the mines, in securing such a large tonnage, we reduce the cost of our entire output.

By reason of the fact that the Steel Corporation is this year taking a considerable quantity of its requirements of Pittsburgh coal from our competitors under contracts which had been made at the time our contract was closed, we have not as yet entered upon the full benefits to be derived from the large and steady tonnage which this contract assures.

The prices, terms and conditions of this contract are satisfactory to your officers and the making of the contract was authorized by the unanimous vote of your board of directors. In fact, no action of importance has been taken except by the authority and unanimous approval of your board of directors.

Earnings Pittsburgh Coal Company and all subsidiary companies (except the Monongahela River Consolidated Coal & Coke Company), for year ending June 30, 1905:

Profits incident to the mining and marketing operations of the company after deduction of all expenses.....		$1,475,732 62
Less—		
Royalty allowance for depletion	$276,060 26	
Addition to renewal fund	63,338 90	
		339,399 16
Net earnings.....		$1,136,333 46
Less—		
Interest on first mortgage bonds.....	$603,100 00	
Preferred stock dividend No. 21.....	514,914 75	
		$1,124,014 74
Undivided earnings for first half of year 1905.		$12,318 71

Production Greater; Prices Smaller.

Comparative statement of tonnage and net earnings Pittsburgh Coal Company and all subsidiary companies (except the Monongahela River Consolidated Coal & Coke Company):

EARNINGS.

Net earnings half year ending June 30, 1904.....	$1,660,327 12
Net earnings half year ending June 30, 1905.....	1,136,333 46

TONNAGE.

	Production in Tons. First half 1904.	First half 1905.
Pittsburgh district.....	4,915,524	6,075,946
Cooking district.....	537,724	556,479
Coke	86,174	168,236

Statement of quick assets, Pittsburgh Coal Company and all subsidiary companies (except the Monongahela River Consolidated Coal & Coke Company), as at June 30, 1905:

Cash—Current Working balances	$1,277,789 82	
Cash in sinking fund for retirement of first mortgage bonds.....	552,735 59

		$13,866,842 97
Less—		
Bond interest payable July 1.....	$609,100 00	
Accounts and bills payable	9,998,050 28	
		$10,607,150 39
Net quick assets.....		$3,259,692 58

Respectfully submitted.

FRANCIS L. ROBBINS, President.

KILLED IN A MINING CAMP.

Former Secretary to Late Vice-President Hobart and Republican National Committee, Victim.

CUMBERLAND, MD., Aug. 1.—Philip McHenry, a cousin of Attorney James A. McHenry, of this city, and well known here, was killed Saturday last in an accident at a mining camp, near Prescott, Ariz. The remains are being shipped to Washington, D. C., his former home.

He was 36 years of age and unmarried. For several years he was private secretary to the late Vice President Hobart and had been acting secretary of the Republican national committee.

ASBURY PARK BOOKLET.

Descriptive Publication Issued by the Pennsylvania Railroad Company.

The Pennsylvania Railroad Company has issued an attractive booklet descriptive of Asbury Park. The publication is designed to present the attractions and claims of Asbury Park as a summer seaside resort. Persons desiring information concerning this popular resort may obtain a copy of the booklet by enclosing two cents in postage stamps to

T. E. WATT, P. A. W. D., 360 Fifth Avenue, Pittsburgh, Pa.

TWO COMPANIES OF THE FOURTEENTH PAID OFF

Citizen Soldiers Lined up to Get Money for Camp Duty.

The members of Companies E and I of the Fourteenth regiment, N. G. P., have received pay for service at Camp Jones at Erie. The pay to the enlisted men aggregated $12 for each soldier, while the non-commissioned officers received proportionately more. It happened, however, that no one received his full pay. The boys wanted a few extra delicacies over the state rations and voted a portion of their pay for this. Others "went broke" at camp and were forced to borrow. Nevertheless, Capts. C. C. McGovern and H. B. Oursler had stacks of bills and coin piled high upon their desks, and more than an hour was required to straighten out the rolls and pay off the men.

WOMEN HOOT AT CARLTON; MAKE A SCENE IN COURT

Man Pleads Not Guilty of Technical Charge of Circulating Indecent Photographs—Officials Almost Powerless to Repress Disorder in Court.

[By Private Wire to The Gazette.]

NEW YORK, Aug. 1.—Followed by a throng made up principally of women, who hooted and hissed and made wild threats, Frederick E. Carlton was taken through the streets of Brooklyn today from jail to a police court, where he was arraigned on the charge of having violated the law which prohibits the printing, publishing or circulating of indecent pictures or photographs. Carlton pleaded not guilty and was held in $500 bail for examination on August 10.

In the court the scenes which characterized Carlton's passage through the streets were repeated, though in a less disorderly way. The room was filled with women, who craned their heads in order to get a good look at the prisoner, and when their view was obstructed they pushed and jostled until the court officers roughly forced them back into their seats.

The clerk of the court rapped for order, but his commands went unheeded. Then the court officers were told to maintain order and to eject anyone, woman or man, who did not observe the dignity of the court. After this some semblance of order was maintained.

ALL BUSY IN KILLING FENDER AGITATION

Mayor Hays, Director Moore and the Council Committee Are Doing Nothing.

The city administration, from the mayor down, is still busily engaged in doing nothing to have the street cars equipped with life-saving fenders. While street car companies in other cities find fenders effective in saving life, Mayor Hays says a suitable fender cannot be found that he is tired of testing fenders and has turned the whole matter over to Director Moore.

Director Moore says there is to be another fender test soon, but he does not say when. He says he still has "hopes" of finding a fender that can be used in Pittsburgh. Mr. Moore says he has discovered that Pittsburgh is so awfully peculiar in its topography that a fender must be invented for Pittsburgh which can only be used in this city. The director defies the Pittsburgh board of trade and declares he is ready at any time to meet a suit in court.

"Let them sue me," he said. "I am ready to go into court on the least notice. A telephone call will be sufficient for me."

The do-nothing policy is also prevalent in the city councils, where a special committee was appointed several weeks ago, at the request of Dirctor Moore, to take up the fender question. This committee has not even organized and no person seems to know if it will ever meet. Andrew Pfannkuch, who was first named on the committee and who by custom would be the chairman, says he is going away on a vacation next week. P. J. Barry, whom Director Moore says is chairman, said yesterday he did not know "just when" the committee would meet.

"I have no idea when the committee will meet," said A. G. Roenigk, another member.

British Warships Coming Over.

GIBRALTAR, Aug. 1.—The British second cruiser squadron, commanded by Rear Admiral Prince Louis of Battenburg, sailed today to spend three months in American waters.

Work Wanted?

Read the want page today and you'll get it.

THE THREE RIVERS

[Special Telegram to The Gazette.]

CINCINNATI, O., Aug. 1.—At 8 p. m. today the Ohio river at Cincinnati was 9.6 feet and falling. Today's departures of packets from Cincinnati were: Virginia, Pittsburgh; Tacoma, Pomeroy; Courier, Maysville, and Indiana, Louisville. The rise which came out of the Allegheny river late Saturday and Sunday morning is due here late Thursday night. On this wave will come the fleet of towboats which will bring out about 8,000,000 bushels of coal. The bulk of this coal will be stored in the Cincinnati harbor. The water from Pittsburgh will prove a boon to operators of boats which ply on the upper river, as it will allow of the boats running longer than usual. Aside from the scheduled packets nothing was moving in the local harbor except the boats taking care of the landings and coal fleets. All packets were in and out on time with good trips. Clear and pleasant.

MORGANTOWN—River 6 inches and falling. Fair.

WARREN—River 1 foot 7 inches. Clear and warm.

OIL CITY—River 2 feet 10 inches and falling. Clear and cool.

POINT PLEASANT—River 4 feet 10 inches and falling. Down, Virginia, Tacoma. Up, Greenland, Darling.

LOUISVILLE—River falling; in canal, 4.8; on falls, 2.6; below locks, 10.2. Clear.

GREENSBURG—River 8 feet 6 inches and falling. Fair and pleasant. Columbia down Wednesday. Woodward up.

GALLIPOLIS—River 7 feet and rising. Cloudy and warm.

MARIETTA—River 10 feet and rising. Warm. Ben Hur up 5 p. m. Keystone State down 4 p. m.

PARKERSBURG—River 10 feet and falling. Clear and warm. Ben Hur left at 4 p. m. for Pittsburgh; Valley Belle at 7 p. m. for Middleport; Keystone State at 8 p. m. for Cincinnati.

WHEELING, W. VA.—River 13 feet and falling. Clear and warm. Departed, Keystone State, Cincinnati, 6 a. m.; Queen City, Pittsburgh, 9 a. m.; Bedford, Parkersburg, 11 a. m.; A. M. Jewel, Newport, 11 a. m. Down with coal, Tom Dodsworth, Exporter, Tornado, Cadiz, Sam Brown, Ed Roberts, Frank Gilmore, Coal City, W. W. O'Neil, Carbon, Gleaner, Charles Brown, I. N. Berton, Volunteer, Rival, G. W. Thomas, Bertha, Robert Jenkins, Samuel Clark, Charles Clark, Voyager, Iron Age and Dave Wood. Up with empties, Volunteer.

STEUBENVILLE—River 12 feet 9 inches and falling. Cloudy and warm. Down, Ed Roberts, Frank Gilmore, Coal City, W. W. O'Neil, Carbon, Charles Brown, Voyager, G. W. Thomas, Bertha, Sam Clarke, Robert Jenkins, Boaz, Charles Clark, Dave Wood, Iron Age, Up, Cadet, Andrew Axton, Queen City, Tornado, Egan.

TWO MORE TOWS GO SOUTH.

Monongahela Company Gets Out Coal on Falling Water.

At 9 o'clock last night the marks on the gauge at the Davis island dam indicated a stage of 8.3 feet and the river was falling.

All hope of a rise that would last several days was dispelled yesterday when the rivers began falling rapidly. The Monongahela River Coal Company got out the Josh Cook with 18 barges and the Harry Brown with 27 and a model, which was the last coal out on the July rise. The John A. Wood is expected in this morning with a tow of empties. Unless more rain falls the coal shipment for this rise is now ended.

The shipments totaled in the neighborhood of 7,000,000 bushels. As a flood at this season of the year is something unlooked for, the rivermen look upon this shipment as a case of picking up the money, and they are extremely well pleased, despite the fact that it was so soon dissipated. No accidents of serious import have been reported to the big fleet which got away Sunday night and Monday.

The Columbia was the only packet in yesterday, coming from Morgantown. The Queen City was expected last evening and will leave this afternoon at 4 for Cincinnati.

The little rise has made the river of admirable depth for the packet boats, and the river business, which has been languishing a little, has picked up wonderfully. Inquiries concerning river trips up the Monongahela, down the Ohio, along the Muskingum and up the Kanawha are coming in daily. It is evident Pittsburghers are beginning to appreciate the beauties of a river trip for a vacation ramble.

OIL STRIKE IN BUTLER.

Rader Farm Proves Good for a Five Hundred Barrel Gusher in 100-Foot Sand.

BUTLER, PA., Aug. 1.—A 500-barrel oil well was struck by the Rader Oil Company on the Rader farm in Connoquenessing borough this morning. The well was drilled by Ray Brothers & Klingensmith, and is in the heart of the old 100-foot development.

A short distance from the Rader well S. E. Turner, a few days ago completed a 20-barrel pumper in the lot back of his house. The strikes mean the redrilling of several square miles of 100 foot territory.

TEN YEARS

THE STORY OF

My Wonderful Success

Reads Like a Fairy Tale, Yet Full of Convincing Truths

AN OPPORTUNITY OF A LIFETIME FOR THE INVESTOR

TAKE ADVANTAGE OF IT

I ask every reader of this paper to write me. I want to send you my free book entitled "Ten Years — The Story of My Wonderful Success." It tells about one of the greatest and most promising investment opportunities ever offered. It tells how my business grew from less than $25.00 capital to its present proportions.

I believe I have the best proposition from an investor's standpoint that could be placed before you. For ten years I have been teaching men and women to live according to the laws of Nature. My book is the history of my life. It shows what energy and ambition can accomplish in the world of affairs. It is intensely interesting to any man or woman who has a few dollars to invest in a legitimate enterprise.

I started business in the City of Brooklyn in 1896. My capital amounted to less than $25.00. My first year's business netted me over $1,000.000. Last year I paid dividends to my partners of 15 per cent. Five years ago my business had grown so large that I was compelled to remove to larger quarters. I am now at 63-65 Clark St., Brooklyn, N. Y., in connection with Hotel St. George. Experts pronounce my Institution to be the best appointed of its kind in the country. I estimate the equipment of The Mac Levy Institute of Physical Culture to be worth at least $40.000.00.

I want to have a building of my own that will enable me to accommodate my increasing business. To erect this building I need capital, but more important than this—to increase my business to the proportions which I desire, I need the co-operation of men and women throughout the country and the world.

CO-OPERATION IS THE SECRET OF SUCCESS

I recognize it. I believe that with thousands of co-operators throughout the country I can build my business to tremendous proportions to the benefit of the shareholders and myself.

The Mac Levy Company is incorporated under the laws of New York for $150,000.00. They are proprietors of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

The last named branch of the business of the Mac Levy Company is comparatively new. I have been at work for several years to establish such a department in connection with teaching Physical Culture. The most difficult part of forming the Equipment Company has been accomplished. The business is now in condition to be pushed on a large scale. Hundreds of thousands of dollars are spent yearly on new gymnasiums and their equipment. The profits are large. A Company of this kind has an immense field in which to work. Competition is slight. It is evident that The Mac Levy Gymnasium Equipment Company can build up an enormous business.

The Mac Levy Company operates during the Summer months at Steeplechase Park, Coney Island, and at Arverne Hotel, Arverne-by-the-Sea, L. I., as well as at our Brooklyn Institute. It also does an extensive mail business. I teach people how they should live and exercise. My students are scattered all over the United States, and in English-speaking countries.

A PROBLEM

which arises in the minds of every man and woman is how to secure a comfortable income in the earlier years of their life that they may reap the full benefits which such an income affords.

I have long thought that there are hundreds of people in moderate circumstances who would like to invest a few dollars in an institution of this kind. If it is to such people that I intend this announcement shall appeal. I am offering a block of the Treasury Stock of this Company to the public at its par value. My reasons for doing this are that I wish to erect a building and to extend the business of The Mac Levy Institute of Physical Culture and The Mac Levy Gymnasium Equipment Company.

I WANT YOU AS MY PARTNER

I need your help and suggestions. I want you to work with me and help to secure a tremendous amount of new business.

I believe that if you could talk with me personally and go over the records of the business which I have done, see in black and white the figures which show the steady growth my business has experienced during the past ten years, examine my plans for future extension, and then look over the magnificent equipment of my Institute, you would want no further evidence that money put into this business would bring you the greatest possible returns consistent with safety and good management.

I ask you to write for my free book. I believe it will interest you. You have a few dollars that you want to invest. Why let it stand idle earning only 3 or 4 per cent that Savings Banks pay their depositors? Put it to work. Join it with mine. This Company ought to pay at least

TWENTY PER CENT DIVIDENDS within one year. Write for my book today. NOW.

MAC LEVY, President of the Mac Levy Co., Inc., Dept. G 65, 63-65 Clark St., Brooklyn, N. Y.

Old Quaker Rye

is delightfully stimulating—no after effect.

Fermented in cleanliness and perfect temperature—redistilled in copper—ripened for years in charred oak.

You won't be disappointed if you insist on having it.

Another "Word Hunt" Next Sunday.

$50.00 IN PRIZES

For Four Words Selected From

NEXT SUNDAY'S GAZETTE

Rules and Conditions of the "Word Hunt."

The hunt consists of selecting four words from the advertisements appearing in next Sunday's issue of The Pittsburgh Gazette.

In selecting such words you are privileged to use each letter of the alphabet four times, but no more.

Each letter of the alphabet has a value in points, according to its location in the alphabet. For example, A is one point; B, two points, C, three points, etc. This would make the letter Z count twenty-six points.

The persons selecting the four words aggregating the greatest number of points (on the basis described above) will receive the prizes. We give below examples to demonstrate the difference in value of words. Take the word "Furniture."

6—21—18—14—9—20—21—18—5
F—U—R—N—I—T—U—R—E

It contains nine letters and represents 133 points, whereas, you take the word "Handkerchief."

8—1—14—4—11—5—18—3—5—5—6
H—A—N—D—K—E—R—C—H—I—E—F

It contains twelve letters, which only represent 92 points.

Answers must give the words selected, explain from what ad. they were taken and where the ad. is located in the paper. This is necessary to properly check the answers.

LIST OF CASH PRIZES

First Prize	$15.00
Second "	10.00
Two Prizes $5.00 each	10.00
Four Prizes $2.50 each	10.00
Five Prizes $1.00 each	5.00
13 Prizes	$50.00

After each word must be given the number of points it represents; at the bottom of the sheet the total of the points represented in the four words. Sign your name and address plainly.

Should two or more contestants be tied for certain prizes, such prizes will be distributed pro rata among such contestants.

Every person is eligible to enter the Hunt except employes of The Pittsburgh Gazette and members of their families.

All answers must be sent in on the blank form provided in The Sunday Gazette.

No contestant will be awarded more than one prize.

All answers must be in The Gazette office by 5:00 p. m. of the following Thursday.

Answers must be addressed to Manager "Word Hunt," The Gazette, Pittsburgh, Pa., and either sent by mail or delivered in person at our Business Office.

Any answer which does not comply strictly to the foregoing rules will not be considered.

Any points not covered in the above rules will be decided in an equitable manner by the Sunday Editor of The Gazette and the Manager of this contest.

(Copyrighted, 1905, by I. F. Bailey, Pittsburgh, Pa.)

NOTICE—The Manager of the Hunt reserves the right to make any changes in the rules that he may deem necessary for properly conducting the contest. Be sure to read the rules next Sunday.

No Person Knows the Answer. It's Up to You.

Enter the Contest---You Have All to Gain and Nothing to Lose.

GIANTS ARE ANXIOUS TO WIPE OUT PIRATE DEFEATS

RAIN PREVENTS FINAL CONTEST

Afternoon Downpour Caused Game With Brooklyn to Be Called Off.

THE GIANTS COME TODAY

A downfall of rain early yesterday afternoon caused the postponement of the Pittsburgh-Brooklyn game. There was not enough rain to spoil the field, but the drizzle began shortly after 2 o'clock and continued for more than an hour.

Manager Clarke was not in favor of taking any chances of having players disabled and for that reason advocated the postponement. He hopes to have all the regulars in line for the important series with the champions, which begins this afternoon. The Brooklyn club returns on August 16, and stops for one day on its way home from the west and a doubleheader will be played then. Treasurer Henry Medicus, who is traveling with the team, threatened before he left for Cincinnati last night, to induce Manager Hanlon to send Dr. Scanlon in against the Pirates in one of the games on August 16.

The New York team is due this morning early from Cincinnati, and according to Manager McGraw, will spend the remaining four days of the week in getting revenge for the trick the Pirates played upon his Giants at the Polo grounds. Reports from the baseball writers who are with the champions indicate that they are going at a lively clip.

Manager Clarke would not say last night which of his pitchers will face the Giants today. He says he will not make the decision until practice time. A number of Princeton men called at headquarters and asked to be informed when Homer Hillebrand will pitch against the Giants. President Dreyfuss could not give them much satisfaction as Manager Clarke selects the twirlers, but the collegian will pitch one of the four games.

Gibson, the new catcher, will also be seen in one of the games. The heavy demand for box seats for the four games is one of the indications of the interest taken in the series between the leaders of the race. The weather man promised last night to send good weather and arrangements have been made to handle four large crowds.

Philadelphia 7—Chicago 6.

CHICAGO, Aug. 1.—The locals had a lead of 5 to 0 for six innings, when the visitors commenced pounding Weimer, four hits, with a base on balls and a long fly, giving them three runs. They tied the score in the ninth on two singles and a pair of triples, and won in the eleventh, Kruger leading off with a three-bagger and scoring on Doolin's long fly. Attendance 3,500. Score:

LUCKHARDT TO INSTRUCT COUNTY LEAGUE MANAGERS

President J. Will Luckhardt of the County league at a meeting of the league tonight at his place, Diamond alley, will give instructions to the managers of the teams. Affairs in the league are moving along smoothly, but Luckhardt desires to discuss matters in general with the heads of the clubs. The meeting is called for 8 o'clock. The managers are to take their score books and all contracts to the meeting. Luckhardt announced last night that McCoil will umpire the Fairbank game at New Kensington this evening, and that Tommy Carter will work the Bedford-Carnegie game, also this evening.

INDEPENDENT BASEBALL NEWS.

John Getz, shortstop on the Madisons of Allegheny, yesterday joined the Lonaconing (Md.) team. Roy Miller, who is pitching for Waynesburg, is a Madison product.

Niles has turned down Fitchner Rigby.

The Waynesburg team yesterday finished its trip, winning nine out of 12 games. Eight of the victories were shut-outs. This speaks well of the leadership of Milt Montgomery.

ALTOONA FALLS DOWN AND COATESVILLE WINS

ALTOONA, Aug. 1.—McNeely, who succeeded Miran in the ninth, proved an easy proposition for Coatesville in the twelfth inning of a warm contest, and five hits, for five runs, were secured, putting Altoona completely out of the running. The game was featured with terrific hitting. Rothermel and McDonald saved the game in the tenth for Altoona by completing a fast double play at the plate after a long run to the bleachers for a foul. The score:

Altoona.	R.	H.	P.	A.	E.	Coatesville.	R.	H.	P.	A.	E.

Johnstown	2	0	0	0	0	1	0	3	*—6
Wilmington	0	0	2	0	0	0	0	2	0	0	—4

Two-base hits—Melchoir, McConnell, Maher. Three-base hits—Melchoir, Bussey. Double plays—McConnell, Hagen and Badel; Maher, Hinton and Bussey. Bases on balls—Off Lucas 2, off McConnell 1. Struck out—By McConnell 5, by Lucas 3. Time of game—1:25. Umpire—Smith.

HARRISBURG, Aug. 1.—Harrisburg won a nip and tuck struggle from Lancaster this afternoon by timely hitting. In the last inning with two out Mauch of Lancaster tried to score on a wild pitch, but was called out at the plate by Umpire Black. When the decision closed the game the Lancaster players rushed at Black and he defended himself by rapping Sylvester and Rothfus until the Harrisburg players and police came to his assistance. Score:

Harrisburg	3	0	1	0	2	0	0	0	*—6	9	2
Lancaster	0	0	0	0	1	0	0	0	0—1	5	0

Batteries—Hartholt and Barber; Campbell, Brackenridge and Sweeney. Umpire—Black.

WILLIAMSPORT, Aug. 1.—York bunched half its hits in the first inning today, but after that could do nothing with Ritchie. Owens struck out three times and Hayden twice. Lloyd played a sensational game at second and prevented the score from being larger. The score:

Williamsport	0	1	0	0	0	1	1	0	*—3	5	1
York	2	0	0	0	0	0	0	0	0—2	6	6

Batteries—Ritchie and Donovan; McGlynn and Smith. Umpire—Gray.

TRACK RECORD BROKEN.

Six Shooter Shows Great Speed in Second Event at Latonia.

CINCINNATI, Aug. 1.—Three favorites won at Latonia today. In the second event, Six Shooter, the favorite, broke the track record for one mile and 70 yards, going the distance in 1:43 2-5. The former record was 1:44 flat. Summaries:

First race, 6 furlongs—Darthula, 96, Redtke, 13 to 5, won; Mabel Winn, 90, Morris, 3 to 1, second; Arachne, 95, Booker, 15 to 1, third. Time, 1:13 4-5. Trompeuse, Enola, Phiora, Midnight Chimes, Rain or Shine, Full Sway, Frank Mc, Ravensbury, Hopeful Miss and Henry Lyons ran.

Second race, mile and 70 yards—Six Shooter, 107, Morrison, 4 to 5, won; Red Leaf, 98, Robinson, 18 to 5, second; Hortensia, 91, Morris, 6 to 1, third. Time, 1:43 2-5. Hot and Dr. Wang ran.

Third race, 5 furlongs—Mamie O., 102, Hall, 13 to 1, won; Ann Hill, 102, McLaughlin, 8 to 5, second; Orline, 102, Treubel, 22 to 5, third. Time, 1:02 4-5. Begonia, Progression, Daffodil, Santa Lucia, Miss Lynch, Roxena and Lila M. ran.

Fourth race, 6 furlongs—Fleuron, 108, Hall, 8 to 1, won; The Roustabout, 91, Radtke, 2 to 1, second; Ethel Barry, 90, Robinson, 20 to 1, third. Time, 1:14 4-5. My Eleanor, Miss Manners, Covina, J. W. O'Neill, Green Gown, Bellicone, Maj. Carpenter, Bernice and Eria Lee ran.

Fifth race, 5½ furlongs—Theo. Case, 96, Redtke, 5 to 1, won; Inspector Girl, 95, Cheatham, 7 to 1, second; Vic Kinney, 100, Foy, 7 to 5, third. Time, 1:07 2-5. Queen Caroline, Hostility, Hot Pollo, Agnolo, Grace Wagner ran.

Sixth race, 6 furlongs—Moonet, 107, Hall, 2 to 5, won; Barbara Whiting, 107, McLaughlin, 16 to 1, second; Kate Zitt, 107, Walsh, 13 to 2, third. Time, 1:15. Florence May, Turn Quick, Foxy Grandma, Lady Lasca, Lony also ran.

WEST NEWTON BLANKED BY WAYNESBURG OUTFIT

WEST NEWTON, Aug. 1.—(Special.)—Waynesburg defeated the local team today in the closest game of the season, no runs being scored on either side till the ninth inning, when Yeedt made a two-base hit and scored on a hit by Gainer over short. Wallace pitched a fine game and was given fine support. Score:

	R.	H.	E.
Waynesburg	0	0	0	0	0	0	0	0	1—1	4	1
West Newton	0	0	0	0	0	0	0	0	0—0	3	0

Umpire Calls Off Game.

BROWNSVILLE, PA., Aug. 1.—(Special.)—Brownsville and Bellevernon battled and fought for three hours, and all but part of the last half of the ninth inning, when Umpire Neves called a tie score and no game. Jack Menefee was in right field for the visitors. Each side questioned decisions. The squabble that cut off the game was over a ground rule and an alleged error by Jenkins, two scores being claimed by Brownsville. Two were out. Score:

Brownsville	0	0	0	1	0	3	0	0	2—6		
Bellevernon	0	0	0	0	0	0	3	0	0—6		

Canonsburg Giants Walloped.

CANONSBURG, PA., Aug. 1.—(Special.)—The Canonsburg Giants were defeated by the Pittsburgh & Buffalo Company here today, 10 to 5. Page was tapped for 12 hits—Score:

	R.	H.	E.
P. & B. Co.	0	2	0	0	0	4	0	0	4	10	12	3
Canonsburg	1	1	0	0	0	0	3	0	0	5	8	6

Batteries—Marble, Munson and Jones; Page and R. Walls.

Monongahela Wins Its First Game.

DONORA, PA., Aug. 1.—(Special.)—Monongahela won the first game since it has been in the league today, by defeating Donora 3 to 2. A base on balls, two two-baggers and an error game Monon three runs in the eighth. Granger pitched splendid ball. Score:

Monongahela	0	0	0	0	0	0	0	3	0—3		
Donora	0	0	1	0	0	0	0	1	0—2

QUAKERS WIN IN THE TENTH

Harry Davis' Home Run Brings Victory to Athletics After a Warm Contest.

PENNANT RACE VERY CLOSE

[By Associated Press to The Gazette.]

PHILADELPHIA, Aug. 1.—Philadelphia won a hotly contested game from Chicago today in the tenth inning on a home run hit by Harry Davis. Chicago scored its runs in the third inning by bunching hits with Hartsel's error and the home team tied the score in the seventh on good hitting. First Baseman Donohue disputed with Umpire Connor so strenuously that the umpire had a policeman escort the player off the field from second base. Attendance 5,49. Score:

Washington 4—Detroit 0.

WASHINGTON, Aug. 1.—Detroit today dropped the third straight game to Washington by their inability to hit Hughes with men on bases. Barrett was put out of the game in the third inning for disputing a decision of the umpire. In the eighth inning Detroit complained of the condition of the ball, and upon the umpire's refusal to take it out of play Donovan declined to pitch and was relieved by Justis. Attendance 3,425. Sebring Will Play at Home.

CINCINNATI, Aug. 1.—James Sebring, right fielder of the Cincinnati National league team, has notified the management that he will not return to the Cincinnati club to play. His wife is ill at Williamsport, Pa., and he proposes to stay there during the rest of the season. He has asked permission to play with outlaw teams for the remainder of the season. The request will probably be granted if it does not involve the Cincinnati management in any way.

PROF. CLIFFORD B. CONNELLEY.

FINE PLACE FOR PROF. CONNELLEY

Allegheny Educator Made Head of School for Apprentices and Journeymen of "Tech."

ONE OF EXPERT COMMITTEE

At a meeting of the Carnegie Technical schools committee yesterday afternoon the nomination of Prof. Clifford B. Connelley as head of the School for Apprentices and Journeymen, in the "Tech" system, was ratified. The appointment will date from September 1.

Prof. Connelley is one of the best-known educators of this section; his wide reputation having been gained largely through his success as the head of the manual training schools of Allegheny. He has been identified with the Carnegie Technical schools practically from the start. With Arthur A. Hamerschlag, now the director, and Prof. Williston of the Pratt institute at Brooklyn, he served on the committee which outlined the plan and scope of the schools and formed the basis on which the later work has been done.

Since the election of Mr. Hamerschlag as director Prof. Connelley has been his principal assistant and adviser. He supervised the lecture courses given last winter, and while attending to his important Allegheny work, has been of much assistance to the director in the organization of the new schools. He has a great many friends in Pittsburgh and Allegheny, who will be pleased to hear of his appointment to the head of one of the most important departments of the institute.

Mr. Connelley was educated in the Allegheny public schools, Franklin institute and Columbia university. For five years he devoted himself to practical shop work with the Robinson-Rea Manufacturing Company and the William Sellers Company of Philadelphia. In 1891 he was selected to organize a department in mechanical art in the Western university and was placed as superintendent of the industrial department. In 1896 he left the university to organize and direct the Fifth ward manual training school in Allegheny, and was later made supervisor of all of the industrial schools of that city.

Mr. Connelley has organized all of the manual training schools in Allegheny, most of those in Pittsburgh and many throughout the state, including West Virginia and Ohio. He was one of the organizers of the Eastern Manual Training association; secretary for a number of years and its past president. He is a member of the American Society of Mechanical Engineers and many of the leading educational associations.

Mr. Connelley will devote his whole time and attention after September 1 to the interests of the School of Apprentices and Journeymen, and owing to his long practical experience, his education, his contact with the local school systems and his knowledge of the industrial needs of the community, he is expected to make his department of the Carnegie Technical schools operate in harmony with the labor and industrial interests.

The announcement for the opening date for this department has not thus far been decided, but before October 1 information will be issued to the public concerning classes to be put in operation this winter.

PREACHER HOLDS THE FORT.

Attempt to Eject the Rev. I. S. Lee Meets With Failure.

Like Banquo's ghost, the troubles in the Bethel African Methodist Episcopal church will not down. The Rev. I. S. Lee has won practically every point against his enemies in the battle before the council of bishops during the past six months or more the trouble has been on, but his enemies still keep fighting. An effort to eject him from the house he occupies in Overhill street last week proved a failure. The house belongs to the Avery estate and is a part of the property bequeathed to Bethel church.

Yesterday several constables appeared at the Lee residence and proceeded to carry out the furniture, which is also claimed by the Bethel authorities. The Rev. Mr. Lee soon arrived with a lawyer, and an argument followed which ended by a crowd of his sympathizers taking the furniture off the wagon into which it had been packed and carrying it back into the house. Mr. Lee made information against Constable Daniel Taylor of Alderman McMaster's office, for forcible entry and included five members of the Bethel congregation who assisted him. A crowd remained about the Lee residence during the day anticipating further trouble, but none took place. The men sued by Mr. Lee furnished bail for a hearing Thursday morning before Alderman Reilly.

Poles Attack Their Foreman.

Walrus and Andy Bluboski, who were engaged as rollers in the Carnegie mill at Thirty-third street, were each held for court in $500 bail yesterday by Magistrate Kirby. They were discharged for being late on Monday night and attacked Matthew Smith, the boss roller, with a sledge hammer. Smith had two ribs and his nose broken.

Pennsylvania Railroad Announces Their Fourth Excursion to the Seashore on August 10th.

$10.00 good in coaches, or $12.00 in Pullman cars when accompanied by usual Pullman tickets. Special train leaves Union station at 8.55 a. m. with coaches and parlor cars through to Atlantic City without change.

PRISONER IS SULLEN; DELAYS INVESTIGATION

Anthony Geracitane, Who Attacked a Fellow Convict at Riverside, Refuses to Talk.

Warden William McC. Johnston of the Western penitentiary has not yet made any investigation of the cutting affray in the big prison last Sunday morning. Anthony Geracitane, who was slashed across the throat by Paul Pecla, refuses to speak and remains in his cell, dumb and sullen. It was he who first tried to assault Pecla when the two were on their way to breakfast. A big knife was taken from him after he had failed to stick it into his enemy.

The bread and water diet and solitary confinement that the Pecla brothers and Geracitane have been enduring since Sunday morning has so far failed to bring the latter to the humble state into which prisoners are supposed to relapse before having a talk with the warden. The intention was to get at the bottom of the affair and discover if possible if others were in the conspiracy that led to the cutting, but the refractory spirit displayed by Anthony upset these arrangements.

Warden Johnston would not say yesterday when the investigation would be continued, nor would he disclose what other methods he intended to use to bring Geracitane to the proper way of looking at things. There are more ways than one of doing this, but the warden denies that the "third degree" is ever resorted to in Riverside. This torture is as old as penal institutions, and consists of a course of lying flat on the back on a board with a large rope knotted directly under the small of the back. The necessary straps are used to prevent any squirming, and this plan of breaking a prisoner's spirit is invariably successful. Warden Johnston says this is never done at the Western penitentiary, and asserts that he has always found that solitary confinement and a meager diet is effective.

As is usual, when there is a rumpus in the prison, earnest efforts are being made to belittle the affair. The warden says Pecla has only a slight scratch on the face and one or two more on his body where Geracitane gently pulled his keen blade across the body of his adversary. The investigation, he says, will probably be held in a few days, and until then he does not know what disposition will be made of those who committed violent assaults upon the prison discipline.

SALESMAN KILLS HIMSELF.

Alfred M. Stewart Leaves Message Written on Handkerchief.

Alfred M. Stewart, general agent for the National Cereal Company, who had offices in the Fitzsimmons building, committed suicide on Monday night by shooting himself on the Matthew Johnson farm, several miles outside of Washington, Pa. Stewart was 40 years of age and lived in Canonsburg, being a son of Mrs. Susan Stewart of that place.

For 15 years he was head of the millinery department of Boggs & Buhl's department store in Allegheny. Later he was chief millinery buyer for Meyer Jonasson & Co. For some time he had acted in a strange fashion, which led his friends to believe that he was mentally deranged. Before the shooting he sat down on the roadside and wrote a message on his handkerchief, leaving his property to his brothers and sisters.

MAN SWIMS A MILE, AND STILL LOSES HIS HAT

Edward Devine swam a mile in the Monongahela river yesterday morning in his efforts to catch his straw hat which was blown into the river while he was crossing the Smithfield street bridge. He was not successful because the current swept his headpiece rapidly down the river, and while 1,000 people watched him from the bridge and two policemen stood guard on the shore, he was forced to plunge back to the bank. He was arrested, it being alleged that he divested himself of his clothes in full view of pedestrians on the bridge.

SOCIETY

MANY members of Pittsburgh's smart set have concluded that their home city is a very pleasant summer resort and are contenting themselves with short eastern trips to break the monotony of an exceedingly dull summer. Many of these who are stay-at-homes during the hot months are planning little trips for the late summer and early fall. Among them are Dr. and Mrs. Edward Hanna Snall of Penn and North Negley avenues. During the latter part of this month they expect to leave town for a short time and in October Mrs. Snail will be a house guest of her brother and sister-in-law, Mr. and Mrs. James Robert Tindle, at their new home in Valley Forge. The house, which is the old headquarters of Gen. Washington, is being remodeled and modernized for Mr. and Mrs. Tindle, who are now with the latter's parents, Senator and Mrs. Philander Chase Knox, at Valley Forge farm. Among other East End residents who find their Pittsburgh home too attractive to leave for any length of time are Mr. and Mrs. Richard Beatty Mellon of Fifth avenue. Mr. and Mrs. Mellon have just returned from a short visit with the Andrew W. Mellons, who have been established since early summer at Prides Crossing. Miss Nell Stewart and Miss Marjorie Adams, who have taken Mrs. Robert W. Patterson's home in Howe street for the season, expect to go down to Chelsea for a few weeks and will leave during this month.

Three Guests Share Honors.

Miss Carol H. Cochran and her two house guests, Miss Dorothy Horner of Williamsport and Miss Dorothy Ford of Baltimore, shared the honors at Mrs. Edward O'Neil's bridge party, which she gave at her home in Sewickley yesterday afternoon. There were nine tables called into play, the prizes going to Mrs. W. Dwight Sloane, Mrs. Severn P. Ker and Mrs. George P. Rose. The house was charmingly decorated with great clusters of goldenrod and golden glow, scarlet geraniums and equally brilliant nasturtiums. Mrs. O'Neil was assisted by a number of relatives including her daughter, Miss Florence O'Neil; her nieces, Mrs. Edwin Lyon, Miss Virginia O'Neil and Mrs. Harry E. Jewkes; and her sisters, Mrs. Elizabeth McKown and Miss Courtney. Miss Ford expects to remain with Miss Cochran for another week. Miss Horner left last evening for her home. Among the other out-of-town guests at the bridge party were Miss Eleanor Chew's two visiting friends, Miss Carpenter of Philadelphia and Miss Bainbridge of Virginia.

Have Pink and White Decorations.

Asters in pink and white carried out a very effective although somewhat simple decorative scheme last evening at the dinner given by Miss Grace Runnette. The affair, which was very small and informal, was conducted at the home of the hostess in Atlantic avenue in celebration of the birthday anniversary of her father, John Runnette.

Will Have Quiet Wedding.

The engagement of Miss Nancy Evadnah Dodds, daughter of Dr. and Mrs. Joseph S. Dodds, and John D. Eardley, which was announced early in the summer, will terminate in a quiet wedding on Thursday evening, August 10. The ceremony will be performed at the home of the bride's parents in Collins avenue, East End, the Rev. E. A. Littell, a retired United Presbyterian clergyman, officiating. Eight o'clock is the hour set for the ceremony. There will be no bridal attendants and only the relatives of the young people will be present as guests. At the conclusion of their wedding trip Mr. Eardley and his bride will be at home in Enfield street, Shadyside. No special at-home days have been announced.

Has Golden Wedding.

YOUNGSTOWN, O., Aug. 1.—(Special.)—Mr. and Mrs. Thomas Moss of 220 Summit street today celebrated their fiftieth wedding anniversary. They were married in South Wales August 1, 1855. They came to this country 48 years ago, first settling at Pottsville, Pa., and later in Johnstown. Fifteen children were born to them, of whom nine are living—William H., who is in the Klondike, Alaska; Benjamin, of Utah; Joseph, of Girard; Thomas, of Pittsburgh; Mrs. Jane Morgan, Pittsburgh; Mrs. Lizzie Maxwell and Mrs. Rachel Walker of this city; Mrs. Adelhie Walker of New York, and Mrs. Etta Stiles of this city.

Pittsburgher to Wed in Canada.

Many Pittsburghers will be interested in the approaching wedding of Miss Ida Smith of Peterboro, Canada, and Albert Dornbush of this city, which is scheduled for Friday, September 15. The ceremony will be performed at the bride's home in Peterboro, and after their wedding trip Mr. Dornbush will bring his bride to Pittsburgh, where they expect to go to housekeeping. The engagement was announced a short time ago at a 500-party at which Miss Grace Griffith Clayland of Wellesley avenue, East End, was hostess.

Stoner-Winner.

Post-nuptial announcement is made of the marriage of Miss Della May Stoner, daughter of Mr. and Mrs. C. S. Stoner of Butler, and Harry E. Winner, principal of the Duquesne public schools, which took place yesterday. The ceremony was performed at the residence of the officiant, the Rev. W. G. McConnell, pastor of the Fourth Presbyterian church of New Castle and a college friend of the bridegroom. Immediately after the ceremony the couple left for a tour of the lakes, to be at home in Duquesne upon their return.

Going to Lake George.

Miss Alice Ablet and her father, Job Ablet, of Fulton street, Allegheny, expect to leave this evening for Silver Bay, Lake George, to be gone for a month. The marriage of Miss Laura Gertrude Ablet and Dr. J. M. Fetterman, a son of the late Judge Fetterman, will be an event of the fall.

Notes of Society.

Mrs. Mathilda A. Lytle, formerly of Crafton, announces the engagement of her daughter, Miss Isobel Kathern Orr, and Robert Sloan of Aspinwall, the wedding to be a fall event.

Mrs. Joseph P. Reed, Miss Marguerite Reed and Miss Bessie Reed of Thomas boulevard, left last evening for the Adirondacks and the Hague, Lake George, where they will spend a month.

Mrs. G. E. Wetherton and her daughter, Miss May Wetherton, are spending a couple of weeks at the Imperial in New York city. They will return to their apartments in the Iroquois about August 15.

Among the Clubs.

Monster Picnic of Loyal Legion.

The annual field day of the Loyal Temperance Legion of Allegheny county will take the form of a monster picnic in Homestead park August 12. The afternoon will be devoted to sports, including a baseball game between the young women of Homestead and Wilkinsburg, another between Wilkinsburg young men and a team from the East End. There will be egg and wheelbarrow contests for girls and many unique races for both girls and boys. Handsome prizes will be distributed among the winners. Supper will be served at 6 o'clock, followed by a corn roast. Miss Laura Steen of Homestead is the general chairman of the arrangements committee, Howard Evans of the East End and W. H. McWhorter of Wilkinsburg, assistant chairmen; S. V. Reeves and P. T. Gamble, masters of ceremony, and Mrs. A. M. Jones of Wilkinsburg general secretary.

Notes Progress of New Building.

The board of managers of the Protestant Home for Incurables in Butler street, Lawrenceville, yesterday looked over the work which has already been done toward the erection of the new building for the men. It was the occasion of the regular monthly meeting of the board, and the first time a number of the managers had been together since ground was broken two weeks ago. Much progress has been made, and the stone foundation walls are already up. The contractor has promised to complete the work and turn over the new building to the board in December.

Jewish Hospital Benefit.

The Hebrew Ladies' Hospital Aid society held a very successful benefit yesterday afternoon and evening in Luna park. There was dancing in the pavilion from 2 o'clock until 11:30, while many other attractive features were prepared by the women for their patrons. The proceeds of the benefit will be used to defray the expenses of the work of the society, which is carried on among the sick poor, and to increase the building fund for a new hospital to be erected at a cost of over $50,000 on a lot already purchased in Reed and Miller streets, near the Passavant hospital.

Finding Homes for Children.

The report of the Children's Aid society of Western Pennsylvania for the month of July shows that 179 children are now under its care and protection. The society provides homes for the children, in some of the cases the parents paying for their board. During July there was but one death reported, while four new cases were received. At present the society has under its care only two infants, one of them being a boy two months old, whom the managers wish to have adopted into some good home. At present he is being boarded with a family in the East End.

Program Committee Hard at Work.

The program committee of the New Era club has almost completed its work and the program for the meetings during the coming season is about ready for the printers. The committee will meet on Friday, when it is expected the finishing touches will be given to what has already been pronounced the most interesting outline of work the club has ever taken up. The New Era club is a department club, and several meetings throughout the winter and spring will be in the care of each of the civic, philanthropic, science, forestry and home departments.

Inter-County Institute and Contest.

In Ridgeview park, near Blairsville Intersection on the Pennsylvania lines, this evening an oratorical and vocal contest will be conducted under the auspices of the inter-county institute of the Woman's Christian Temperance union, comprising Allegheny, Armstrong, Butler, Cambria, Fayette, Indiana and Westmoreland counties. The contest will be under the direction of Mrs. A. M. Jones of Wilkinsburg and Mrs. E. S. Sproull of New Alexandria. The program will consist of songs and recitations, among the local contestants being Miss Grace Griffith Clayland of the East End, Mrs. Mary Cunard Beaudet of Verona and Miss M. Pitt of the South Side. George Elder of this city will be the accompanist.

Bellevue Branch of Milk and Ice Society

The Bellevue branch of the Sterilized Milk and Ice Association will hold a meeting this afternoon at 2:30 o'clock in the home of Mrs. Frank East in Lincoln avenue, Bellevue. The women of Bellevue, Avalon, Ben Avon and other surrounding boroughs are invited to be present. The branch intends to establish a distributing station of the association in the Woods Run district, Allegheny, and for that purpose gave the successful Japanese party which was conducted last week, netting the branch about $600.

Doings at Atlantic City

ATLANTIC CITY, N. J., Aug. 1.—(Special.)—All doubt as to whether the Atlantic City beach offers proper grounds for a speeding course for automobile races was settled today when J. T. Thomas, Thomas Lavine and Everett Mehrer, three enthusiasts who took part in the Cape May tourney, ran their machines three abreast along the strand at a mile-a-minute clip, for three miles, between Ventnor and Longport, for a trial of the sand course. The test made satisfied them that the course is perfectly safe and satisfactory, and a meeting was held tonight to incorporate a racing association and arrange for a racing tournament on August 26. The contests will be open to all comers and the valuable trophies offered are expected to bring some of the fastest machines in the country.

Headquarters have been opened at Youngs hotel for the Knights of Columbus, who are expected here on Saturday, 5,000 or 6,000 strong. The embarkation day ceremonies will take place in the afternoon and a reception will be given at night on the steel pier.

CHANGE IN QUESTIONS DOESN'T AFFECT LICENSES

Sheepskins Will Be Issued to Those Who Passed Examination of the State Medical Board.

[By Private Wire to The Gazette.]

HARRISBURG, Aug. 1.—Attorney General Carson having given the state medical council a verbal opinion that licenses should be issued to those who were successful in passing the examinations before the board of examiners representing the State Medical society at Philadelphia and Pittsburgh recently, a majority of the members of the council have finally voted to follow the attorney general's advice. Objection was raised to the issuing of licenses to the successful candidates on the ground that two questions in chemistry were changed by certain members of the board during the examination.

"The candidates should not be made to suffer for something that is not their fault," said Dr. Nathan C. Schaeffer, secretary of the medical council. "It would be an unspeakable outrage to require about 450 graduates in medicine, from different parts of the country, to go to the trouble and expense of taking another examination because there was a misunderstanding among the several examining boards in regard to two of the questions which were submitted to the candidates for license to practice medicine in Pennsylvania."

HARD MAN TO KILL.

Buck Smith, With Two Ordinary Fatal Wounds, May Recover.

Buck Smith, the negro, who was shot twice Sunday morning during a quarrel at the home of W. H. Cooper, in Brick alley, McKeesport, seems to bear a charmed life. For the third time he has a fair chance to escape death.

Smith has two bullet wounds in his body, either one of which would ordinarily kill a man. About three years ago Smith went to the hospital badly cut and slashed about the head and face, in addition to having his throat cut, and it was thought at that time that he would die. Previous to that he was an inmate of the hospital for several weeks suffering from concussion of the brain and several broken bones. While working for a contractor in Duquesne, he fell 40 feet from a scaffold and struck his head.

SHOWS IRREGULARITIES.

Philadelphia Bureau Clerk May Be Prosecuted for His Practices.

PHILADELPHIA, Aug. 1.—(Special.)—Criminal prosecutions of former attaches of the bureau of city property may result as a consequence of the inquiry which Director of Public Works Acker has instituted. Making public yesterday his reasons for dismissing Chief Clerk Isaac A. Elliott and Superintendent John M. Dunkle, Director Acker asserted that gross irregularities in the financial operations of the bureau had been discovered.

Director Acker said that Elliott retained money paid into the bureau which at once should have been turned into the city treasury.

PITTSBURGHER RETURNS FROM YELLOW FEVER CITY

A telegram was received yesterday by George L. McCoy of No. 5514 Baum street, from his son, Thomas J. McCoy, who has been erecting a power plant for the American Bridge Company in New Orleans, stating that he will reach Pittsburgh some time today. Mr. McCoy was in New Orleans at the outbreak of the yellow fever epidemic and in a recent letter to his parents stated the fever was confined to the foreign quarters, and the authorities were confident they had the situation well in hand.

Strange Woman's Suicide.

MEADVILLE, Aug. 1.—(Special.)—Mrs. C. C. Nelson shot and killed herself in a room at the Lafayette hotel last night. She registered from Buffalo and retired. This afternoon her body was found, dressed in the finest of raiment, evidently in preparation for the deed. She left several addresses of friends, who were notified by telegraph. They responded at once, and the body is being held pending their arrival.

Turkeys for Plenipotentiaries.

MAYSVILLE, KY., Aug. 1.—A local company today shipped to a firm at Portsmouth, N. H., 25 dozen turkeys. The letter from the firm states that the turkeys were intended for dinners to be given the Japan-Russian peace commissioners.

Business Men Benefited

by increased train service over Baltimore & Ohio railroad. Eight fast trains every day between Pittsburgh and Wheeling. All through trains to Parkersburg, Kenova and other Ohio river points now leave Baltimore & Ohio station, Smithfield and Water streets. Call on agents for schedules.

In making your will it is well to remember that The Safe Deposit and Trust Company of Pittsburgh, Fourth avenue and Wood street, is an executor whose life is perpetual; and that the entire resources of the company are liable for the faithful administration of trusts committed to it.

Sold the Realty.

A. R. Johnson, Linesville, Pa., states he sold two improved farms through Gazette real estate ads.

COUNCIL DEADLOCKS.

Millvale Solons Hold a Lively Session. Firemen Demand Better Quarters. Street Paving Tangle.

Millvale council deadlocked on a street paving ordinance last night and indulged in a heated discussion on the proposed new municipal hall and engine house.

Bids were received from John Battenfield of Millvale, and the Sawder Construction Company for the paving of Elizabeth street. The Battenfield bid was the lowest, but the quality of brick to be used was not specified. After a lengthy debate the vote on the ordinance proved a tie, 3 to 3. The question was laid over to the next meeting of council.

Councilman England proposed that the $5,000 appropriated at the first of this year for the erection of a borough hall and engine houses, be held over for a year until another appropriation was made, as the $5,000 was insufficient. The debate grew heated and Councilman Huling declared that as the firemen had threatened to quit if they were not soon provided with a new building, he was in favor of letting them quit and organizing a new company. Many arguments were made in favor of the firemen and their service in the past and the extremely dilapidated condition of the present engine house and lockup was cited.

Borough W. S. Cooper spoke as a member of the fire department, and declared that if council delayed the building further, the people would approve of issuing sufficient bonds to cover the necessary expenditures.

The firemen held a meeting last night and appointed a committee to confer with the property committee of council.

OPERATOR DERAILS TRAIN.

Had Choice Between That and Disastrous Collision and He Chose the Lesser Evil.

FT. WAYNE, IND., Aug. 1.—The tower operator at Kendallville, where the Lake Shore crosses the Grand Rapids & Indiana railroad, confused signals tonight and in order to prevent the west-bound Lake Shore flyer and a south-bound train from Rome City to Richmond from crashing into each other, the operator derailed the latter train, throwing the engine and three coaches into the ditch.

The engineer was seriously hurt, but no one was killed. The Lake Shore train did not stop.

Wanderer Richards Goes to Jail.

William Richards, who says he has no home, was yesterday sent to jail by Magistrate Negley on charges of larceny and forging, made by James B. McDonald, a carpenter, of Rebecca street, Wilkinsburg. He charges Richards with entering a house in the course of construction and taking $50 worth of lumber, and with forging his name to a check for $15 drawn on the Central National bank of Wilkinsburg.

Eighteen New Typhoid Fever Cases.

Eighteen cases of typhoid fever, eight of scarlet fever and three of diphtheria were reported to the Pittsburgh bureau of health yesterday.

WALKS FROM CHICAGO.

Mrs. Wickets Says She Made the Trip With a Few Trolley Rides, in Fourteen Days.

Mrs. Katherine Wickets, aged 75, of South Chicago, Ill., reached Pittsburgh last night, having made the trip, she says, by walking and using trolley cars, in 14 days.

Mrs. Wickets, who is German and cannot speak English, says she is on her way to Washington to ask the president to aid in securing possession of property left her by her husband. She asserts the Chicago authorities have taken all the papers relating to the property and for that reason she is unable to obtain justice.

The old woman says she had but $5 when she left Chicago, but had been given food and shelter along the road by persons to whom she told her story. She was given shelter in the South Side police station last night. The police think she is slightly demented.

OPERATORS ARE OUT.

General Strike Is on on the Lines of the Northern Pacific and Great Northern.

ST. Paul, Aug. 1.—A general strike of the telegraphers of the Great Northern and Northern Pacific railways was ordered at 11 o'clock tonight by President Pelham of the Order of Railway Telegraphers.

President Pelham is confident that by tomorrow noon 95 per cent of the operators will be out.

Hyde Is Not Engaged.

NEW YORK, Aug. 1.—The reported engagement of Miss Gladys Deacon and James H. Hyde was given authoritative denial today by a member of Miss Deacon's family.

RELIEF BOARD MEETS.

Prominent Ministers and Elders of the Reformed Church Holding an Important Session Here.

The ministers and elders appointed by the General Synod of the Reformed church in the United States, at its recent triennial session at Allentown, Pa., to constitute a board of ministerial relief, met and organized at the Hotel Lamont last evening. The 11 members who were present out of the 12 appointed, elected the Rev. Philip Volmer of Philadelphia, president pro. tem, and the Rev. J. M. Schick of Washington, secretary. A charter was drawn up and rules governing the work of the board adopted. The session will last for several days.

The members of the board are: The Rev. T. M. Yundt, Reading; the Rev. J. W. Memingen, Lancaster; Elder George Leinbach, Reading; the Rev. John M. Schick, Washington, D. C.; Elder E. D. Schullenberger, Carlisle; the Rev. H. C. Nott, Milwaukee; Elder H. E. Shortmeier, Indianapolis; the Rev. P. S. Kohler, St. Marys, O.; the Rev. Phillip Volmer, Philadelphia; the Rev. C. M. Hartzell, Latrobe; the Rev. J. H. Steel, Tiffin, O., and the Rev. E. E. Royer of Chicago. All were present except Elder Leinbach, who was detained by illness.

OBJECT TO WAGE REDUCTION.

Bottle Blowers at Atlantic City Oppose Move to Compete With Machines.

ATLANTIC CITY, N. J., Aug. 1.—(Special.)—Prospects of a reduction in wages to meet the competition of machine made bottles and jars is causing uneasiness in the conference between members of the wage committees of the Glass Bottle Manufacturers' association and the Green and Flint Glass Blowers' association which opened here yesterday.

John Ralston of the Cunningham Glass Company of Pittsburgh is chairman of the conference and the other manufacturers present are: George Levis, Alton, Ill.; George Bacon, Millville, N. J.; John P. Whitney, Glassboro, N. J.; L. W. Stoeber, Ohio; William Baker, Poughkeepsie, M. W. Jack, Streator, Ill.; J. R. Root and L. L. Turner, Terre Haute, Ind.

PITTSBURGH LODGE, B. P. O. E., TO PICNIC AT LUNA PARK

Arrangements have been completed for the third annual outing today of Pittsburgh lodge No. 11, Benevolent and Protective Order of Elks. Letters have been received from out-of-town lodges that they will attend in a body and bring a host of their friends along. The dancing pavilion at Luna park has been given over to the Elks. It will be necessary for non-members to have an invitation for admission to the pavilion, which can be secured from any member of the Pittsburgh lodge. With the many other attractions the Elks of Allegheny county expect this event to be a banner one and only excelled by a grand lodge reunion.

National Supply Company Fills the Presidential Vacancy

At a meeting of the board of directors of the National Supply Company, called yesterday, to fill the vacancy caused by the death of President Henry M. Wilson, the following officers were elected: President, William Harper; vice president, W. C. Hillman; second vice president, James H. Barr; secretary, C. W. Pratt; treasurer, F. B. King; assistant secretary and treasurer, R. J. Free. The calling of C. W. Pratt to the secretaryship of the company brings back an old-time oil producer and one familiar with the supply business. Since Bayne, Wilson & Pratt consolidated with the National Supply Company, some five or six years ago, Mr. Pratt took an active part in the business. Mr. Bayne is now president of the Seaboard National bank of New York.

The few completions reported from the lower pools fail to be not better than small pumpers. Very few are important as to location. There is one exception—the Philadelphia Company's test on the C. W. Swisher farm on Big Camp run, Sardis district, Harrison county. It has been drilled through the Gordon and found a very light show. This formation, it is now drilling to the fifth sand. In the Salem district the South Salem Oil and Gas Company has completed a test on the Smith-Rohrbaugh farm and will not have better than a 10-barrel pumper in the Gordon. In the Wallace district the South Penn Oil Company has drilled its test on the O. S. Ritter farm 12 feet into the Gordon and the hole has filled up 150 feet with fluid. Unless a second pay is encountered it will make a very small pumper. In the same district the same company has drilled its second test on the M. A. Barker farm into the stray and has developed no oil or gas. In the Littleton district, Wetzel county, the Rose Natural Gas Company has completed and shot its test on the Henry Shriver farm. The well made a 22-barrel flow and the hole stands full of fluid. It will be put to pumping and will make a 15 or 20-barrel producer from the Gordon. In the Smithfield district the South Penn has drilled its No. 1 on the Samuel Cummings farm 100 feet into the fifth sand and has a little show of oil. Unless a second pay is encountered it will be drilled to the Gordon. On the river front in Wood county, J. M. Henrie has completed his No. 5 on the Morgan Herrie farm and has a five-barrel pumper in the Gew run sand at a depth of 900 feet. On the Ohio side, in the Lewisville district, Monroe county, W. G. Decker has drilled his test on the Marion Fisher farm through the Keener and has a show for a five-barrel pumper, in the same district the Emery Oil Company has drilled its No. 5 on the Pritz Weaver farm through all sands and has a duster. In the Chester Hill district, Morgan county, the Ohio and Indiana Oil Company has completed its No. 22 on the C. G. Fox farm and has a light pumper. The same company has completed No. 26 on the W. W. Starling farm and has a pumper good for five barrels a day. In the Joy district, in the same county, the Midland company has completed No. 27 on the J. H. Jones farm and has a five-barrel pumper.

West of the Bakerstown tunnel, Allegheny county, Pa., the Pittsburgh Rose and Carnation Company has drilled its No. 3 on the Crystal farm 9 feet deeper into the 30-foot and has a very strong gasser. At Brightwood, S. D. Robinson has drilled No. 3 on the Gibson heirs' farm into the 100-foot and has a show for a 10 or 12-barrel pumper. It will be drilled to the bottom, and if nothing is found, will be put to pumping from the 100-foot.

Shipments and Runs.

Shipments and runs of the Pennsylvania, Ohio and Indiana fields:

PENNSYLVANIA OIL.

RISE IN MONEY RATES CAUSES REACTION IN STOCKS

Declines Were General, but Not Important—Strong Rally in Several Prominent Stocks in the Pittsburgh Market.

By JOHN O. BAGLIN, Financial Editor.

The New York stock market yesterday was less active, the sales falling below 600,000 shares, and the same irregularity in prices noted on Monday was again apparent. Late in the afternoon a general reaction occurred and nearly everything on the list declined, the tone at the close being heavy.

The reaction was generally ascribed to the higher rates for call loans, which at one time reached 2¾ per cent, the highest for about three weeks, and closed at 2¼ per cent. The end-of-the-month requirements may have been responsible for the advance, or it may be that the report that Japan was checking upon its balance with its London bankers led Wall street to believe that it might come our turn next and that the large balance which Japan is carrying in New York would be drawn upon. However, 2½ per cent is not an extortionate rate for call loans, and it is just possible that when the professional traders noticed that the public was not disposed to follow the bull leaders, they took the other side of the market for a turn. While the declines were general, they were not important.

The most active stocks at the opening were the industrials and moderate advances were scored in the early dealings. American Smelting common touched 125¾, a new high mark, and Amalgamated Copper crossed 85, but both met with extensive profit-taking which wiped out the gains and closed the stocks practically at Monday's prices. Sugar was also active and higher, but closed with a loss of ⅝ per cent. There were heavy dealings in the United States Steel stocks during the early part of the day, and these held their position relatively better than other industrial issues. Tennessee Coal and Iron lost 1⅞ per cent, and the railroad equipment stocks closed ¼ to ½ per cent lower.

There was much irregularity in the railroad list. At one time Chicago & Northwestern was taken up and advanced sharply, just as Lackawanna did the day before, but other investment railroad stocks remained stationary or only fractionally changed. The government weather bulletin reporting favorable conditions for corn and spring wheat had no effect upon the stocks of the roads traversing the grain belt. Union Pacific sold off rather sharply and closed 1⅛ per cent lower. St. Paul closed 1 per cent lower and Canadian Pacific 1¼ per cent lower. Atchison made its report for June, showing an increase of $763,000 in gross earnings, but a increase of only $68,000 in net, and the stock declined to 87. At one time Pennsylvania was heavily bought by large professional traders and advanced to 143⅝, but it lost all the and closed ¼ lower for the day. ges in the remainder of the list were portant. The commodity markets also active and irregular. Copper ed and closed near the lowest. Sepber wheat closed 1 cent lower, while ures slightly higher, despite the gov- crop report showing that the crop looking good progress.

news of the day was not influen- e only incident directly bearing ock values being the advance of th of a cent a pound in the official e for copper, which is now quoted highest of the year.

e was a better distribution of s on the Pittsburgh stock exe than for weeks past and the tone e market was better. The sales ly exceeded 12,500 shares, and in total there was a smaller amount of riced mining shares than usual of The most active stock was Phila- n Company, which sold to the ex- 2,800 shares at 45¾ to 46, the close at a net gain of 1½ points. The re- t activity in this stock which has dormant for months on the local was ascribed to the publication of tatement for the six months ended 30 last, showing an increase of $181,- 000 in gross earnings from operations, and an increase in surplus after interest charges and preferred dividend of $44,276. The natural gas stocks were active, Manufacturers Light & Heat selling at 36 and Ohio Fuel Supply advancing to 41½ on the report that the company would shortly increase its capital stock for the purpose of providing funds for an extension of its system to Cincinnati.

The Coal stocks were less active, but steady to firm. Pittsburgh Coal common sold at 15¼ to 15⅝, and the preferred advanced to 57¼, but subsequently reacted and closed unchanged at 56½. River Coal preferred sold unchanged at 25 to 25⅛. This company is now sending to the southern markets one of the largest tows ever shipped.

The principal activity in the remainder of the list was in the mining stocks. Luster made a new high record by selling at 38¾ and closed with a net gain of 1¼ points. United Copper also made a new high record by selling at 34½, the movement being based upon a report received from the mines of a rich strike made in one of the properties of the company.

Independent Brewing common was active and firm, advancing to 17¾, and the preferred was in good demand at 41. The Steel stocks were moderately active and firm, Crucible preferred closing ⅜ per cent higher. National Fire Proofing preferred was the only prominent stock to close at a loss. The market closed active and firm.

BIG BUILDING IN SEVENTH STREET

Nicola & Shenk Will Soon Start a 12-Story Warehouse to Cost $125,000.

GOOD SALE IN SEWICKLEY

Tenants in the old buildings on the west side of Seventh street and immediately in the rear of the Second Presbyterian church property have been notified to vacate, and in a few days the old buildings will be razed to make room for a 12-story warehouse, it is said, to be erected by F. F. Nicola and Wilbur Shenk on 60x110 feet, which they acquired some time ago. The building will cover the entire lot and will be equal in construction and appearance to any similar structure in the city. It will be so planned that the floors can be rented singly or two or more together so a tenant or tenants can secure half or a quarter of a floor, if desired. This so-called "omnibus" style of building is becoming very popular in Pittsburgh, especially for wholesale firms which can get quarters to suit their needs. Work on the building will be rushed so that it will be ready for occupancy April 1. The building will cost at least $125,000.

Sixty feet farther down the street Henry J. Lang will have the contract awarded this week or next for a six-story warehouse, 20x110 feet, which he will occupy with his wholesale shoe business. Almost directly across the street George Nicola is erecting an eight-story warehouse that will cost $75,000, and a little farther down on the east side is the new six-story warehouse which Nicola & Shenk built for the Gerber Carriage Company. Two more deals for Seventh street properties, if consummated, will be followed by the erection of modern buildings for business purposes, and it will not be long at the present rate of progress until the entire frontage between Penn avenue and Duquesne way is improved with new buildings. The ordinance providing for the new grade of this part of Seventh street was passed two weeks ago, and when the street is brought up to a level of Penn avenue and the new buildings made to conform to the new grade, its desirability as a business street will be much more fully evident.

More Buildings to Be Figured.

Revised plans for two of McKeesport's school houses have been nearly completed by Architects E. J. Carlisle & Co. and Thomas J. Herron, and bids will be taken on the erection of the buildings about August 10. The former firm designed the Ninth ward building and the latter architect the Versailles avenue school house. Each building is expected to cost about $52,000. Architect Herron is also taking estimates on a three-story brick and terra cotta bank building for the First National bank of Chester, W. Va., to cost $25,000.

Architect C. M. Bartberger will take bids Friday on the six-story brick warehouse to be erected by F. E. Schenck at 430-432 Penn avenue at an estimated cost of $80,000.

Bids are being received by Architect R. Maurice Trimble on a four-story fireproof brick apartment house at Howe street and Maryland avenue, Twentieth ward. Matthew Andrews is the owner and the building will cost about $40,000. It will contain eight apartments of seven rooms and two bathrooms each, one bath being for the servants, a decided innovation in flat building in this city. Architect Trimble is also taking bids on the St. Thomas Protestant Episcopal church at Oakmont, to cost about $40,000. Bids will close August 11. The same architect has plans for a six-story brick store and warehouse building, 138x172 feet, on the west side of Market street, between Third and Fourth avenues, for H. H. Willock. The building will have a glazed terra cotta front and will cost about $50,000.

Architects Allison & Allison have awarded the contract to the Hastings Lumber Company of Indiana for the two-story brick and terra cotta building of the Citizens National bank of Vandergrift to cost $12,000.

Popular Actress Sells Her Home.

Edward Gray, president of the Pittsburgh Mercantile Trust Company, has purchased from Miss Lulu Glaser, the actress, her former handsome home in Sewickley for $18,000 cash. The deal was negotiated by Joseph P. Rankin & Co., and the purchaser will occupy the property as a home. It consists of a modern frame house of 14 rooms on 140x170 feet at the northwest corner of Beaver and Nevin avenues and has a large stable in the rear. The residence is directly across the street from the $60,000 home of John Porter, and is near the new $20,000 house of Mrs. James W. Arrott and the tasty homes of Robert Clark of the Reliance Insurance company and Architect A. F. Harlow.

Through the office of M. J. Ehrenfeld, C. E. Wade has sold to Thomas W. Hodkinson a 10-room brick house with modern improvments on 29x127 feet on the southeast corner of Fifth and Meyran avenues, Fourteenth ward, for $18,500. The large house in front rents for $115 a month and there is also a small dwelling in the rear.

John H. Armstrong has sold to Harry P. Kuhn an improved lot, 25x100 feet, on the south side of Penn avenue, Tenth ward, for $15,000.

H. M. C. Holburd has bought from John A. Knorr an improved lot, 40x130 feet, on the north side of Bennett street, Thirty-seventh ward, for $16,500.

Louis Siff bought from Samuel D. Waxman an improved property, 40x110 feet, on the south side of Center avenue, Eleventh ward, for $16,500.

Ralph Longenecker sold to Elizabeth L. Kimball an improved property 58x121 feet, on the east side of Dahlia street, Twentieth ward, for $10,674.

New York Values Going Skyward.

According to the statements of Pittsburgh brokers who have lately visited the metropolis, real estate prices and values in New York are going up this summer at a rate that is almost incredible. This is especially true of two sections, the "flat lands" of Brooklyn, between Manhattan Beach and that city, and that part of Long Island just below Jamaica, and near Floral park and the Belmont race track. Two years ago the "flat lands" of Brooklyn were cornfields. Now they are covered with residences costing from $8,000 to $10,000 each and facing on broad macadamized streets. Six years ago $500 an acre was considered a good price for this land. Now it brings $10,000 an acre. Its location, 45 minutes from the city, and the strict building restrictions that have been thrown around the place, have made it a scene of great activity in building of a good class.

On the part of Long Island designated and where Charles Crosby and several other Pittsburghers have invested considerably of late, land is now selling at from $1,000 to $2,000 an acre on the main line of the Long Island railroad. It is freely predicted that these prices will be doubled within a year. When the tunnel under the East river is completed this property will be within 20 minutes ride of the Thirty-fourth street station in New York city. Investors in this locality have just started to sell lots, 20 foot plots going at from $500 to $650 each. Very little of the land, however, will be sold this year, as it is strongly held and the owners are content to await developments and the rapid rise in values that is sure to follow.

Sales Made by Brokers.

Elliott: The Mortgage Banking Company sold for the Lawton Real Estate Company a seven-room frame house on 25x100 feet in Union avenue, Thirty-ninth ward, for $3,200.

Ingram: H. M. Blackley sold for Mrs. Nancy J. Wagner to John G. Garbart 54x150 feet in Prospect avenue, Ingram, for $2,050, as the site for a new building.

Allegheny: The Real Estate Savings and Trust Company sold for Cora Friten to John Hastings an improved lot, 36x187 feet, at 1233 Idlana avenue, Sixth ward, Allegheny, for $3,900. The same company sold for William T. Lynn to Millie Holsberger lot 50 in the Burgess plan for $400.

Summit park: Keck, Helle & Daschbach sold for the Summit Park Land Company 100x200 feet in Library avenue, Summit park, for $750. The lot is known as No. 218.

Wylie avenue: The Aronson Realty Company sold for Elizabeth Nikirk, William and Rebecca Miller to Louis Harris 21½ Wylie avenue, a brick building on 22x76 feet, for $2,700.

Hazelwood: Catherine J. Kelly sold to Mary A. Hemery an improved lot, 26x126 feet, on the south side of Second avenue, near Almeda street, Twenty-third ward, for $4,000.

Forbes street: Mary A. Keogh sold to Dennis F. Shanahan an improved lot, 20x120 feet, on the north side of Forbes street, Fourteenth ward, for $6,385.

Main street: James S. McCall sold to John Falk an improved lot, 25x100 feet, in Main street, Seventeenth ward, for $4,700.

Rutherglen street: Mary Munn sold to Anee Harynak an improved lot, 25x110 feet, in Rutherglen street, Twenty-third ward, for $3,500.

Forbes street: William H. Ward sold to G. C. Hartman an improved lot, 34x93 feet, on the south side of Forbes street near Craig street, Fourteenth ward, for $5,500.

Millvale avenue: Bernard Gloeckler sold to Thomas T. Kirk an improved lot, 50x115 feet, on the west side of Millvale avenue, Twentieth ward, for $5,000.

FOUNDRIES' NEW PRESIDENT.

M. V. Kelley Is to Succeed General Charles Miller—Bond Issue Has Been Underwritten.

NEW YORK, Aug. 1.—The directors of the American Steel Foundries Company will meet Wednesday and M. V. Kelley, president of the Simplex Railway Appliance Company at the time it was absorbed by the foundries company, will be elected president, succeeding Gen. Charles Miller.

It is announced that the $3,500,000 6 per cent bond issue has already been underwritten. In a circular recently issued, it was stated that the bonds would be offered to the stockholders pro rata at 30, and the bonds not subscribed for would be taken by a syndicate. Details in connection with the bond issue will probably be made public after Wednesday's meeting.

Butter, Eggs and Cheese.

NEW YORK, Aug. 1.—Butter steady. Receipts, 24,615 packages. Street price: Extra creamery, 21¼@21¾c. Official prices: Creamery, common to extra, 17½@21¼c. Cheese quiet, unchanged. Receipts, 14,407 packages. Eggs steady, unchanged. Receipts, 18,344 packages.

PHILADELPHIA, Aug. 1.—Butter firm; extra western creamery, 22½c; extra nearby prints, 24c. Eggs higher; nearby fresh, 19c loss off; nearby fresh, 18c at mark; western fresh, 18@19c at mark. Cheese firm; New York full cream fancy, 11¼@11½c; same, choice, 11c; same, fair to good, 10@10¼c; domestic Swiss, 11@14c.

CHICAGO, Aug. 1.—On the produce exchange today the butter market was firm; creameries, 17@20¼c; dairies, 16c. Eggs firm; at mark, cases included, 16c; firsts, 17½c; prime firsts, 19c; extras, 21c. Cheese firm at 10½@11¼c.

Coffee and Sugar.

NEW YORK, Aug. 1.—The market for coffee futures opened irregular at an advance of 5 points on October, but generally unchanged to five points lower under scattering liquidation, following rather lower European markets than expected and predictions of increased receipts. Europe and local longs were selling early and prices at one time were about 5@10 points lower, but Wall street bought at the decline and the market later ruled generally steady, with the close steady net unchanged to 10 points lower. Sales were reported of 47,750 bags, including September at 6.90@6.95c; October at 7.00@7.05; December at 7.25@7.30c; March at 7.45@7.48c; May at 7.55@7.60c; spot steady at 7.60c. Spot Rio quiet, mild steady. Sugar—Raw firm; fair refining, 3 7-16@2¼c; centrifugal 96 test, 4 3-32@4¼c; molasses sugar, 3 3-14@3¼c; refined firm.

Turpentine and Rosin.

SAVANNAH, GA., Aug. 1.—Turpentine firm, 57¼c. Rosin firm. Quote: A, C, $3 20; D, $3 40; E, $3 80; F, $3 87½; G, $3 95; H, $4 05; I, $4 10; K, $4 15; M, $4 30; N, $4 45; W G, $4 85; W W, $5 10.

CHARLESTON, S. C., Aug. 1.—Turpentine and rosin, nothing doing.

WILMINGTON, N. C., Aug. 1.—Spirits turpentine firm, 56½c. Rosin firm, $2 10. Tar firm, $2 00 bid. Crude turpentine firm, $2 50@4 00 and $4 25.

Chief Wilkie Returns.

WASHINGTON, Aug. 1.—Chief Wilkie of the United States secret service returned to Washington today after an absence of three and a half months, mostly spent in China and Japan on government business.

SUGAR SITUATION MOST INTERESTS THE MARKET

One Big Refining Company Blames the Other for the Present Fight.

The sugar situation is troubling more dealers just now than anything else in the local markets. That there is a fight on seems to be borne out by the statement issued by one of the big refining companies this last month. The statement was furnished to jobbers and was to the effect that competitors had persisted in granting rebates to favored customers. In retaliation this company announced that it would grant rebates to all customers until September 1. Despite this circular, wholesale dealers state the sugar market is gaining strength and prices are going to advance. The circular, it is true, deals with the eastern market, but the effect of such competition is bound to be felt in this section. Unless a feud is fixed up between the rival refiners it is difficult to tell how the sugar market will gain strength and prices advance. The market is lower than it has been for a year or two.

In green goods, produce and fruit there were no changes to record yesterday. There was a strong demand for goods of every kind and the Liberty street dealers believe July will show a greatly increased business over June, which was the banner month for the past two years. The quality of goods being received is of the best, and there is no trouble on that score with customers and consumers. Eggs and butter continue to hold their high figures, with no prospect of a break.

HAY AND GRAIN.

Receipts.

Receipts yesterday were: Pennsylvania, 20½ cars, 3½ corn, 23 hay, 6 straw, 5 feed; Baltimore & Ohio, 1 oats, 2 corn, 6 hay; Pittsburgh & Lake Erie, 5 cars, 2 corn.

Hay continues firm, with no change in quotations. Oats are dull. New oats are arriving, which has a tendency to reduce prices on old stock. New ones are selling at 33 to 34 cents. Corn is steady, with the situation in any the same as noted yesterday. There is no change in mill feed.

WILL OPEN HOUSE HERE.

Battaglio Fruit Company, Rival of the United, Ready for Business.

The Battaglio Fruit Company, the rival of United Fruit Company, the organization of which was noted in The Gazette several days ago, is about ready for business and will receive its first boatload of tropical fruit at Baltimore this week. The intention is to open a branch house in Pittsburgh and sell to the trade here.

The United Fruit Company is an immense concern, owning 116 vessels engaged in carrying the fruits of the tropics to shipping points or to markets. The company formerly sold all its fruit by auction in Baltimore, but some time ago changed its plan and now sells by the weight. Dealers objected to this, but the company insisted it was the only fair system, as Baltimore dealers got all the best grades under the old plan and left the seconds for the interior towns. The Battaglio company has been formed to oppose the big combination and will follow the old auction plan of disposing of fruit.

The Wool Market.

BOSTON, Aug. 1.—There has been more activity in the wool market and a larger volume of business done. The total sales aggregate millions of pounds. The larger mills have been buying heavily, the worsted mills especially. The market is stronger and its tendency is upward. Fullest values are firm. Territory wools are quiet. Visible Supply of Grain.

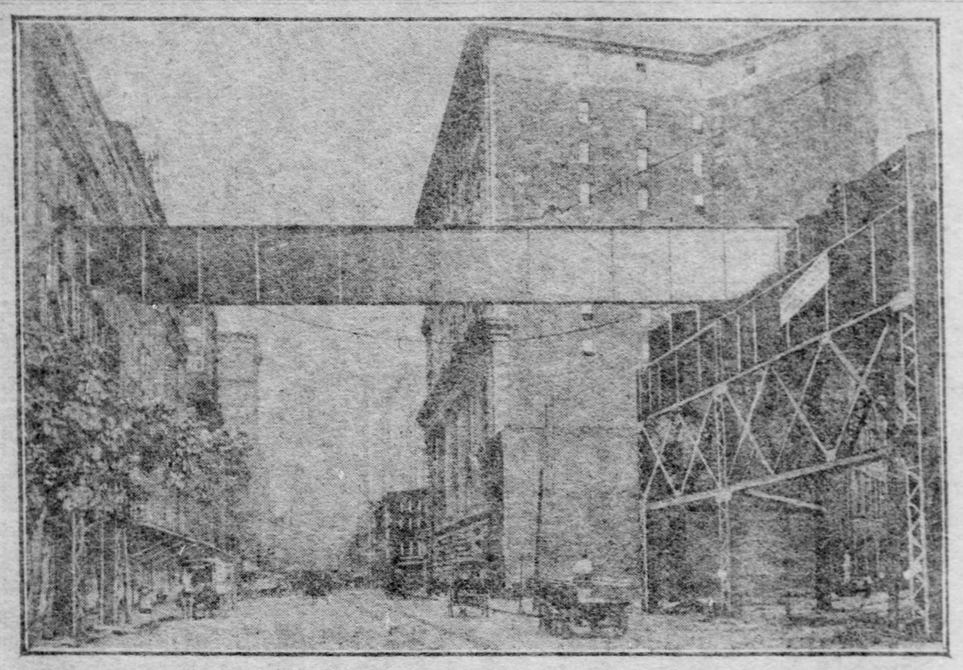
NEW YORK, Aug. 1.—Special cable and telegraphic communications received by Bradstreet's show the following changes in available supplies of grain for the week ended July 29: Wheat, United States and Canada, east of the Rockies, increased 2,720,000 bushels. Wheat, afloat and in Europe, decreased 2,320,000 bushels. Total supply, increased 400,000 bushels. Corn, United

GREAT STEEL GIRDERS THROWN ACROSS LIBERTY AVENUE



THE WABASH SPAN ACROSS LIBERTY AVENUE.

Across Liberty avenue was swung yesterday the first of the great steel girders which will soon be carrying Wabash trains. The contract for this work was awarded to the Pittsburgh Construction Company and the steel is being supplied by the McClintic-Marshall Construction Company.

The new line extends from the freight station tracks on the south side of the street to the property between the Marvin bakery and the old Methodist church, now used as a business house. The tracks are on a level with the fourth floor of the Marvin building, the elevation above the street being about 40 feet.

On the south side of the street the structure will be much wider than on the north side, the seven girders, placed rather wide apart at the south end, narrowing down in V shape at the north end. These girders are eight feet wide and weigh 18 tons each. Their lower edge is 20 feet above the top of the Pennsylvania box cars on the railroad tracks in Liberty avenue.

On the first span north of that across Liberty avenue there will be five girders, and on each of the others between that span and the river four girders will be used.

The new tracks will find their first use in the operation of the great freight station now nearing completion beside the passenger trainshed. Ultimately, in case the Wabash can secure the war department's permission to erect its proposed bridge across the Allegheny river, the tracks will serve for the line to Allegheny as well.

SHAWMUT PLANS TO EXTEND HERE

Appointment of Receiver Is First Step in an Ambitious Program.

SURVEYS ARE NOW UNDER WAY

The appointment of a receiver for the Pittsburgh, Shawmut & Northern railroad yesterday is the first step in an ambitious plan to extend the line into Pittsburgh at one end and Buffalo at the other, according to Frank Sullivan Smith. Mr. Smith should be in a position to know, as he has been for some time vice president of the road, and acting president, and was selected by the court yesterday to act as receiver.

It was stated that the plans for the extensions have been completed and that the work on the Pittsburgh end had already been started. The Buffalo branch will be built via Olean, N. Y., it was stated. The amount to be expended on the road's big plans will be $70,000,000.

The receivership was taken with the consent of the majority of the stockholders. The application was made by Frank Van Brunt, representing the Central Trust Company of New York, as trustee for the Shawmut bondholders. The company had defaulted in the payment of interest on $15,000,000 of outstanding bonds, it was alleged. There being no opposition to the petition, Justice Kenefick of Buffalo appointed the receiver.

The statement of Receiver Smith yesterday that work had already been started on the Pittsburgh extension tallies with developments which have been under way on the West Penn side of the Allegheny river recently. Last week a gang of surveyors appeared near Cheswick and started to survey that had apparently no connection with any road or railroad there now. Since then they have struck a route through Springdale, Freeport, Natrona and Leechburg, and have been heard from at all points up as far as Kittanning on the West Penn side of the river. Monday they were working on a line between Aspinwall and Claremont. Yesterday they were staking out surveys back of Sharpsburg.

To all inquiries of property owners the surveyors reply that the survey is being made for the Buffalo, Rochester & Pittsburgh Railroad Company. The line mapped out by them runs parallel with the West Penn, but hugs the hillside at a height of some 40 feet above the West Penn tracks. This is taken to indicate that the road will connect with some elevated line in Allegheny, or that it will cross the Allegheny river at a high elevation farther up. It is generally believed that the survey has a direct connection with the Wabash plans in Greater Pittsburgh, but no definite information on this point can be secured.

The new route runs almost through the middle of Cheswick and crosses the main streets of most of the towns up the valley. Following the surveyors real estate agents have appeared the last few days and tried to get options on lots that were in the line of the 60 feet right of way that is marked out. Thus far no sales have been reported, but property owners are stiffening up on their prices pending a full explanation of the recent movements.

That the "Shawmut" would not earn the fixed charges on its investment in its present shape had been prophesied by those familiar with the conditions it faced. When the road was formed in 1899 by the amalgamation of a number of small lines lying in Northern Pennsylvania and Western New York it was expected that extensions would be made which would give it the connections needed for the delivery of its main traffic, coal and lumber, to the markets to be reached. It planned to build to a connection with the New York Central and also into the coal fields of Armstrong and Clearfield counties in Pennsylvania. These extensions were not built. The coal came from Elk county and could not successfully compete with the better grade from the southern counties. The road connected at Wayland with the Lackawanna, at Bornellsville with the Erie and at Olean with the Pennsylvania. By an extension to Lake Ontario it could have reached the New York Central, West Shore and Lehigh Valley lines. The present plans look forward to a more ambitious program than ever projected before with Buffalo and Pittsburgh as the termini.

Mechanical Department Changes.

Important changes in the mechanical department of the Baltimore & Ohio railroad were announced yesterday. These changes are as follows:

A. P. Pendergast is appointed assistant master mechanic with headquarters at the Mt. Clare shops, Baltimore.

T. R. Stewart is appointed master mechanic of the Philadelphia, Baltimore & Shenandoah division, with headquarters at Riverside, Md., vice Mr. Pendergast.

E. Connelly is appointed assistant road foreman of engines of the Connellsville division, with headquarters at Cumberland, Md., vice W. T. Dietrick, transferred.

J. Kirkpatrick is appointed master mechanic at Cumberland, vice Mr. Stewart. Mr. Kirkpatrick is transferred from the New Castle division, where he has been located for some time.

Local Contractors Get Alton Work.

A Pittsburgh contracting concern, the Patton & Gibson Company, has been awarded the large improvement contract just given out by the Chicago & Alton railway. The work is the grade and line revision between Bloomington and Lincoln, Ill. It involves moving over 2,000,000 cubic yards. There is one large cut at Atlanta, Ill., that will have over 1,100,000 cubic yards and will be over 14,000 feet long. At this point the tracks will be depressed about 40 feet from the present grade. The local company obtained the award only after sharp competition. It has made an excellent reputation on its western contracts, and is now doing work for the Southern Indiana, the Indiana Harbor and the Chicago & Eastern Illinois railroads. It has recently finished a large job in Michigan for the Michigan Central.

New B. & O. Line Via Waynesburg.

About 40 Baltimore & Ohio civil engineers established headquarters at Waynesburg yesterday, placing desks and draughting tables in five office rooms of the Crossman building. They are engaged in making a railroad survey from Uniontown to Wheeling, via Waynesburg. The men are under the charge of F. W. Terhune, and their families have also removed there. The statement has been made by some of them that they will remain in Waynesburg three years, and this leads to the belief that it is the intention of the company to build the road.

Stark Is Purchasing Agent.

J. P. Stark was yesterday appointed purchasing agent of the Wheeling & Lake Erie, Wabash-Pittsburgh terminal, Pittsburgh Terminal Railroad and Coal Company and the West Side Belt Railroad Companies, with headquarters in Pittsburgh. The official circular issued by Vice President R. A. Worthington stated that in addition to his duties as purchasing agent, Mr. Stark will have entire charge of the supply department and store houses, and all material belonging to the company which is not in actual use will be under his control.

West Penn Offices in Pittsburgh.

The offices of the West Penn division of the Pennsylvania railroad are now located in the Pennsylvania Company building at Tenth street and Penn avenue. The moving started yesterday and while it will require several days to straighten up everything, the new offices are now officially occupied. The offices of the superintendent, paymaster, trainmaster and train dispatcher are on the fourth floor. The engineering offices are on the fifth floor. The ticket offices of the West Penn will be continued in Allegheny in the rear of the present building in a little frame structure.

San Pedro Line in Regular Use.

The opening of the "San Pedro Line," Senator W. A. Clark's Salt Lake City-Los Angeles railroad, is being extensively advertised in this section by John R. Poit, district passenger agent of the Chicago, Milwaukee & St. Paul, as affording, in connection with the Milwaukee road, a line to Los Angeles 500 miles shorter from Chicago via Ogden than any other route. For the present one solid through vestibuled train each way is being run daily over the "San Pedro."

Railroad Notes.

J. P. Taggart, assistant general passenger agent of the Baltimore & Ohio, went to Sea Girt, N. J., last evening to bring back to Pittsburgh tomorrow night the Pittsburgh and Homestead companies of the United Boys' Brigades of America.

The Baltimore & Ohio officials who spent Monday night in Pittsburgh started west yesterday on an inspection trip. In the party were General Manager Thomas Fitzgerald, Chief Engineer D. D. Carothers and Assistant Chief Engineer Gretner.

The removal of the offices of E. W. Westlake, superintendent of dining service of the Pennsylvania lines from Chicago to Columbus, will take place September 1. Handsome new quarters for the commissary department are being erected at Columbus.

The big freight yards of the Pittsburgh & Lake Erie at Haselton, near Youngstown, O., have been practically completed and are in service, giving the Lake Erie by far the best facilities at Youngstown for handling freight.

BENNINGTON IS AGAIN AT ANCHOR IN STREAM

Inquiry Into Cause of Explosion Will Deal With Shortage of Officers. Funeral of Ensign Perry.

[By Associated Press to The Gazette.]

SAN DIEGO, CAL., Aug. 1.—The naval court of inquiry which is hearing evidence in the disaster to the gunboat Bennington resumed its sessions today. It is understood a portion of the report will deal with the alleged shortage of officers on the Bennington, to which reference was made by Commander Young in a letter to Admiral Goodrich three days before the explosion, in which he said he had on the gunboat only four duty officers, "young and inexperienced which is likely to destroy the fine record we have made for this vessel, and to keep up the standard must have two more experienced officers."

The Bennington is again at anchor in the stream, but most of her men who are fit for duty have been transferred to the Chicago, from which they will be assigned to other vessels in the Pacific squadron. All of the injured sailors remaining yesterday at Agnew sanitarium have been removed to the barracks hospital, where there are 50 of the Bennington's men.

PITTSFIELD, MASS., Aug. 1.—The funeral of Ensign Newman K. Perry, who was killed on the gunboat Bennington at San Diego, Cal., will be held from the Episcopal church in Stockbridge Friday afternoon at 4 o'clock. Company F, Second Massachusetts regiment, of Pittsfield, will act as escort. Burial will be in Stockbridge.

TO WIDEN FEDERAL STREET.

Director Instructed to Prepare Ordinance—Other Bills Referred.

The Allegheny council committee on surveys last night instructed the director of public works to prepare an ordinance for the widening to 80 feet of Federal street from its present northern terminus to Carroll street. The ordinance for the widening of Stockton avenue, from Federal street to Union avenue and for the vacation of Church avenue from Federal street to Union avenue was referred to a committee of five, with instructions to secure from the Pennsylvania Railroad Campany a written agreement not to claim any portion of Church avenue.

The repeals of the vacation of a portion of Killbuck street was referred to the city solicitor.

Negro Shoots Young Girl.

Elizabeth Riley, aged 9, was shot in the left knee last night with a bullet from a revolver fired by Andrew Reeves, a negro, at the home of Joseph Nowell, another negro, who lives at 494 Ochill alley, near Thirty-third street. The Riley girl was taken to the West Penn hospital. Reeves was arrested at his home.

HANSEN DENIES IGNORING COURT

Claims All Blue Prints of Pressed Steel Car Company Were Turned Over to It.

VITCHESTAIN IS IN TROUBLE

John M. Hansen and the Standard Steel Car Company filed answers to the rule granted on them to show cause why they should not be adjudged guilty of contempt in failing to turn over to the Pressed Steel Car Company copies of blue prints and drawings of cars. All intention of disobeying or abating the decree of court is denied. They state the court's order had been obeyed and such blue prints as are included in its scope have been turned over.

It is claimed that many prints and drawings received by the defendant company from the Harriman lines and the Pennsylvania railroad are of cars and car parts, the designs of which did not originate with the plaintiff company, and in so far as any of the prints mentioned were copies of drawings made by the plaintiff such drawings had been copied by the plaintiff from the drawings of others.

Police Magistrate Joseph H. Vitchestain was sued for $5,000 damages by Theodore Becker, who says he was illegally arrested at his home in Wharton street, South Side, on June 20, on complaint of his wife. Magistrate Vitchestain fined him $25 and costs. He paid and then appealed to the quarter sessions court, which reversed the magistrate. Becker declares that Vitchestain called him a coward and a cur and told him he had a tab on him and would give him six months next time. He asks for compensatory and punitive damages. A capias was issued for Vitchestain's arrest and bail fixed in $300.

Kovati Kalman, a priest, has been sued for $5,000 damages by Ignatius H. Roth, a steamship agent of Greenfield avenue. Roth claims the defendant libeled him in a Hungarian paper. Attorney T. Mercer Morton represents the plaintiff.

The will of Joseph Mangold of Allegheny divides an estate of $5,000 among his children. No claims from any of his heirs for boarding are to be allowed. The share of his son Joseph is to be held in trust, one-half of the income going to his wife, who is to get the principal at the son's death. He left $10 to St. Joseph's orphan asylum and $50 for masses. Attorney Henry Meyers has charge of the estate.

J. M. Stoner, Jr., sued L. T. Yoder for $2,500. The parties own adjoining property in the Sixth ward and the defendant, it is alleged, when he started to excavate on his property did not protect the plaintiff's as it was agreed. Stoner now seeks to recover for the alleged damage.

John C. Reilly, Leopold Vilsack, Hugh Murphy and C. B. Finegan sued the Crown Petroleum Company to recover $6,818 28. The plaintiffs allege the defendants drilled an oil well on their lease in spite of notice served on it, and the plaintiffs now seek to recover the proceeds of the oil alleged to have been sold by the defendant.

A petition in bankruptcy was filed by Samuel M. Goldstein, a merchant of McKeesport. In the enumeration of his assets he avers that he has $4 in bank and furniture valued at $15. His assets are $569 and his debts $4,127 51.

Executions issued: F. L. Bretthole et al., executors, vs. Archie McIntyre et al., $111; Joseph P. Crowley et al. vs. Jennie S. Scott, $491; W. H. De Ford, use, vs. Jennie S. Scott, $859.

A summons in assumpsit was filed by the liquidating trustees of Laughlin & Co., Limited, for use of Jones & Laughlin, Limited, against the Pittsburgh & Lake Erie Railroad Company. No statement was recorded. The suit results from an old claim on freight shipments.

ONE BOY KILLS ANOTHER IN QUARREL OVER A GIRL

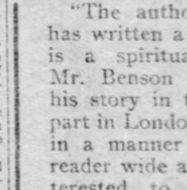
HUNTINGTON, W. VA., Aug. 1.—(Special.)—In a quarrel over a girl, Harry Bruce, aged 18, killed William Gibson, about the same age, at Harveystown. The two young men, both of whom come from prominent families, had been paying attentions to the same girl. During their quarrel Bruce struck Gibson with a stone crushing his skull and killing him almost instantly.

AWFUL PSORIASIS 35 YEARS

Terrible Scaly Humor in Patches All Over the Body—Skin Cracked and Bleeding—Itching Unbearable—Cured by Cuticura in Thirty Days at Cost of $4.75.

ANOTHER WONDERFUL CURE BY CUTICURA

"I was afflicted with psoriasis for thirty-five years. It was in patches all over my body. I used three cakes of Soap, six boxes Cuticura Ointment, and two bottles of Cuticura Resolvent. I bathed with the Soap, applied the Ointment once a day, and took the Resolvent as directed. In thirty days I was completely cured, and I think permanently, as it was about five years ago.



"The psoriasis first made its appearance in red spots, generally forming a circle, leaving in the center a spot about the size of a silver dollar of sound flesh. In a short time the affected circle would form a heavy dry scale of a white silvery appearance and would gradually drop off. To remove the entire scales by bathing or using oil to soften them the flesh would be perfectly raw, and a light discharge of bloody substance would ooze out. That scaly crust would form again in twenty-four hours. It was worse on my arms and limbs, although it was in spots all over my body, also on my scalp. If I let the scales remain too long without removing by bath or otherwise, the skin would crack and bleed. I suffered intense itching, worse at nights after getting warm in bed, or blood warm by exercise, when it would be almost unbearable.

"To sum it all up, I would not go through such another ordeal of affliction for thirty-five years for the State of Kansas. (signed) W. M. Chidester, Hutchinson, Kan., April 20, 1905."

Cuticura Soap, Ointment, and Pills, are sold throughout the world. Potter Drug & Chem. Corp., Sole Props., Boston. 32" Mailed Free, "How to Cure Torturing Humors."
